In 2004 Charley Boorman completed his astonishing round-the-world bike trip with his friend, Ewan McGregor. The journey left him exhausted, exhilarated and hungry for a new challenge. And what greater challenge than the Dakar rally? Beginning in Lisbon and ending in the Senegalese capital of Dakar, the rally covers 15,000 kilometres of treacherous terrain, and is widely regarded as the most dangerous race on earth. With his team-mates Simon Pavey and Matt Hall, Charley faced extreme temperatures, rode through shifting sands and stinging winds, and faced breakdowns miles from civilisation. Charley recounts his extraordinary adventures through Portugal, Morocco, Western Sahara, Mauritania, Mali, Guinea and Senegal. He also follows the stories of other riders - an eccentric, dedicated band of professionals and rookies who all dream of one thing: reaching the finishing line. Race to Dakar is the thrilling account of a race that has captured the imagination of millions.

The leaf is one of the most prevalent and beautiful motifs in art and design, and Victorian artist James Colling's work is a

virtuoso exploration of its infinite variety. Based upon painted designs as well as motifs found in historic woven textiles, wood carvings, ironwork and stonework, his magnificent plates showcase over 300 black-and-white designs that range from the naturalistic to the stylized. Artistic renderings of foliage from many species of trees and plants – oak, maple, poppy, ivy, ferns, thistle – are complemented by designs incorporating buds, fruits and flowers. These lovely permission-free designs will also serve as a source of inspiration for artists, designers and craftspeople.

The search for physical perfection began with the Greeks, who first competed nude in athletic games in the 8th century BCE and created their gods in the ideal human form. Peak of Perfection celebrates the universal fascination with the nude and the power of beauty. The richly detailed, black and white, fine art photographs portray the apex of youthful vitality and the sublime architecture of the body. Alternately meditative and exhilarating, these dynamic performers express their sensuality and acrobatic skills so dramatically that the images leap off the page and grab you by the heart. Couples express the passion of romantic love and soloists display their virtuosity, the result of countless hours of training. Meticulously selected quotes from poets, artists, and philosophers throughout history complement the intimate portraits. This deluxe collection is a compelling invitation to contemplate beauty and to share with someone you love.

Since 1958 the Maritime Administration has continuously conducted instructions in use of collision avoidance radar for qualified U.S. seafaring personnel and representatives of interested Federal and State Agencies.Beginning in 1963, to facilitate the expansion of training capabilities and at the same time to provide the most modern techniques in training methods, radar simulators were installed in Maritime Administration?s three region schools.It soon became apparent that to properly instruct the trainees, even with the advanced equipment, a standardize up-to-date instruction manual was needed. The first manual was later revised to serve both as a classroom textbook and as an onboard reference handbook.This newly updated manual, the fourth revision, in keeping with Maritime Administration policy, has been restructured to include improved and more effective methods of plotting techniques for use in Ocean, Great Lakes, Coastwise and Inland Waters navigation.Robert J. Yosemite National Park and the High Sierra were the places closest to Ansel Adams' heart, and this magnificent new collection presents the finest selction of his photographs and writings yet published on this "vast edifice of stone and space." Inspired by their grandeur, their wildness, and their primeval mystery, Adams' photos came to represent America's National Parks. During his lifetime Adams published seven books of images from this region; this new book brings the best of these early volumes together into a single work. His writings - alive with anecdote and insight - provide a backdrop for these stirring images, and an introduction by John Szarkowski, the most distinguished photography critic and curator of his time, provides testimony to the enduring impact of Adams' Yosemite vision. Yosemite and the High Sierra represents Adams' legacy at its most distilled and timeless.
