In this book, popular Fuji Rumors "X-Pert Corner" columnist Rico Pfirstinger teaches you all about the capabilities of the Fujifilm X Series lineup of cameras, which he's discovered through years of in-depth research and experimentation. No matter which X Series camera you own--whether it be the X-T2, X-Pro2, X-H1, X100F, or any other Fuji X Series camera--Rico cuts to the chase and provides a plethora of tips and practical instructions not found in any of the cameras' user manuals. With this knowledge, you will be able to take full advantage of your Fujifilm X Series camera. The Fujifilm X Series cameras have amazing features, but some users may require an adjustment period if they are new to these cameras--even photographers who have been lifetime DSLR shooters. This guide will help you to quickly feel comfortable using your camera so that you can achieve excellent results. Topics covered include: -Menu shortcuts -Long exposures -Firmware upgrades -Hybrid autofocus system -Auto and manual focusing -Face detection -Dynamic Range expansion -Film simulations -Custom settings -RAW conversion -Panoramas -Movies -Self-timer -Flash -Conversion lenses -And much more...

The British Journal of Photography

A superb hands-on manual containing a wealth of underwater tips, hints and advice, 'Underwater Photographer' provides all the advice you need to achieve outstanding professional results. This long-awaited new edition is updated to provide in-depth coverage of the latest digital techniques, whilst still providing a solid grounding in core basic skills and full guidance on analogue techniques. Written by a leading authority on underwater photography, 'Underwater Photographer' will enable you to capture stunning effects by following the author's popular 'think and consider' system. By giving careful thought and consideration to the subject matter, lighting and environment prior to taking the picture, Edge demonstrates how you can use achieve superior images. Practical examples take you step-by-step through the basic techniques, from photographing shipwrecks, divers, marine life and abstract images to taking photographs at night and 'dual lighting'. Full advice is given on all the essential equipment. Highly illustrated throughout, and written in a clear, non-technical style, Edge's book is the essential guide to photographing the wonder and beauty of the underwater world. \* Covers the highly respected philosophy of the TC 'Think & Consider' System \* Learn 'how that shot was taken' with practical case studies \* Beautifully illustrated throughout with inspirational full colour underwater images

DIE 25.000 WICHTIGSTEN SUCHBEGRIFFE, DAS SUCHMASCHINEN KOMPENDIUM

Les historiens remontent dans le passé pour étudier les événements historiques.Pas de guerre, pas de

faim, pas de difficultés. Personne ne souffre de problèmes relationnels. Le gouvernement attribue à chacun un partenaire sexuel et, par le biais de la réalité virtuelle, garantit à chacun quatre orgasmes par session. Marile aime son partenaire sexuel assigné, et les quatre orgasmes garantis qu'elle apprécie avec lui, mais elle sent qu'il lui manque quelque chose dans sa vie. Elle se demande ce qui se passe dans le passé quand les hommes et les femmes doivent trouver du plaisir l'un avec l'autre comme ils le voulaient - quand ils tombent amoureux. Comment cela a-t-il pu arriver? Pourrait-elle oser tomber amoureuse d'un homme, toute seule. Juste elle et lui? Marile décide d'écrire sa thèse de doctorat sur la façon dont le physicien Milton Carver, dont les découvertes ont tant changé le monde, a accompli cet exploit malgré la pauvreté, le racisme et les préjugés académiques contre ses théories. L'humanité a survécu à la "période de transition", une période de changements sociaux intenses, d'anarchie politique, de terrorisme, de catastrophe écologique, de fanatisme destructeur, de guerres et de révolutions. Les Avocats ont rétabli l'ordre et imposé la gestion des risques sur toute la Terre. Pas de liberté. Pas d'excitation. Pas d'amour. Le chef du département d'histoire approuve le projet de Marile, de sorte que Marile rend visite à Carver en 1957, 1968, 1986 et 2002. Marile ne s'attend pas à tomber amoureuse de Milton Carver. Ou qu'il pourrait tomber amoureux d'elle. Ou qu'elle briserait davantage la loi du 22e siècle en s'engageant non seulement dans le voyage dans le temps, mais aussi dans la passion physique avec Carver. Même au début d'une grossesse non autorisée et donc illégale dans son ventre. Ou que leur histoire d'amour pourrait non seulement aider Carver à faire ses découvertes révolutionnaires, mais aussi ébranler les fond
