This new translation brings to light the early days of scientific archaeology and the unearthing and study of Herculaneum and Pompeii as observed by the erudite and acerbic art historian Johann Joachim Winckelmann (1717-1768). His Letter, published in German in 1762, displays his extensive knowledge of geology, ancient literature, and art while offering a scathing critique of the Spanish Bourbon

excavations around the Bay of Naples and of the officials involved. He further discusses these topics in his equally controversial Report of 1764. The introduction describes the context in which these texts were written, identifies various politicians, academics, and collectors, and elucidates topics of particular interest to Winckelmann, from artifacts to local customs to the contents of ancient papyri. The illustrations, particularly those from the Bourbon publication--*Le Antichità di Ercolano* (1757-92)--illuminate how these monuments influenced contemporary perception of the ancient world.

Cumulus Inc. holds a firm place in our hearts--with its open kitchen, industrial architectural elements, and light streaming in through the bank of windows, it is somewhere to gather, talk, and eat at any time of day. And the food fits like a glove, starting with the perfect breakfast and ending with a late-night charcuterie plate. Based around the ebb and flow of a day at Cumulus, Andrew McConnell's first book gathers his recipes for the signature dishes that keep people coming back for more. This is food for the way we eat now. Includes metric measures.

Having worked his way up through the ranks of Sydney's Rockpool and the London restaurant scene, Mike McEneaney famously turned his back on fine dining to create something altogether simpler and more honest. Sharing a former canning factory in Sydney's Rosebery with the Koskela design team and other creative entrepreneurs, Kitchen by Mike has forged a new direction in dining.

Rewriting American Identity in the Fiction and Memoirs of Isabel Allende Lantern

As an entrepreneur and racecar driver, Tom Panaggio has learned that you cannot avoid risk if you want to be a winner. In *The Risk Advantage*, Panaggio tells the story of how he and his business partners built two thriving companies: Direct Mail Express (which now employs more than 400 people and is a leading direct marketing company) and Response Mail Express (which was eventually sold to equity fund Huron Capital Partners). The book is designed as a guide for those who are contemplating an entrepreneurial pursuit, are already engaged in building a business, or are currently working for someone else and want to inject their entrepreneurial ideas and

attitude. With *The Risk Advantage*, Panaggio aims to help entrepreneurs face the many situations, predicaments, and crises they'll encounter during their lives as well as to help them formulate their leadership style and business strategy. *The Risk Advantage* is a story about an entrepreneurial journey that explores the relationship between opportunity and risk, two important forces that are necessary for success. Panaggio teaches that the unexpected edge for entrepreneurial success starts with identifying a worthy risk and then having the courage to take it. In his book, he identifies those risks based on what he's experienced along his own journey.

Opportunities are always there for you to grab. If you want to realize a dream, accomplish a daunting goal, or simply start your own business, you must be willing to embrace risk. Learning the lessons of *The Risk Advantage* is an important first step to do just that.

An insightful monograph highlighting the illustrious design of master architect William Hefner - lavishly illustrated and richly detailed - an intimate tour of some of the world's most opulent houses. This latest addition to IMAGES' Master Architect Series showcases seven exquisite residential projects by master architect William Hefner, whose Los-Angeles-based architectural firm has been designing residential, commercial and retail properties for nearly two decades.

Although varied in style, each house featured shares the timeless elegance and attention to detail common to all of Hefner's creations. They are each marked also by Hefner's appreciation of the craft of building and the use of natural materials.

Opulent and richly detailed, the interiors nevertheless retain a sense of intimacy, warmth and comfort. Hefner's houses are luxurious, but it is a personal, liveable form of luxury that embraces rather than distances. William Hefner's passion lies in residential architecture; his expertise encompasses a vast array of styles from

the highly contemporary to the deeply historic.

Through this crossover he has realised that each style has benefitted from knowledge of the other - modern houses are richer in materials, more complex in their details, and thusly more comfortable to its inhabitants; historic projects are less fussy, more tailored, resulting in spaces better suited to the needs and tendencies of contemporary life. William's expertise in architecture and deep appreciation for interior design and landscape often culminates in the three merging seamlessly - environments emerge which embrace outdoor views animated by an ever-shifting play of natural light; the rooms connect organically to the furnishings within them. By combining these three disciplines within his firm, he is able to ensure that each distinct design concept integrates with one another and that the vision of the homeowner is expressed in every aspect of the work. William earned a Bachelor of Arts degree in Art History in 1977 from Lewis & Clark College in Portland, Oregon, which included a year of study in Greece. He went on to receive a Master's of Architecture from UCLA, during the influential Charles Moore's tenure. 400 col.

One of the greatest Italian filmmakers, Federico Fellini (1920-1993) created such masterpieces as *La Strada*, *La Dolce Vita*, *8 1/2*, *Juliet of the Spirits*, *Satyricon*, and *Amarcord*. His prodigious body of work evokes Pirandello, existentialism, "the silence of God," as well as show business. Critics have accused him of being a charlatan, hypocrite, clown, and demon, and have hailed him as a magician, poet, genius, and prophet. *Fellini on Fellini* is a fascinating collection of his articles, interviews, essays, reminiscences, and table talk, carefully arranged to chart the progress of his life and work. There are boyhood memories of his hometown, *Remini*, and his highly improbable beginnings as a scriptwriter for Rossellini; letters to Jesuit priests and Marxist critics defending his first international success, *La Strada*; anecdotes and revelations about the making of *La Dolca Vita*, *8 1/2*, and *The Clowns*; and insights into all aspects of filmmaking. Here, Fellini reveals, as no one

else can, a rich digest of his brilliant and controversial career.

Federico Fellini is one of the most beloved and revered filmmakers of the twentieth century, having entertained audiences worldwide with his ability to breathe life into imagery normally confined to human memory and emotion. His insights into the world of dreams have contributed to his many famous cinematic creations, including *La Dolce Vita*, *8 1/2*, and *La Strada*. A unique combination of memory, fantasy, and desire, this illustrated volume is a personal diary of Fellini's private visions and nighttime fantasies. Fellini, winner of four Oscars for Best Foreign Language Film, kept notebooks filled with unique sketches and notes from his dreams from the 1960s onward. This collection delves into his cinematic genius as it is captured in widely detailed caricatures and personal writings. This dream diary exhibits Fellini's deeply personal taste for

the bizarre and the irrational. His sketches focus on the profound struggle of the soul and are tinged with humor, empathy, and insight.

Fellini's *Book of Dreams* is an intriguing source of never-before-published writings and drawings, which reveal the master filmmaker's personal vision and his infinite imagination.

The Romance of Natural History

First published in 1891, Pellegrino Artusi's *La scienza in cucina e l'arte di mangiar bene* has come to be recognized as the most significant Italian cookbook of modern times. It was reprinted thirteen times and had sold more than 52,000 copies in the years before Artusi's death in 1910, with the number of recipes growing from 475 to 790. And while this figure has not changed, the book has consistently remained in print. Although Artusi was himself of the upper classes and it was doubtful he had ever touched a kitchen utensil or lit a fire under a pot, he wrote the book not for professional chefs, as was the nineteenth-century custom, but for middle-class family cooks: housewives and their domestic helpers. His tone is that of a friendly advisor – humorous and nonchalant. He

indulges in witty anecdotes about many of the recipes, describing his experiences and the historical relevance of particular dishes. Artusi's masterpiece is not merely a popular cookbook; it is a landmark work in Italian culture. This English edition (first published by Marsilio Publishers in 1997) features a delightful introduction by Luigi Ballerini that traces the fascinating history of the book and explains its importance in the context of Italian history and politics. The illustrations are by the noted Italian artist Giuliano Della Casa.

Captain Sir Richard Francis Burton KCMG FRGS (1821-1890) was an English explorer, translator, writer, soldier, orientalist, ethnologist, linguist, poet, hypnotist, fencer and diplomat. He was known for his travels and explorations within Asia and Africa as well as his extraordinary knowledge of languages and cultures. According to one count, he spoke 29 European, Asian, and African languages. He was a captain in the army of the East India Company serving in India. Following this he was engaged by the Royal Geographical Society to explore the east coast of Africa and led an expedition

guided by the locals which discovered Lake Tanganyika. His best-known achievements include travelling in disguise to Mecca, making an unexpurgated translation of *The Book of One Thousand Nights and a Night*. Burton was considered a controversial figure in his day; many considered him a hero, others jealous of his achievements called him a scoundrel. Burton remains possibly the greatest explorer ever because of his remarkable research and uncensored documentation of the lifestyles of the various cultures he encountered in his adventures.

'The subject of coffee has never been more, er, hot, and *The World Atlas of Coffee* takes a close look at its history and evolution, the international range of beans and all the best ways to enjoy coffee. Great pics too.' - Susy Atkins, *The Telegraph*
For everyone who wants to understand more about coffee and its wonderful nuances and possibilities, this is the book to have. Coffee has never been better, or more interesting, than it is today. Coffee

producers have access to more varieties and techniques than ever before and we, as consumers, can share in that expertise to make sure the coffee we drink is the best we can find. Where coffee comes from, how it was harvested, the roasting process and the water used to make the brew are just a few of the factors that influence the taste of what we drink. Champion barista and coffee expert James Hoffmann examines these key factors, looking at varieties of coffee, the influence of terroir, how it is harvested and processed, the roasting methods used, through to the way in which the beans are brewed. Country by country - from Bolivia to Zambia - he then identifies key characteristics and the methods that determine the quality of that country's output. Along the way we learn about everything from the development of the espresso machine, to why strength guides on supermarket coffee are really not good news. This is the first book to chart the coffee production of over 35 countries, encompassing knowledge never previously published outside the coffee industry.
