Corporate Learning Strategies New Brunswick, N.J. : Rutgers University Press

This book discusses Public-Private Partnerships (PPPs) and their

potential to protect and maintain critical infrastructure in a variety of global governmental settings. Critical infrastructure is defined as essential services that underpin and support the backbone of a nation's economy, security, and health. These services include the power used by homes and businesses, drinking water, transportation, stores and shops, and communications. As governmental budgets dwindle, the maintenance of critical infrastructure and the delivery of its related services are often strained. PPPs have the potential to fill the void between government accounting and capital budgeting. This volume provides a survey of PPPs in critical infrastructure, combining theory and case studies to provide a comprehensive view of possible applications. Written by a diverse group of international experts, the chapters detail PPPs across industries such as transportation, social infrastructure, healthcare, emergency services, and water across municipalities from the US to New Zealand to Hong Kong. Chapters discuss objectives and legal requirements associated with PPPs, the potential advantages and limitations of PPPs, and provide guidance as to how to structure a successful PPP for infrastructure investment. This book is of interest to researchers studying public administration, public finance, and infrastructure as well as practitioners and decision makers interested in instituting PPPs in their communities.

European Capital Markets Law John Wiley & Sons

“ The richness, clarity and nuances of the structure and methodology followed by the contributors make the book a very

valuable tool for students... seeking to obtain a general understanding of the market and how it is regulated.” – Ligia Catherine Arias Barrera, Banking & Finance Law Review The fully updated edition of this user-friendly textbook continues to systematise the European law governing capital markets and examines the underlying concepts from a broadly interdisciplinary perspective. The 3rd edition deals with 3 central developments: the project of the capital markets union; sustainable finance; and the further digitalisation of financial instruments and securities markets. The 1st chapter deals with the foundations of capital markets law in Europe, the 2nd explains the basics, and the 3rd examines the regime on market abuse. Chapter 4 explores the disclosure system and chapter 5 short-selling and high-frequency trading. The role of intermediaries, such as financial analysts, rating agencies, and proxy advisers, is described in chapter 6. Chapter 7 explains compliance and corporate governance in investment firms and chapter 8 illustrates the regulation of benchmarks. Finally, chapter 9 deals with public takeovers. Throughout the book emphasis is placed on legal practice, and frequent reference is made to the key decisions of supervisory authorities and courts. This is essential reading for students involved in the study of capital markets law and financial law.

This paper outlines the Government's proposals for reform of policing, with a move away from bureaucracy towards more democratic accountability. There will be directly elected Police and Crime Commissioners, representing their communities and understanding their crime and anti-social behaviour priorities. They

will hold chief constables to account for achieving them, and will be able to fire her or him if they do not. Chief constables will be responsible for the day to day operations of their police force but accountable to the public via these individuals and not Whitehall. Regular beat meetings will allow people to challenge the police's performance and accessible 'street level' crime data will shine a light on local crime trends and concerns. Central targets will be abolished, and the police will be encouraged to use their professional judgment in performing their job. The Government will create a new National Crime Agency to lead the fight against organised crime, protect the borders and provide services best delivered at national level.

The instant New York Times bestseller.

"An instant classic of investigative journalism... ' All the President ' s Men ' for the Me Too era." — Carlos Lozada, The Washington Post From the Pulitzer Prize-winning journalists who broke the news of Harvey Weinstein's sexual harassment and abuse for the New York Times, Jodi Kantor and Megan Twohey, the thrilling untold story of their investigation and its consequences for the #MeToo movement For years, reporters had tried to get to the truth about Harvey Weinstein ' s treatment of women. Rumors of wrongdoing had long circulated, and in 2017, when Jodi Kantor and Megan Twohey began their investigation for the New York Times, his name was still synonymous with power. But during months of confidential interviews with actresses, former Weinstein employees, and other sources, many disturbing and long-buried allegations were unearthed, and a web of onerous secret payouts and nondisclosure agreements was revealed. When Kantor and Twohey were finally able to convince sources to go on the record, a dramatic final showdown between Weinstein and the New York Times was set in motion. In the tradition of great investigative journalism, She Said tells a thrilling story about the power of truth and reveals the inspiring and affecting journeys of the women who spoke up—for the sake of other women, for future generations, and for themselves. Tim Dunn examines these policies and practices in detail, and considers them in light of the strategy and tactics of the Pentagon doctrine of "low-intensity conflict." Developed during the 1980s for use in Central America and elsewhere, this doctrine is characterized by broad-ranging provisions for establishing social control over specific civilian populations, and its implementation has

often been accompanied by widespread human-rights violations.

Thirty years ago, an international movement utilizing boycott, divestment, and sanction (BDS) tactics rose in solidarity with those suffering under the apartheid regime of South Africa. The historic acts of BDS activists isolated South Africa as a pariah state and heralded the end of apartheid. Now, as awareness of the apartheid nature of the State of Israel continues to grow, Omar Barghouti, founding member of the Palestinian Civil Society Boycott, Divestment

and Sanctions (BDS) campaign against Israel, presents a renewed call to action. --From publisher description.

Across Africa, growing economic inequality, instability and urbanization have led to the rapid spread of private security providers. While these PSPs have already had a significant impact on African societies, their impact has so far received little in the way of comprehensive analysis. Drawing on a wide range of disciplinary approaches, and encompassing anthropology, sociology and political science, Private Security in Africa offers unique insight into the lives and experiences of security providers and those affected by them, as well as into the fragile state context which has allowed them to thrive. Featuring original empirical research and case studies ranging from private policing in South Africa to the recruitment of Sierra Leoneans for private security work in Iraq, the book considers the full implications of PSPs for security and the state, not only for Africa but for the world as a whole.
