Kidnapped Bantam

They say there are three sides to every story. Yours, mine and the truth. In *Before I Wake*, debut novelist Robert J. Wiersema cleverly introduces a multitude of voices to tell this astonishing story of loss, redemption and forgiveness. And the truth? Well, when miracles start happening around Sherry

Barrett, a three-year-old girl in a coma, explanations of a rational kind no longer seem important. Injured by a hit-and-run driver while crossing the street, Sherry Barrett lies in a hospital where her doctors say she will never wake up. Her distraught parents, Karen and Simon, make the painful decision to take her off life support. But when they do, Sherry spontaneously begins breathing on her own, the first of many miraculous events to occur. Henry Denton, the driver who struck Sherry, is haunted by the accident and attempts to take his own life, only to be saved by an unexplained force. Sherry's nurse discovers that the little girl has the power to heal. When word of her gift leaks, the sick begin lining up to be saved and a mysterious stranger sets his

---

sights on vanquishing the believers and the Barretts. *Before I Wake* delicately brings together grandiose leaps of faith with the fragility of every day moments. There's a fly-on-the-wall quality in Wiersema's observations, as his realistically flawed characters struggle with guilt, self-loathing and belief while they go about their daily lives. The novel's fractured narrative style is propulsive and unexpected at every turn, and succeeds in raising questions about times of great faith, and what happens when they happen to the most unlikely of people.

“ I believe in miracles — we see them around us all the time, ” Wiersema says. “ I believe in not having the answers, in there being forces beyond our understanding. ”

The secret weapon developed by the man Cavanaugh is assigned to protect is like Kryptonite to the former Delta Force officer turned security guard--it multiplies the effects of adrenaline, a hormone associated with fear, so it incapacitates instead of energizing him. A lot of people want Daniel Prescott's secret, but Cavanaugh, who's felt the drug's effects, wants his antidote. When Prescott disappears after causing the death of the Global Protective Services team charged with keeping him alive, Cavanaugh and his wife Jamie go after him in a high-speed chase that traps them between government agents and foreign operatives each racing to find the scientist first and kill him before he can use his formula on them. Despite Prescott's double-dealing, and the bloody battle in a mountain redoubt that results in the deaths of his

---

friends and colleagues, Cavanaugh knows the only way to banish the fear that may compromise his and Jamie's own safety is to track the elusive scientist to his last refuge. In this propulsive thriller, Morrell turns the tables so often that it's hard to separate the good guys from the bad ones, but that won't keep readers addicted to violence, treachery, and high-tech weaponry from staying with it to the last surprising chapter. “Spectacular action backed by the author’s hands-on research . . . a horrifying climax . . . twists and turns . . . one of the best of the genre.” —Associated Press “Everything [Morrell] writes has a you-are-there quality, and that, coupled with his ability to propel characters through a scene, makes reading him like attending a private screening.” —Washington Post Book World “Impressive action . . . plenty of twists . . . most notable, though, is the advertised ‘trade-craft’ —from clever ways to modify one’s ammo and armor to the very best method of taking out a car you’re chasing.” —Publishers Weekly

“The story accelerates to warp speed, hurtles to a stunning climax. A wonderfully entertaining action adventure.” —Booklist

When asked what he does for a living . . . Commander Mark Bishop is deliberately low-key: "I'm in the Navy." But commanding the ballistic missile submarine USS Nevada, keeping her crew trained and alert during ninety-day submerged patrols, and being prepared to launch weapons on valid presidential orders, carries a burden of command like few other jobs in the military. Mark Bishop is a man who accepts that responsibility, and handles it well. And at a time when tensions are escalating around the Pacific Rim, the Navy is glad to have him. Mark wants someone to come home to after sea patrols. The woman he has in mind is young, with a lovely smile, and very smart. She's a civilian, yet she understands the U.S. Navy culture. And he has a strong sense that life with her would never be boring. But she may be too deep in her work to see the potential in a relationship with him. Gina Gray would love to be married. She has always envisioned her life that way. A breakup she didn't see coming, though, has her focusing all her attention on what she does best--ocean science research. She's on the cusp of a major breakthrough, and she needs Mark Bishop's perspective and help. Because what she told the Navy she's figured out is only the beginning. If she's right, submarine warfare is about to enter a new and dangerous chapter.
