In one of the most powerful and darkly satirical works of the 18th century, a chilling solution is proposed to address the dire poverty and overpopulation plaguing Ireland. Jonathan Swift presents a shockingly calculated and seemingly rational argument for using the children of the poor as a food source, thereby addressing both the economic burden on society and the issue of hunger. This provocative piece is a masterful example of irony and social criticism, as it exposes the cruel attitudes and policies of the British ruling class towards the Irish populace. Jonathan Swift's incisive critique not only underscores the absurdity of the proposed solution but also serves as a profound commentary on the exploitation and mistreatment of the oppressed. A Modest Proposal remains a quintessential example of satirical literature, its biting wit and moral indignation as relevant today as it was at the time of its publication. JONATHAN SWIFT [1667-1745] was an Anglo-Irish author, poet, and satirist. His deadpan satire led to the coining of the term » Swiftian « , describing satire of similarly ironic writing style. He is most famous for the novel Gulliver ' s Travels [1726] and the essay A Modest Proposal [1729].

* Professor David Lordkipanidze, Director of the Georgian National Museum (GNM) in Tbilisi, illuminates his personal highlights from the collection with his considerable expertise * The GNM tells the story of Georgia's history from the Bronze Age to the early 20th century * The first Georgian addition to Scala's successful Director's Choice series Established in 2004, the Georgian National Museum (GNM) in Tbilisi encompasses 20 museums and cultural institutions. The main site tells the story of Georgia's history from the Bronze Age to the early 20th century. It's the story of 'The Land of the Golden Fleece' - the ancient Kingdom of Colchis, whose ingenious gold, silver and precious stonework can be seen in the Treasury. The Greek, Ottoman and Iranian Influence visible in many of the treasures is testament to Georgia's role as a crossroads through the centuries. The GNM also records Georgia's modern history, tracing the rise of a united Georgian state, how it resisted Soviet Occupation and survived the Red Terror. However, perhaps most significantly of all, here visitors can come face-to-face with the earliest homonid known to have left Africa - a 1.8 million-year-old discovery made by the GNM's Director, Professor David Lordkipanidze, that has rewritten our understanding of early European humanity. In

this beautifully illustrated book, Professor Lordkipanidze illuminates his personal highlights from the collection with his considerable expertise.

Virtue and Politics McGraw-Hill Education

Liberal education has always had its share of theorists, believers, and detractors, both inside and outside the academy. The best of these have been responsible for the development of the concept, and of its changing tradition. Drawn from a symposium jointly sponsored by the Educational Leadership program and the American Council of Learned Societies, this work looks at the requirements of liberal education for the next century and the strategies for getting there. With contributions from Leon Botstein, Ernest Boyer, Howard Gardner, Stanley Katz, Bruce Kimball, Peter Lyman, Susan Resneck Pierce, Adam Yarmolinsky and Frank Wong, Rethinking Liberal Education proposes better ways of connecting the curriculum and organization of liberal arts colleges with today's challenging economic and social realities. The authors push for greater flexibility in the organizational structure of academic departments, and argue that faculty should play a greater role in the hard discussions that shape their institutions. Through the implementation of interdisciplinary and collaborative approaches to learning, along with better integration of the curriculum with the professional and vocational aspects of the institution, this work proposes to restore vitality to the curriculum. The concept of rethinking liberal education does not mean the same thing to every educator. To one, it may mean a strategic shift in requirements, to another the reformulation of the underlying philosophy to meet changing times. Any significant reform in education needs careful thought and discussion. Rethinking Liberal Education makes a substantial contribution to such debates. It will be of interest to scholars and students, administrators, and anyone concerned with the issues of modern education.

Jim Crow Guide documents the system of legally imposed American apartheid that prevailed during what Stetson Kennedy calls "the long century from Emancipation to the Overcoming." The mock guidebook covers every area of activity where the tentacles of Jim Crow reached. From the texts of state statutes, municipal ordinances, federal regulations, and judicial rulings, Kennedy exhumes the legalistic skeleton of Jim Crow in a work of permanent value for scholars and of exceptional appeal for general readers.

These flash cards were developed with the aim of helping health profession students prepare for a practical exam in a typical medical gross anatomy and/or neuroanatomy course. The images on these cards are photographs of cadaver dissections. The front of each card typically has structures to identify. The correct answers are identified on the back of the card including details about important anatomical characteristics of that structure. Also, material was added that will be useful in preparation for the "written" component of the gross anatomy exams.

A story of magic, family, a mysterious stranger . . . and a band of marauding raccoons. Otter Lake is a sleepy Anishnawbe community where little happens. Until the day a handsome stranger pulls up astride a 1953 Indian Chief motorcycle – and turns Otter Lake completely upside down. Maggie, the Reserve's chief, is swept off her feet, but Virgil, her teenage son, is less than enchanted. Suspicious of the stranger's intentions, he teams up with his uncle Wayne – a master of aboriginal martial arts – to drive the stranger from the Reserve. And it turns out that the raccoons are willing to lend a hand.

Alasdair MacIntyre is one of the most controversial philosophers and social theorists of our time. He opposes liberalism and postmodernism with the teleological arguments of an updated Thomistic Aristotelianism. It is this tradition, he claims, which presents the best theory so far about the nature of rationality, morality and politics. This is the first Reader of MacIntyre's work. It includes extracts from and synopses of two famous books from the 1980s, *After Virtue* and *Whose Justice? Which Rationality?*, as well as the whole of several shorter works (one published for the first time in English) and two interviews. Taken together, these constitute not only a representative collection of his work but also the most powerful and accessible presentation of his arguments yet available. The Reader also includes a summary, by the editor, of the development of MacIntyre's central ideas, and an extensive guide to further reading. Students will find the book a useful guide to MacIntyre's case against both capitalist institutions and academic orthodoxies.

Landscape at the End of the Century: Poems Macmillan Higher Education

An unprecedented and timely collection that captures the global vision of Martin Luther King Jr.—in his own words Too many people continue to think of Dr. King only as “a southern civil rights leader” or “an American Gandhi,” thus ignoring his impact on poor and oppressed people around the world. “In a Single Garment of Destiny” is the first book to treat King's positions on global liberation struggles through the prism of his own words and activities. From the pages of this extraordinary collection, King emerges not only as an advocate for global human rights but also as a towering figure who collaborated with Eleanor Roosevelt, Albert J. Luthuli, Thich Nhat Hanh, and other national and international figures in addressing a multitude of issues we still struggle with today—from racism, poverty, and war to religious bigotry and intolerance. Introduced and edited by distinguished King scholar Lewis Baldwin, this volume breaks new ground in our understanding of King.

The essays in this collection explore the implications of Alasdair MacIntyre's critique of liberalism, capitalism, and the modern state, his early Marxism, and the complex influences of Marxist ideas on his thought. A central idea is that MacIntyre's political and social theory is a form of revolutionary—not reactionary--Aristotelianism. The contributors aim, in varying degrees, both to engage with the theoretical issues of MacIntyre's critique and to extend and deepen his insights. The book features a

new introductory essay by MacIntyre, “How Aristotelianism Can Become Revolutionary,” and ends with an essay in which MacIntyre comments on the other authors' contributions. It also includes Kelvin Knight's 1996 essay, “Revolutionary Aristotelianism,” which first challenged conservative appropriations of MacIntyre's critique of liberalism by reinterpreting his Aristotelianism through the lens of his earlier engagement with Marx. “This is an excellent collection. Its particular strength is its sustained focus on Alasdair MacIntyre's political thought, in particular MacIntyre's complicated relation and indebtedness to Marxism. In their introduction, the co-editors say that the reception of MacIntyre within political philosophy has largely been reductive and one-sided, namely, that he is simply viewed as a conservative communitarian. In focusing on MacIntyre's radical heritage, this volume helps correct that simplistic misperception.” --Keith Breen, Queen's University Belfast

(Limelight). *A Killer Life* is a book about just that: the killer life of an alternative film producer who's forged her own path of success between the disparate pillars of art and commerce. Strong, steady, creative, loyal, funny, artistic, and doggedly determined to produce films that have meaning and substance and staying power in the pantheon of great cinema, Christine Vachon, a member of the Academy and born and bred on the realistic, unforgiving streets of New York City, is one of the most important people working behind the scenes in the film industry today. How did she get there? Why do directors love her? What does it take to produce great movies? What happened on the set of *Kids*? These answers and more are in her book!

This book includes revisions of papers originally presented at the inaugural conference of the International Society for MacIntyrean Philosophy, on the theme of Alasdair MacIntyre's *Revolutionary Aristotelianism: Ethics, Resistance and Utopia*, hosted by the Human Rights and Social Justice Research Institute at London Metropolitan University. The papers selected are by fifteen leading international philosophers and political theorists. Writing from a variety of perspectives, they address MacIntyre's accounts of Aristotelianism, Thomism and Marxism, his virtue ethics and metaethics, the development of his philosophical project, and his critiques of managerialism, capitalism

and liberalism. The book concludes with an extensive response by MacIntyre, in which he clarifies his past arguments, his present position, and his relation to rival theories of moral, political and social practice.

The extraordinary story of a few non-Jews who risked their lives to rescue and protect Jews from Nazi persecution in Europe during World War II is told in *The Courage to Care*. It features the first person accounts of rescuers and of survivors whose stories address the basic issue of individual responsibility: the notion that one person can act—and that those actions can make a difference. These rescuers are true heroes, but modest ones. They did a thousand ordinary things—opening doors, hiding and feeding strangers, keeping secrets—in an extraordinary time. For this, they are known as

"Righteous Among the Nations of the World." The rescuers and survivors are from many countries in Europe—Italy, the Netherlands, Denmark, Norway, France, Bulgaria, Poland, Germany—and they tell their stories with simplicity and dignity. Each story is interwoven with old snapshots of rescuers and survivors, their homes, their hiding places, and the communities in which they lived. Noted author, teacher, and human rights activist, Elie Wiesel, helps us to ask: "what made these people different?" He points out how those who helped Jews during the Holocaust "changed history" by their actions. *The Courage to Care* reminds readers of the power of individual action. This compelling book is the companion volume to the award-winning film, *The Courage to Care*, and includes the personal narratives of the same persons in the film and many others.
