These flash cards were developed with the aim of helping health profession students prepare for a practical exam in a typical medical gross anatomy and/or neuroanatomy course. The images on these cards are photographs of cadaver dissections. The front of each card typically has structures to identify. The correct answers are identified on the back of the card including details about important anatomical characteristics of that structure. Also, material was added that will be useful in preparation for the "written" component of the gross anatomy exams.

* Professor David Lordkipanidze, Director of the Georgian National Museum (GNM) in Tbilisi, illuminates his personal highlights from the collection with his considerable expertise * The GNM tells the story of Georgia's history from the Bronze Age to the early 20th century * The first Georgian addition to Scala's successful Director's Choice series Established in 2004, the Georgian National Museum (GNM) in Tbilisi encompasses 20 museums and cultural institutions. The main site tells the story of Georgia's history from the Bronze Age to the early 20th century. It's the story of 'The Land of the Golden Fleece' - the ancient Kingdom of Colchis, whose ingenious gold, silver and precious stonework can be seen in the Treasury. The Greek, Ottoman and Iranian Influence visible in many of the treasures is testament to Georgia's role as a crossroads through the centuries. The GNM also records Georgia's modern history, tracing the rise of a united Georgian state, how it resisted Soviet Occupation and survived the Red Terror. However, perhaps most significantly of all, here visitors can come face-to-face with the earliest hominid known to have left Africa - a 1.8 million-year-old discovery made by the GNM's Director, Professor David Lordkipanidze, that has rewritten our understanding of early European humanity. In this beautifully illustrated book, Professor Lordkipanidze illuminates his personal highlights from the collection with his considerable expertise.

The Movements of the New Left is a documentary history of the movements for fundamental social change and radical democracy that disrupted the United States from their emergence in the 1950s through their dispersion and institutionalization in the early 1970s. Using an inclusive definition of the New Left, Gosse tracks the development and commonalities of the civil rights and black power movements and other struggles of people of color, of the peace, antiwar, and student movements, and of feminism and gay liberation. The introduction presents a solid overview of the history of these movements, combining chronological and thematic approaches against the backdrop of Cold War liberalism. Forty-five documents follow, each with an informative headnote providing context and explanatory footnotes that help students make sense of manifestoes, testimonies, speeches, newspaper advertisements, letters, and book excerpts from the tumultuous era

referred to as "the Sixties." A chronology of the New Left, questions for consideration, a selected bibliography, and an index provide further pedagogical support.

The essays in this collection explore the implications of Alasdair MacIntyre's critique of liberalism, capitalism, and the modern state, his early Marxism, and the complex influences of Marxist ideas on his thought. A central idea is that MacIntyre's political and social theory is a form of revolutionary--not reactionary--Aristotelianism. The contributors aim, in varying degrees, both to engage with the theoretical issues of MacIntyre's critique and to extend and deepen his insights. The book features a new introductory essay by MacIntyre, "How Aristotelianism Can Become Revolutionary," and ends with an essay in which MacIntyre comments on the other authors' contributions. It also includes Kelvin Knight's 1996 essay, "Revolutionary Aristotelianism," which first challenged conservative appropriations of MacIntyre's critique of liberalism by reinterpreting his Aristotelianism through the lens of his earlier engagement with Marx. "This is an excellent collection. Its particular strength is its sustained focus on Alasdair MacIntyre's political thought, in particular MacIntyre's complicated relation and indebtedness to Marxism. In their introduction, the co-editors say that the reception of MacIntyre within political philosophy has largely been reductive and one-sided, namely, that he is simply viewed as a conservative communitarian. In focusing on MacIntyre's radical heritage, this volume helps correct that simplistic misperception." --Keith Breen, Queen's University Belfast

(Limelight). A Killer Life is a book about just that: the killer life of an alternative film producer who's forged her own path of success between the disparate pillars of art and commerce. Strong, steady, creative, loyal, funny, artistic, and doggedly determined to produce films that have meaning and substance and staying power in the pantheon of great cinema, Christine Vachon, a member of the Academy and born and bred on the realistic, unforgiving streets of New York City, is one of the most important people working behind the scenes in the film industry today. How did she get there? Why do directors love her? What does it take to produce great movies? What happened on the set of Kids ? These answers and more are in her book!

Alasdair MacIntyre is one of the most controversial philosophers and social theorists of our time. He opposes liberalism and postmodernism with the teleological arguments of an updated Thomistic Aristotelianism. It is this tradition, he claims, which presents the best theory so far about the nature of rationality, morality and politics. This is the first Reader of MacIntyre's work. It includes extracts from and synopses of two famous books from the 1980s, *After Virtue* and *Whose Justice? Which Rationality?*, as well as the whole of several shorter works (one published for the first time in English) and two interviews. Taken together, these constitute not only a representative collection of his work but also the most powerful and accessible presentation of his arguments yet available. The Reader also includes a summary, by the editor, of the development of MacIntyre's central ideas, and an extensive guide to further reading. Students will find the book a useful guide to MacIntyre's case against both capitalist institutions and academic orthodoxies.

Nobody Turn Me Around Oxford University Press

"America's constitutional system evolves through the interplay between three cycles: the rise and fall of dominant political parties, the waxing and waning of political polarization, and alternating episodes of constitutional rot and constitutional renewal. America's politics seems especially fraught today because we are nearing the end of the Republican Party's long political dominance, at the height of a long cycle of political polarization, and suffering from an advanced case of "constitutional rot." Constitutional rot is the historical process through which republics become increasingly less representative and less devoted to the common good. Caused by increasing economic inequality and loss of trust, constitutional rot seriously threatens the constitutional system. But America has been through these cycles before, and will get through them again. America is in a Second Gilded Age slowly moving toward a second Progressive Era, during which polarization will eventually recede. The same cycles shape the work of the federal courts and theories about constitutional interpretation. They explain why political parties have switched sides on judicial review not once but twice in the twentieth century.

Polarization and constitutional rot alter the political supports for judicial review, make fights over judicial appointments especially bitter, and encourage constitutional hardball. The Constitution ordinarily relies on the judiciary to protect democracy and to prevent political corruption and self-entrenching behavior. But when constitutional rot is advanced, the Supreme Court is likely to be ineffective and may even make matters worse. Courts cannot save the country from constitutional rot; only political mobilization can"--

If there is any question about where this boy comes from, you just tell them to let the boy sing! This is part of a message that Gladys Presley sent to John's mom about where John came from, making reference to the fact that Elvis Presley is his daddy. The first night I met John in 2004, I could not believe the depth of his talent, and the emotion he brings to life in his songs. Our friendship became close over the next years. In January of 2010, we were putting the finishing touches on our first guitar that we were building in my garage. On that winter night, John finally answered my question about where his talent came from. Before then he had always deflected the question. This night he told me, and it all made sense. John said that he was thinking about going public with this shocking claim. If I would do it with him, he would give the music business one more try. We had no idea what that conversation would lead to? a journey that would lead across the country and back. Four years later, that journey is ending, and a whole new one is beginning. Welcome to a look inside the story of a most uncommon man, with a most common name: John Smith.

A story of magic, family, a mysterious stranger . . . and a band of marauding raccoons. Otter Lake is a sleepy Anishnawbe community where little happens. Until the day a handsome stranger pulls up astride a 1953 Indian Chief motorcycle – and turns Otter Lake completely upside down. Maggie, the Reserve's chief, is swept off her feet, but Virgil, her teenage son, is less than enchanted. Suspicious of the stranger's intentions, he teams up with his uncle Wayne – a master of aboriginal martial arts – to drive the stranger from the Reserve. And it turns out that the raccoons are willing to lend a hand.

This book includes revisions of papers originally presented at the inaugural conference of the International Society for MacIntyrean Philosophy, on the theme of Alasdair MacIntyre's Revolutionary Aristotelianism: Ethics, Resistance and Utopia, hosted by the Human Rights and Social Justice Research Institute at London Metropolitan University. The papers selected are by fifteen leading international philosophers and political theorists. Writing from a variety of perspectives, they address MacIntyre's accounts of Aristotelianism, Thomism and Marxism, his virtue ethics and metaethics, the development of his philosophical project, and his critiques of managerialism, capitalism and liberalism. The book concludes with an extensive response by MacIntyre, in which he clarifies his past arguments, his present position, and his relation to rival theories of

moral, political and social practice.

A renaissance of innovation is taking place in America's community colleges. This book documents and analyzes stimulating changes that have marked the 1980s and points the way to new practices and structures that will continue to invigorate the community colleges during the 1990s. The 13 chapters offer a rich selection of possibilities for the future of the community college. Here are tested ideas and programs that make the community college such an important force in our changing society--the practices that serve students more fully, support faculty more effectively, and reach the community more extensively.
