"Wayward Cognitions is a collection of photographs by Ed Templeton (born 1972), chosen from his archives spanning 20 years. For this volume, Templeton selected photographs that do not fit into his usual manner of organizing by theme or subject ... Wayward Cognitions represents the in-between moments that arise when shooting in the streets without theme or subject. "It's about looking, people watching, finding pleasure in the visual vignettes we glimpse each day," says Templeton. When those moments are removed from the context in which they were shot, dynamic stories can be told or imagined in book form. The photographs in Wayward Cognitions were printed by Templeton in his darkroom; he then created the layout and design himself, building the book from scratch in his home studio."--Publisher's website.

MGF and TF Restoration Manual provides the MGF or TF owner with a complete workshop guide to mechanical and body restoration for the cars. With the MGF in production between 1995 and 2001, and the MG TF until 2011, many of the cars have survived in a structurally and mechanically sound state, without the huge costs and complications of needing a complete body restoration that is so often the case with pre-1980 MGs. Topics covered include: Model overview and parts supply; Workshop safety information; Bodywork [external and subframes]; Trim [including hood problems and replacement]; All mechanical components [including head gasket replacement]; Electrical systems [including security systems]; Modification [cosmetic, mechanical and engine]. An essential and practical workshop guide for all owners of these attractive sports cars. Gives instructions on minor repair and maintenance procedures and covers a full engine strip and rebuild. Covers workshop safety information, bodywork, trim, all mechanical components and much, much more. Features a number of different project cars. Superbly illustrated with approximately 1000 colour step-by-step photographs. Roger Parker is an acknowledged MGF and TS expert with years of restoration experience.

Biggety Bat is back--and on a search for his supper! "Hot diggety!" said Biggety. "Supper for sea turtle, but. . . . what about me?" Biggety Bat is hungry -- and looking for his supper. The swamp he explores is full of animals chowing down: frogs, cuckoo birds, sea turtles, and more. But what will Biggety find to eat? Author Ann Ingalls blends lyrical text with real-life information about a Florida mangrove swamp. Readers will love discovering the eating habits of the animals who live in this unique habitat.

Book Company

This volume consists of a series of essays, written by leading scholars within the field, demonstrating the types of inquiry that can be pursued into the transnational realities underpinning German-language culture and history as these travel right around the globe. Contributions discuss the inherent cross-pollination of different languages, times, places and notions of identity within German-language cultures and the ways in which their construction and circulation cannot be contained by national or linguistic borders. In doing so, it is not the aim of the volume to provide a compendium of existing transnational approaches to German Studies or to offer its readers a series of survey chapters on different fields of study to date. Instead, it offers novel research-led chapters that pose a question, a problem or an issue through which contemporary and historical transcultural and transnational processes can be seen at work. Accordingly, each essay isolates a specific area of study and opens it up for exploration, providing readers, especially student readers, not just with examples of transnational phenomena in German language cultures but also with models of how research in these areas can be configured and pursued. Contributors: Angus Nicholls, Anne Fuchs, Benedict Schofield, Birgit Lang, Charlotte Ryland, Claire Baldwin, Dirk Weissmann, Elizabeth Anderson, James Hodgkinson, Nicholas Baer, Paulo Soethe, Rebecca Braun, Sara Jones, Sebastian Heiduschke, Stuart Taberner and Ulrike Draesner.

[The Watch Repairer's Manual: Second Edition](#)
Henry B. Fried was "widely acknowledged as the dean of American watchmakers." In the revised, second edition, Fried addresses topics important to contemporary watch repairers, such as self-winding watches, waterproofing, calendar watches, alarm wristwatches, and chronographs. The Watch Repairer's Manual also includes a fine

visual dictionary of exploded views in isometric, which are very helpful for ordering watch parts. One of the few modern books available on the techniques of watch repair and certainly the most esteemed, The Watch Repairer's Manual is outstanding for its sequence of presentation and its many useful illustrations, including enlarged details of alarm and self-winding watches. The consummate craftsman and master of details, Fried himself created the illustrations. From teaching others, Fried has learned that if you have a good understanding of how and why the mechanisms work, you will become better at fixing any problems you face-often without needing to consult a book. The Watch Repairer's Manual provides:

- Helpful background material, such as full descriptions of the main divisions of the modern watch mechanisms, including the purpose and function of each unit.
- Complete directions for cleaning and overhauling a watch movement for casing.
- A section devoted to general repairs and troubleshooting.

For anyone interested in watch repair, this volume will serve as a working manual, a reference manual, and even a course of study. Assuming little previous knowledge on the part of the reader, Fried provides complete and clear detail on each operation. The Watch Repairer's Manual should be of great value to the student, hobbyist, watch collector, and instrument maker. Henry B. Fried wrote and illustrated 14 books, many pamphlets, and hundreds of articles on horology, the science of timepieces. The first American to receive the Silver Medal of the British Horological Institute, he served as president of the New York City Horological Society and the New York State Watchmakers Association and vice president of the old Horological Institute of America. He taught and lectured on horology and served as an industry consultant. He also was a consultant for the Random House Dictionary and the Merriam-Webster Dictionary.
