Evidence-Based Second Language Pedagogy is a cutting-edge collection of empirical research conducted by top scholars focusing on instructed second language acquisition (ISLA) and offering a direct contribution to second language pedagogy by closing the gap between research and practice. Building on the conceptual, state-of-the-art chapters in *The Routledge Handbook of Instructed Second Language Acquisition* (2017), studies in this volume are organized according to the key components of ISLA: types of instruction, learning processes, learning outcomes, and learner and teacher psychology. The volume responds to pedagogical needs in different L2 teaching and learning settings by including a variety of theoretical frameworks (sociological, psychological, sociocultural, and cognitive), methodologies (qualitative and quantitative), target languages (English, Spanish, and Mandarin), modes of instruction (face-to-face and computer-mediated), targets of instruction (speaking, writing, listening, motivation, and professional development), and instructional settings (second language, foreign language, and heritage language). A novel synthesis of research in the rapidly growing field of ISLA that also covers effective research-based teaching strategies, Evidence-Based Second Language Pedagogy is the ideal resource for researchers, practitioners, and graduate students in SLA, applied linguistics, and TESOL.

This is a 3-book bundle, which addresses various subtopics, including but not limited to these: Book 1: Are you nervous about your job interview? Do you have the feeling that you are not prepared to face an invasive number of questions about your accomplishments and career choices? Well, have no fear, my friend. You are at the right address. This book can guide you along. Topics that will be discussed in this book include how to make a lasting first impression, asking specific questions about your motivation, how to dress, what to bring, how to react on the phone (if applicable), how to show your interviewer that you are listening and interacting, etc. Book 2: This book will lead you in your next job interview. It will help you understand the reasons why interviewers ask specific questions and how to answer them. Being prepared for those questions can increase your chances of getting the job you want. It will also show you which questions are smart to ask your potential future employer, because, as

opposed to what some people may suppose, this is an important part of the interview to show how passionate you may be about your future job. Last but not least, most people forget to follow up and simply wait for the interviewer to contact them. This is a big mistake. If you want to stand out among the crowd, it is important to follow up after the interview, and show how driven and motivated you are. Book 3: When it comes to job interviews, it would surprise you how many people don't have a clue what to do. They think if they just act like themselves (nothing wrong with that), all else will just happen. That's not how it works. The people who are most prepared usually stand the highest chance to make a good impression on the interviewer. Aside from questions like "tell me about yourself" or "how would you describe yourself," they will look for competent employees who know how to sell their skillset with confidence. They want to know about your weaknesses, and if those weaknesses will create any problems in their company. So, how will you do in your next job interview? Well, it's up to you. But the right information, such as the details you can find in this guide, can certainly help.

*Class Construction* explores class, racial, and gender identity construction among white, working-class students. Delving into River City High School, Freie asks what happens to the adolescent children of working-class families when economic changes such as globalization and technological advancements have altered the face of working-class jobs. Mass consumerism, greater availability of college level education, lack of a cohesive class identity, and racial and religious politics all combine to create a new working-class identity for today's youth. Featuring interviews with the River City High School students, *Class Construction* aims to understand how class is conceptualized among American, working-class youths. *Class Construction* is ideal for courses on sociology, education, gender studies, and American studies, as well as high school educators and administrators.

Job Interview How2Become Ltd

Job search is and always has been an integral part of people's working lives. Whether one is brand new to the labor market or considered a mature, experienced worker, job seekers are regularly met with new challenges in a variety of organizational settings. Edited by Ute-Christine Klehe and Edwin A.J. van Hooft, *The Oxford Handbook of Job Loss and Job Search* provides readers with one of the first comprehensive overviews of the latest research and empirical knowledge in the areas of job loss and job search. Multidisciplinary in nature, Klehe, van Hooft, and their contributing authors offer fascinating insight into the diverse theoretical and methodological perspectives from which job loss and job search have been studied, such as psychology, sociology, labor studies, and economics. Discussing the antecedents and consequences of job loss, as well as outside circumstances that may necessitate a more rigorous job hunt, this Handbook presents in-depth and up-to-date knowledge on the methods and processes of this important time in one's life. Further, it examines the unique circumstances faced by different populations during their job search, such as those working job-to-job, the unemployed, mature job seekers, international job seekers, and temporary employed workers. Job loss and unemployment are among the worst stressors individuals can encounter during their lifetimes. As a result, this Handbook concludes with a discussion of the various types of interventions developed to aid the unemployed. Further, it offers readers important insights and identifies best practices for both scholars and practitioners working in the areas of job loss, unemployment, career transitions, outplacement, and job search.

The most successful social research text to have been published in a generation has been updated and revised in this new Sixth Edition! This innovative, up-to-date, and popular text makes research come alive through research stories that illustrate the methods presented in each chapter, with hands-on exercises to help students learn by doing. Author Russell K. Schutt helps readers connect technique and substance, understand research methods as an integrated whole, appreciate the value of both qualitative and quantitative methodologies, and make ethical research decisions. New to the Sixth Edition: Updates and Revisions: Research examples have been updated throughout the text, with many that have been added from international researchers. All end-of-chapter exercise sets have been updated. Techniques for searching and reviewing the literature and Web sites have been updated and more guidance is provided on writing the literature review. In addition, many chapters have been streamlined and reorganized for greater clarity, including those on measurement and causation and research design. Secondary Data Analysis and Content Analysis: A new chapter introduces the logic and limitations of secondary data analysis, available data sources, procedures for using ICPSR datasets, the Human Relations Area Files, and more information on content analysis. Qualitative Data Analysis: New sections have been added on conversation analysis, ethnomethodology, case-oriented understanding, and visual sociology. A special section on computer-assisted qualitative data analysis introduces the HyperRESEARCH software that accompanies the text. Theories and Philosophies for Research: A revised and streamlined chapter uses international research on immigration and ethnic conflict to illustrate functionalism, conflict theory, and symbolic interactionism and to contrast positivist and interpretivist research philosophies. Unique among methods texts, this chapter emphasizes the importance of social theory and research philosophy as a foundation for social research. Research Ethics: New sections have been added in some chapters and the discussion of the role of the IRB in the third chapter has been expanded. Accompanied by High-Quality Ancillaries! Instructors' Resource CD-ROM: provides test questions, PowerPoint slides for lectures, suggested assignments, and a review of course organization options. Student Study Site at [www.pineforge.com//isw5](http://www.pineforge.com//isw5): includes journal articles, flash cards for practicing terminology, online quizzes, and much more! Now with interactive exercises on the study site (from the student CD) - for easier access and use by students. Student Resources CD: bundled with the book, contains wide-ranging data sets and interactive exercises to help students master concepts and techniques. HyperRESEARCH software: includes software for qualitative data analysis.

*Coaching Roi: Delivering Strategic Value Employing Executive Coaching in Defense Acquisition*  
Lexington Books

Alphronzo Moseleys Doctor of Strategic Leadership final project forms the basis for this relevant book, Coaching ROI: Delivering Strategic Value Employing Executive Coaching in Defense Acquisition. Clearly, Moseley has done a very good job of providing a new addition to Defense acquisition studies. Moseley is an executive coach through the Cambridge Group Worldwide, Boston, MA. His research is one taken at Regent University for the purpose of enhancing leadership development among executive acquisition managers to provide a global learning environment to support a mission-ready defense acquisition workforce that develops, delivers, and sustains effective and affordable war-fighting capabilities. The progress for Moseley and his colleagues as executive coaches at DAU is measured according to how well the defense acquisition workforce does its mission. Since the executive coaching initiative is the first of its kind at the university, a level 5 evaluation - the fifth level of evaluating coaching measured by a return on investment (ROI) - would provide a deeper understanding of the sources of business value and especially how coaching creates monetary value in Defense acquisition. The results indicated that the executive coaching program delivered strategic value represented by a conservative ROI of 1,066 percent. Similarly, the coachees and their organizations experienced six business results: increased customer satisfaction, increased resources, increased work-group productivity, reduced cycle time, increased organizational efficiency, and increased personal productivity.

This book contains papers in the fields of engineering pedagogy education, public-private partnership and entrepreneurship education, research in engineering pedagogy, evaluation and outcomes assessment, Internet of Things & online laboratories, IT & knowledge management in education and real-world experiences. We are currently witnessing a significant transformation in the development of education and especially post-secondary education. To face these challenges, higher education has to find innovative ways to quickly respond to these new needs. There is also pressure by the new situation in regard to the Covid pandemic. These were the aims connected with the 23rd International Conference on Interactive Collaborative Learning (ICL2020), which was held online by University of Technology Tallinn, Estonia from 23 to 25 September 2020. Since its beginning in 1998, this conference is devoted to new approaches in learning with a focus on collaborative learning. Nowadays the ICL conferences are a forum of the exchange of relevant trends and research results as well as the presentation of practical experiences in Learning and Engineering Pedagogy. In this way, we try to bridge the gap between 'pure' scientific research and the everyday work of educators. Interested readership includes policymakers, academics, educators, researchers in pedagogy and learning theory, school teachers, learning industry, further and continuing education lecturers, etc.

*The New Rules of Work* Springer Nature

This book challenges and revises existing ways of thinking about leaving care policy, practice and research at regional, national and international levels. Bringing together contributors from fifteen countries, it covers a range of topical policy and practice issues within national, international or comparative contexts. These include youth justice, disability, access to higher education, the role of advocacy groups, ethical challenges and cultural factors. In doing so it demonstrates that, whilst young people are universally a vulnerable group, there are vast differences in their experiences of out-of-home care and transitions from care, and their shorter and longer-term outcomes. Equally, there are significant variations between jurisdictions in terms of the legislative, policy and practice supports and opportunities made available to them. This significant edited collection is essential reading for all those who work with young people from care, including social workers, counsellors, and youth and community practitioners, as well as for students and scholars of child welfare.
