Visual communication is defined as
the transmission of information to
another party by the use of a non-
verbal medium such as gestures,
visual aids, facial expression,
postures etc. This type of
communication targets the
recipient (s) eyes only. That is
why it is called the visual
communication.

Fundamentals of Visual Composition 63 Rhythm is repetition with variation. Contrast is dissimilarity between the elements brand on some criteria. Unity is

complimentarity among all the elements. Proportion is relative ratio among elements. Balance is sensed equilibrium among elements based on some criteria. *Your private eye: Fundamentals of visual communication ...*

Visual elements should also provide a clear indication of the order in which to read information. The idea is to let the eye flow as it naturally would when reading a paragraph: left to right, top to bottom. Each visual element should be a focal point that flows toward the next. This can be as obvious as directional arrows or a color gradient.
