Based on surveys with more than 5,000 gifted young adults, *If I'm So Smart, Why Aren't the Answers Easy?* sheds light on the day-to-day experiences of those

growing up gifted. In their own enlightening words, teens share their experiences with giftedness, including friendships and fitting in with peers, school struggles and successes, and worries about the future. By allowing teens to share their real-life stories, the book gives readers a self-study guide to the successes and pitfalls of being gifted in a world not always open to their unique and diverse needs. Teens will be able to reflect on their own experiences through the engaging journal prompts included in the book, and their parents and teachers will enjoy hearing directly from other students about the topics gifted teens face daily. Factfulness Bright Minds Publishing
Golding's iconic 1954 novel, now with a new foreword by Lois Lowry, remains one of the greatest books ever written for young adults and an unforgettable classic for readers of any age. This edition includes a new Suggestions for Further Reading by Jennifer Buehler. At the dawn of the next world war, a plane crashes on an uncharted island, stranding a group of schoolboys. At first, with no adult supervision, their freedom is something to celebrate. This far from civilization they can do anything they want. Anything. But as order collapses, as strange howls echo in the night, as terror begins its reign, the hope of adventure seems as far removed from reality as the hope of being rescued.

Hilarious, cringe-inducing stories about teachers, students and parents, from CBC star of Mr. D, one of Canada's hottest comedic talents. Gerry Dee is a rising comic star whose humour has been compared to Bill Cosby's. He spent ten years working as a teacher and survived (barely) to tell his tales. Told from the honest point-of-view of a not-so-good, often-very-bad public school teacher--the kind who teaches hungover (and lies about it), loses his students' exams (and lies about it), and stages an impromptu baseball game in the middle of history class just to kill some time, Teaching: It's Harder Than It Looks is Mr. D at his best. This book collects Gerry's funniest anecdotes about teaching, about students and about their parents. As Gerry's ode to school life, it's sure

to bring back a memory or two, whether you were the teacher's pet or the class clown. Throughout, he offers tongue-in-cheek "Teacher Tips and Tricks," uncomfortable notes to parents, awkward report cards and all manner of memorabilia of school days. He's extremely funny, on the page as well as in person, and he's the kind of personality who will reach out beyond his own core comedy audience to a broad demographic of educators, parents and students who relate to his humour and experiences.

BESTSELLER "One of the most

important books I've ever read—an indispensable guide to thinking clearly about the world." – Bill Gates "Hans Rosling tells the story of 'the secret silent miracle of human progress' as only he can. But Factfulness does much more than that. It also explains why progress is so often secret and silent and teaches readers how to see it clearly." —Melinda Gates "Factfulness by Hans Rosling, an outstanding international public health expert, is a hopeful book about the potential for human progress when we work off facts rather than our inherent biases." -

Former U.S. President Barack Obama Factfulness: The stress-reducing habit of only carrying opinions for which you have strong supporting facts. When asked simple questions about global

trends—what percentage of the world's population live in poverty; why the world's population is increasing; how many girls finish school—we systematically get the answers wrong. So wrong that a chimpanzee choosing answers at random will consistently outguess teachers, journalists, Nobel laureates, and investment bankers. In Factfulness, Professor of International Health and global TED phenomenon Hans Rosling, together with his two long-time collaborators, Anna and Ola, offers a radical new explanation of why this happens. They reveal the ten instincts that distort our perspective—from our tendency to divide the world into two camps (usually some version of us and them) to the way we consume media (where fear rules) to how we perceive progress (believing that most things are getting worse). Our problem is that we don't know what we don't know, and even our guesses are informed by unconscious and predictable biases. It turns out that the world, for all its imperfections, is in a much better state than we might think. That doesn't mean there aren't real concerns. But when we worry about everything all the time instead of embracing a worldview based on facts, we can lose our ability to focus on the things that threaten us most. Inspiring and revelatory, filled with lively anecdotes and moving stories, Factfulness is an urgent and essential book that will change the way you see the world and empower you to respond to the crises and opportunities of the future. --- "This book is my last battle in my life-long mission to fight devastating ignorance...Previously I armed myself

with huge data sets, eye-opening software, an energetic learning style and a Swedish bayonet for sword-swallowing. It wasn't enough. But I hope this book will be." Hans Rosling, February 2017.
