The ART of Trading John Wiley & Sons (Chicago, IL) joined the Chicago Board of Trade in 1963 and has been an independent trader ever since. Proven techniques for market profile users at any level A "market profile" presents a number of basic elements from the market in an easily understood graphic format that, when analyzed properly, can yield profitable intraday and swing trades that traditional indicators do not reveal. Steidlmayer on Markets shows readers how to find these opportunities using the innovative techniques developed by the author during his many years of trading the market. This fully updated Second Edition covers innovations in both technology and technique-and broadens the scope of "market profile" to include stocks. J. Peter Steidlmayer

of Trade in 1963 and has been an independent trader ever since. Steidlmayer served on the Board of Directors of the Board of Trade in 1981-1983. While a director, he was responsible for initiating Market Profile and the Liquidity Data Bank. Steve Hawkins (Chicago, IL) has experience in trading in both stocks and commodities. Over the past seven years, Hawkins has educated traders across the globe. He has also collaborated on the writing of books on trading and written articles for industry trade publications. He is a graduate of the University of Illinois with a degree in economics. New technology and the advent of around the clock trading have

---

opened the floodgates to both foreign and domestic markets. Traders need the wisdom of industry veterans and the vision of innovators in today's volatile financial marketplace. The Wiley Trading series features books by traders who have survived the market's ever changing temperament and have prospered—some by reinventing systems, others by getting back to basics. Whether a novice trader, professional or somewhere in-between, these books will provide the advice and strategies needed to prosper today and well into the future. *American Softwood Lumber Standard* Apres Solid Forex strategies for capturing profits in today's volatile markets *How to Make a Living Trading Foreign Exchange* puts the world of

Forex at your fingertips. Author Courtney Smith begins with an introduction to the Forex market—what it is and how it works. He then delves into six moneymaking techniques for trading Forex, including his unique Rejection Rule that doubles the profit of basic channel breakout systems. In addition to two specific methods for exiting positions at critical levels, Smith also discusses powerful risk management techniques and successful trading psychology strategies that will keep you one step ahead of the game. Reveals the secrets of the Forex market and how to create a lifetime of income trading it Offers advice on maximizing profits during the volatile swings that have increasingly become the norm Other titles by Smith: *Option Strategies, Third Edition*, *Seasonal Charts For Futures Traders*, *Commodity Spreads*, and *Profits Through Seasonal Trading* Make more

### **The Forex Chartist Companion** Simon and Schuster

A common denominator among most new traders is that, within six months of launching their new pursuit, they are out of money and out of trading. High-Probability Trading softens the impact of this "trader's tuition," detailing a comprehensive program for weathering those perilous first months and becoming a profitable trader. This no-nonsense book takes a uniquely blunt look at the realities of trading. Filled with real-life examples and intended for use by both short- and long-term traders, it explores each aspect of successful

trading.

[Financial Analytics with R](#) O'Reilly Media

Point and Figure charts are one of the great secrets of the Technical Analysis world. Highly sophisticated and with a thoroughbred pedigree, they can, however, be overlooked by traders today. Jeremy du Plessis - one of the foremost Point and Figure experts in the world - returns with a fully updated second edition of this definitive guide in an effort to redress this imbalance. This second edition, with an extensive revision to the text and introduction of brand new techniques, demystifies the world of Point and Figure charting. It includes a detailed explanation of the history and development of the technique from its invention to the modern day, and covers the makeup of the chart patterns, why they are created, and how to interpret them. Throughout, readers are encouraged to understand Point and Figure charts from first principles, rather than just remember the names of a series of patterns. It is the first major

---

work for 50 years to discuss in depth the original 1-box reversal method of Point and Figure charting and contrast it with the more popular 3-box reversal method. Further, the explanation of how to use Point and Figure charts to project targets and calculate risk-reward ratios is the most comprehensive ever seen. Also featured in the second edition are: - A step-by-step analysis of the FTSE 100 Index using the 3-box method, as well as the NASDAQ Composite Index, using the 1-box method - A detailed discussion of optimising techniques - An in-depth chapter on Analysing Point and Figure charts, extensively rewritten from the first edition - A new explanation of how Point and Figure parameters are chosen and the implications of choosing them - Two new Point and Figure construction methods never seen before - Point and Figure's contribution to market breadth, with a look at bullish percent and two brand new indicators - Full discussion of Point and Figure gaps and how they provide valuable information about the chart - Lesser known, more advanced techniques such as the use of moving averages, parabolic SAR and Bollinger Bands on Point and Figure charts - Price and volume activity histograms and how they provide information about support and resistance All this is illustrated with numerous colour charts and observations from years of trading experience. According to du Plessis, Point and Figure charts are the 'voice of the market'. This book helps you listen to, and understand, that voice. Part of the Market Technicians Association (MTA) Required Reading list.

---

fluctuations. Topics covered include the forces that cause exchange rates to fluctuate, an overview of the mechanics of trading, analytical and forecasting tools, how to profit from pricing trends, and common pitfalls that often ensnare traders. While most books make grandiose promises of instant success and large profits, *Forex for Beginners* represents an alternative approach to investing in forex. The forex market is dominated by institutional capital and algorithmic trading, making it unrealistic to think that day traders can beat the market by relying on charts and technical indicators alone. Thus, the emphasis here is on fundamental analysis—using economic concepts to spot currency misalignments—and staking out positions to profit from them over a period of weeks and months. If you're eager to tap into the world's largest financial market on a part-time basis, this is the book for you. You will gain an understanding of how currency markets work and use this knowledge to generate income.

*Start Day Trading Now* John Wiley & Sons

An accessible guide to understanding and using technical chart patterns Chart pattern analysis is not only one of the most important investing tools, but also one of the most popular. Filled with in-depth insights and practical advice, *Getting Started in Chart Patterns* is designed to help both new and seasoned traders profit by tracking and identifying specific chart patterns. Expert Thomas Bulkowski opens with a basic discussion of chart pattern formation and how bad habits can hurt trading. He then moves on to introduce over 40 key chart formations as well as numerous trading tactics that can be used

in conjunction with them. Readers will benefit from the specifics (actual trades with dollar amounts) outlined throughout the book and the frank discussions of how trading behavior can affect the bottom line. Anecdotes from Bulkowski's own trading experiences are also included to shed light on how one of the best in the business goes about trading with chart patterns. Order your copy today. *Python for Algorithmic Trading* Springer Science & Business Media

How to Make a Living Trading Foreign Exchange John Wiley & Sons

Are you intimidated by day trading? Think it's only for the select few who are savvy with stocks or are financial savants? Well, think again, because anyone can master day trading--and once you learn the basic techniques, it's possible to make a boatload of money! The flip side: if you don't know what you're doing, you can lose your shirt. In this entry-level guide to day trading,

---

MarketWatch columnist and financial journalist Michael Sincere assumes you know nothing. Zip. Zero. Inside, he shows you how to get started and breaks day trading down by clearly explaining: What computer equipment you'll need How much money is required The technical jargon of day trading Key strategies you'll employ while trading How you can manage risk Most important, Sincere lets you in on the biggest secret of all: how to master the mind game of day trading. Thousands of day traders have watched their bank accounts balloon thanks to Wall Street. Now you can get into the market and enter their coveted ranks.

John Wiley & Sons  
Acclaim for The Education of a Speculator, a provocative and penetrating look into the mind, the soul, and the strategies of one of the most controversial traders of all time "A compelling and an entertaining read." -The Wall Street Journal  
"Victor Niederhoffer gives us page after page of distilled investment wisdom. Taken together, this is pure nectar to those who aim for consistently superior stock

---

market performance." -Barron's "The Education of a Speculator offers plenty of insights into the way markets work, but the epiphanies are what a reader might expect from Lao-tzu rather than, say, Graham and Dodd." -Worth magazine "The Education of a Speculator is the first meaningful book on speculating. Successful speculating is as fine an art as chess, checkers, fishing, poker, tennis, painting, and music. Niederhoffer brings forth the best from each of these fields and shows the investor how their principles can enrich one's life and net worth." -Martin Edelston, President, Boardroom Inc., publishers of Boardroom Classics and Bottom Line/Personal "With an original mind and an eclectic approach, Victor Niederhoffer takes the reader from Brighton Beach to Wall Street, visiting all stops of interest along the way. What emerges is a book full of insights, useful to the professional and layman alike." -George Soros, Principal Investment Advisor, The Quantum Fund Day Trading and Swing Trading the Currency Market Wiley Three Lines is a practical guide to foreign exchange

---

trading that offers a simple strategy for forecasting future price movements based on the fundamental economic mechanism of demand and supply. Just a few years ago, it was nearly impossible for the average investor to trade in the forex market online. What was once the domain of corporations, large financial institutions, central banks, hedge funds, and very wealthy individuals is now open to just about anyone with an Internet connection. Today, the forex is one of the largest financial markets in the world. The forex market is driven by demand and supply. The primary purpose of this book is to show how a trader can effectively predict the next price move, once he knows how to spot demand and supply imbalance points on what are known as candlestick charts. Topics covered include:

- Introduction to the foreign exchange
- Technical analysis
- Trends in forex markets
- Demand and supply zones
- Trading psychology
- Money management tips
- Trading plans
- Using the Metatrader 4 platform

Whether you're a novice or a professional trader, you're sure to gain something new from the in-depth information and pragmatic advice provided in

Q: Ladies, Do YOU Have What It Takes To Become A Forex

Diva? A: Yes, You Do. With this incredible new step-by-step guide, investing pro and TV personality Kiana Danial shows you exactly how to understand and take advantage of foreign currency trading. Years ago, the author discovered that women in Japan were making a fortune trading currencies on the foreign exchange (forex) market. These ladies were not investment professionals or financial wizards; they were ordinary individuals who simply learned how the online currency exchange market works--and

---

mastered it. Now you can do the same. In fact, you're about to see just how easy it can be to trade on the largest and most liquid financial market in the world. Kiana Danial spent years studying the habits of investors and discovered that women frequently make smarter, wiser, and less-risky investment choices than their male counterparts. This is precisely why she founded InvestDiva.com--the woman's guide to smart, safe, and profitable trading. By tapping into women's intuitive knack for multitasking and risk management, the author demonstrates why a woman's natural skill sets make her uniquely equipped to reap the enormous rewards of this extremely lucrative field. Invest Diva will show you: How the global currency market works Why social, political, and cultural events shape trading The smartest short- and long-term strategies Best practices for navigating the economic calendar Plus, you'll learn how to identify investment opportunities and spot trends using the five
