Parenting Girls for Resilience in a Toxic Culture Oxford University Press, USA

The *Lost Girls* analyses a number of British writers between 1850 and 1930 for whom the myth of Demeter's loss and eventual recovery of her cherished daughter Kore-Persephone, swept off in violent and catastrophic captivity by Dis, God of the Dead, had both huge personal and aesthetic significance. This book, in addition to scrutinising canonical and less well-known texts by male authors such as Thomas Hardy, E. M. Forster, and D. H. Lawrence, also focuses on unjustly neglected women writers – Mary Webb and Mary Butts – who utilised occult tropes to relocate themselves culturally, and especially in Butts's case to recover and restore a forgotten legacy, the myth of matriarchal origins. These novelists are placed in relation not only to one another but also to Victorian archaeologists and especially to Jane Ellen Harrison (1850-1928), one of the first women to distinguish herself in the history of British Classical scholarship and whose anthropological approach to the study of early Greek art and religion both influenced – and became transformed by – the literature. Rather than offering a teleological argument that moves lock-step through the decades, *The Lost Girls* proposes chapters that detail specific engagements with Demeter-Persephone through which to register distinct literary-cultural shifts in uses of the myth and new insights into the work of particular writers.

This book is a history of the genesis and development of vocational education for young women in the United States. Home economics, trade training and commercial education – the three key areas of vocational training available to young women during the progressive era – are the focus of this work. Beginning with a study of the "woman question", or what women were supposed to be, the book traces the three curriculum areas from prescription, through lively discussions of policy to the actual programs and student responses to the programs. The author tells the story of education for work from several different perspectives and draws on a vast array of sources to paint this broad canvas of vocational education for young women at the turn of the twentieth century.

Este libro analiza la manera con la que Lee Smith ha dado voz a todos los aspectos de su experiencia tanto como mujer-artista que vive en la Am é rica contempor á nea como nativa de la Appalachia, una regi ó n sure ñ a que todav í a conserva un fuerte sentimiento de la tradici ó n oral y de v í nculos con la comunidad. Smith revisa y altera el lenguaje y los mitos que han condicionado sus b ú squedas de la identidad y han silenciado sus voces. Al realizarlo, explora la relaci ó n entre el hero í smo femenino y la creatividad de las mujeres como algo distinto a la de los hombres. En su lucha, las hero í nas de Smith reflejan el desarrollo personal y art í stico de la escritora. La relaci ó n conflictiva de sus personajes femeninos con la auto-afirmaci ó n y con el mundo de la Appalachia revela los propios sentimientos ambivalentes de Smith hacia el concepto de individualidad y hacia sus ra í ces culturales.

Many of today's parents struggle with their approach in raising a healthy daughter within our complex culture. Never before have girls been faced with so many pressures to live up to confusing and often contradictory cultural expectations. These burdens are intense, newly evolving, and are affecting girls at earlier and earlier ages. As girls of all ages listen to the messages of popular culture, they gather that their worth is based upon a perfect appearance, the ability to gain attention and approval from others, and their accrual of accomplishments. As girls absorb these expectations, they begin to believe they are not good enough as they are. They are not able to develop an authentic sense of self because they lose themselves in trying to become what the culture dictates. It is not surprising that with all of these pressures, girls are experiencing stress, emptiness, and skyrocketing rates of mental health problems. Parents know that something is very wrong with today's culture, but they can't quite put a name on the problem. Many feel helpless as popular cultural influences pervade modern life at every turn. This book, however, provides parents with reassurance that their influence can make a significant difference in their daughters' development. Parents are empowered to make positive choices to help girls learn to resist cultural pressures and to successfully navigate the transitions they will face in their journey as girls in today's culture. Written in an engaging, practical style, Laura Choate draws from research and counseling literature to provide parents with tools they can use to teach their daughters the power of resilience. The book begins with a portrait of the contemporary adolescent girl's environment,

including an in-depth exploration of cultural pressures and an overview of how these pressures influence girls' physical, cognitive, and social development. In the second part of the book, parents learn about five resilience dimensions that girls need not only to survive, but to thrive as they develop during girlhood and adolescence. Practical tools for instilling resilience regarding girls' positive body image, healthy relationships with friends and romantic partners, and management of high-pressure academic environments through a redefinition of what it means to be successful are all discussed extensively.
