Nobody quite knows how Cuthbert, Lord Wilberforce acquired his immense fortune or exactly how much money he has, but amongst his family, this is the subject of constant speculation (though not always profitless, as there is a pool going). When Lady Wilberforce decides to leave him, her daughters Amelia, Cecelia, and Cordelia, must make a choice. Should they support their mother in a new life of honest labour or stay behind among the idle rich, giving sponge baths to their eternally-dying stepfather?

COSIT, the series of Conferences on Spatial Information Theory, has been around for more than ten years. Its hallmarks are a fruitful interdisciplinary dialogue between computational and human perspectives on spatio-temporal information and a thorough review process that selects the best papers while giving all - thors

detailed feedback on how to develop their work. A clear profile of the COSIT community has emerged from the series of conference proceedings, all published as Springer Lecture Notes in Computer Science, and from the permanent web site at <http://www.cosit.info>, containing links to the conference web sites and proceedings, a history and program of the series, an impact study, interviews with participants, and pictures. The proceedings of this sixth conference provide ample evidence that COSIT is healthy and maturing, while retaining its youth. Out of the 61 submissions, the program committee selected 26 papers for presentation, in discussions based on at least three double-blind reviews and one or more meta-review from PC members for each paper. Classical COSIT themes, such as spatial reasoning (about distances and directions, regions and shapes) or vagueness are being further refined; topics like wayfinding and landmarks are boosted by new synergies between cognitive and computational approaches; and the study of ontologies for space and time, a subject since the first COSIT, is gaining more depth.

Ten essays discuss federal democracy, the form of government of the United States. The first essay discusses the origins of American federalism. The second examines why we have a federal system, the functions federalism serves, and the consequences of federalism for the American political system. Federalism in the Constitution and constitutional law are treated in the third essay. The importance of cultural pluralism in American life and the role of American federalism in supporting pluralism are the foci of the fourth essay. The roles that the local

community, the states, and political parties play in the federal system are examined in essays 5, 6, and 7, respectively. State, local, and professional roles in citizenship education are discussed in the eighth essay. The ninth essay explores how high school U.S. history and government textbooks approach federalism. The concluding essay describes resources on federalism that can be used in curriculum development at the secondary and college levels. Many of the essays are followed by topics for further study and suggested readings for teachers. (RM)

Reading Medieval Latin is an introduction to medieval Latin in its cultural and historical context and is designed to serve the needs of students who have completed the learning of basic classical Latin morphology and syntax. (Users of Reading Latin will find that it follows on after the end of section 5 of that course.) It is an anthology, organised chronologically and thematically in four parts. Each part is divided into chapters with introductory material, texts, and commentaries which give help with syntax, sentence-structure, and background.

There are brief sections on medieval orthography and grammar, together with a vocabulary which includes words (or meanings) not found in standard classical dictionaries. The texts chosen cover areas of interest to students of medieval history, philosophy, theology, and literature.
