Alasdair MacIntyre

social theorists of

our time. He opposes liberalism and postmodernism with the teleological arguments of an updated Thomistic Aristotelianism. It is this tradition, he claims, which presents the best theory so far about the nature of rationality, morality and politics. This is the first Reader of MacIntyre's work. It includes extracts from and synopses of two famous books from the 1980s, *After Virtue* and *Whose Justice? Which Rationality?*, as well as the whole of several shorter works (one published for the first time in English) and two interviews. Taken together, these constitute not only a representative

collection of his work but also the most powerful and accessible presentation of his arguments yet available. The Reader also includes a summary, by the editor, of the development of MacIntyre's central ideas, and an extensive guide to further reading. Students will find the book a useful guide to MacIntyre's case against both capitalist institutions and academic orthodoxies. Minecraft Maths Macmillan Series statement from author's Material dreams. *Kennedy's Blues: African-American Blues and Gospel Songs on JFK* collects in a single volume the blues and gospel songs written by African-Americans about the presidency of John F. Kennedy and offers a close analysis of Kennedy's hold upon the African-American imagination. These blues and gospel songs have never been transcribed and analyzed in a systematic way, so this volume provides a hitherto untapped source on the perception of one of the most intriguing American presidents. After

---

eight years of Republican rule the young Democratic president received a warm welcome from African-Americans. However, with the Cold War military draft and the slow pace of civil rights measures, inspiration temporarily gave way to impatience. Dr. Martin Luther King, Jr., Medgar Evers, the March on Washington, the groundbreaking civil rights bill--all found their way into blues and gospel songs. The many blues numbers devoted to the assassination and the president's legacy are evidence of JFK's near-canonization by African Americans. Blues historian Guido van Rijn

shows that John F. Kennedy became a mythical hero to blues songwriters despite what was left unaccomplished. **The Right Thing to Do** Turtleback Books

The essays in this collection explore the implications of Alasdair MacIntyre's critique of liberalism, capitalism, and the modern state, his early Marxism, and the complex influences of Marxist ideas on his thought. A central idea is that MacIntyre's political and social theory is a form of revolutionary--not reactionary--Aristotelianism. The contributors aim, in

varying degrees, both to engage with the theoretical issues of MacIntyre's critique and to extend and deepen his insights. The book features a new introductory essay by MacIntyre, "How Aristotelianism Can Become Revolutionary," and ends with an essay in which MacIntyre comments on the other authors' contributions. It also includes Kelvin Knight's 1996 essay, "Revolutionary Aristotelianism," which first challenged conservative appropriations of MacIntyre's critique of liberalism by reinterpreting his Aristotelianism

---

through the lens of his earlier engagement with Marx. "This is an excellent collection. Its particular strength is its sustained focus on Alasdair MacIntyre's political thought, in particular MacIntyre's complicated relation and indebtedness to Marxism. In their introduction, the co-editors say that the reception of MacIntyre within political philosophy has largely been reductive and one-sided, namely, that he is simply viewed as a conservative communitarian. In focusing on MacIntyre's radical heritage, this

volume helps correct that simplistic misperception." --Keith Breen, Queen's University Belfast

Liberal education has

always had its share of theorists, believers, and detractors, both inside and outside the academy. The best of these have been responsible for the development of the concept, and of its changing tradition. Drawn from a symposium jointly sponsored by the Educational Leadership program and the American Council of Learned Societies, this work looks at the requirements of liberal education for the next century and the strategies for getting there. With contributions from Leon Botstein, Ernest Boyer, Howard Gardner, Stanley Katz, Bruce Kimball, Peter Lyman, Susan Resneck Pierce, Adam Yarmolinsky and Frank Wong,

Rethinking Liberal Education proposes better ways of connecting the curriculum and organization of liberal arts colleges with today's challenging economic and social realities. The authors push for greater flexibility in the organizational structure of academic departments, and argue that faculty should play a greater role in the hard discussions that shape their institutions. Through the implementation of interdisciplinary and collaborative approaches to learning, along with better integration of the curriculum with the professional and vocational aspects of the institution, this work proposes to restore vitality to the

---

curriculum. The concept of rethinking liberal education does not mean the same thing to every educator. To one, it may mean a strategic shift in requirements, to another the reformulation of the underlying philosophy to meet changing times. Any significant reform in education needs careful thought and discussion.

Rethinking Liberal Education makes a substantial contribution to such debates. It will be of interest to scholars and students, administrators, and anyone concerned with the issues of modern education.

A story of magic, family, a mysterious

stranger . . . and a band of marauding raccoons. Otter Lake is a sleepy Anishnawbe community where little happens. Until the day a handsome stranger pulls up astride a 1953 Indian Chief motorcycle – and turns Otter Lake completely upside down. Maggie, the Reserve’s chief, is swept off her feet, but Virgil, her teenage son, is less than enchanted. Suspicious of the stranger’s intentions, he teams up with his uncle Wayne – a master of aboriginal martial arts – to drive the stranger from the Reserve. And it turns out that the raccoons are willing to lend a hand.

Kennedy's Blues Hong Kong University Press The civil rights movement's most prominent leaders, Martin Luther King, Jr. (1929–1968) and Malcolm X (1925–1965), represent two wings of the revolt against racism: nonviolent resistance and revolution "by any means necessary." This volume presents the two leaders' relationship to the civil rights movement beyond a simplified dualism. A rich selection of speeches, essays, and excerpts from Malcolm X's autobiography and King's sermons shows the breadth and range of each

man's philosophy, demonstrating their differences, similarities, and evolution over time. Organized into six topical groups, the documents allow students to compare the leaders' views on subjects including integration, the American dream, means of struggle, and opposing racial philosophies. An interpretive introductory essay, chronology, selected bibliography, document headnotes, and questions for consideration provide further pedagogical support. *Journey to Topaz* OUP USA These flash cards were developed with the aim of helping health

An unprecedented and timely collection that captures the global vision of Dr. King—in his own words Too many people continue to think of Dr. King only as “a southern civil rights leader” or “an American Gandhi,” thus ignoring his impact on poor and oppressed people around the world. "In a Single

---

Garment of Destiny" is the first book to treat King's positions on global liberation struggles through the prism of his own words and activities. From the pages of this extraordinary collection, King emerges not only as an advocate for global human rights but also as a towering figure who collaborated with Eleanor Roosevelt, Albert J. Luthuli, Thich Nhat Hanh, and other national and international figures in addressing a multitude of issues we still struggle with today—from racism, poverty, and war to religious bigotry and intolerance.

Introduced and edited by distinguished King scholar Lewis Baldwin, this volume breaks new ground in our understanding of King. **Americans and the California Dream, 1850-1915** Random House Trade "A Modest Proposal" by Jonathan Swift is a satirical masterpiece that employs biting wit and irony to address the pressing issue of poverty and overpopulation in 18th-century Ireland. Swift's proposal, presented in a straightforward and logical manner, suggests a shocking and absurd solution to the problem: the consumption of infants. As readers

delve into this essay, they quickly realize that Swift's proposal is not to be taken seriously but is a scathing critique of British policies and their detrimental impact on Ireland. Swift adopts the persona of a rational economist to highlight the callousness of the British ruling class towards the impoverished Irish population. Swift's brilliant use of irony and satire forces readers to confront the harsh realities faced by the Irish under British rule. The essay serves as a scathing indictment of colonialism and the exploitation of the Irish people. "A Modest Proposal" is a timeless work of political satire that continues to be studied and admired

---

for its sharp critique of social injustice. It challenges readers to think critically about the consequences of economic and political policies and the importance of empathy and compassion in addressing societal issues. Delve into the world of Swift's biting satire and discover the power of literature to provoke thought and ignite change. "A Modest Proposal" remains a compelling and thought-provoking piece that resonates with readers concerned with social justice and political commentary.

Peter Handke's dramatic poem *Walk about the Villages* is the fourth part of Handke's "homecoming cycle", whose other three parts (*A Slow*

*Homecoming*, *The Lesson of St. Victoire*, and *A Child Story*) can be found under the American title *A Slow Homecoming*. The underlying story line of *Walk about the Villages* could not be simpler. The "prodigal" writer Gregor returns to his home village. He and his brother Hans, a construction worker, and his shopkeeper sister have a dispute over the disposition of the house which the parents had built and the land which they had cleared with their own hands many years before. Within this straightforward conflict, Handke touches upon almost every aspect of our existence. It is a lyrical play, a poetic drama on the order of Thornton Wilder's *Our Town*, and Dylan

Thomas' *Under Milk Wood*. It is an "Everyman and Everywoman" dramatic poem for our time. *An Introduction to Ethics* Heinemann Combines a complete computer-based practice test experience with a comprehensive review of all the tested material, plus strategies to help you increase your score.
