Indicators and rankings are widely used by governments and organisations to assess the effectiveness, efficiency, and success of policy decisions. This book evaluates the creation of indicators, their impact on policy decisions, and the implications of their use.

Dictionary of Accounting Terms John Wiley & Sons

The approach used by Hoyle, Schaefer, and Doupnik in the new edition allows students to think critically about accounting, just as they will do while preparing for the CPA exam and in their future careers. With this text, students gain a well-balanced appreciation of the Accounting profession. As Hoyle 12e introduces them to the field's many aspects, it often focuses on past controversies and present resolutions. The text continues to show the development of financial reporting as a product of intense and considered debate that continues today and into the future. The writing style of the eleven previous editions has been highly praised. Students easily comprehend chapter concepts because of the conversational tone used throughout the book. The authors have made every effort to ensure that the writing style remains engaging, lively, and consistent which has made this text the market leading text in the Advanced Accounting market. The 12th edition includes an increased integration of IFRS as well as updated accounting standards.

Governance by Indicators John Wiley & Sons

Lo/Fisher is praised for its readability and conversational writing style that helps students better understand difficult concepts in Accounting. Lo/Fisher presents the how and why of reporting accounting information from within an easily-understood theoretical framework. Lo/Fisher has a clean layout that engages the reader with a clear writing style using plain English. This text is built on the current International Financial Reporting Standards (IFRS) and incorporates Accounting Standards for Private Enterprise (ASPE) where appropriate. Our philosophy is that when students understand the current standards, they will be able to analyze and interpret changes in the future. Intermediate Accounting John Wiley & Sons

Great leaders are made, not born. Written by the authors of From Good Schools to Great Schools, this sequel shows how great school leaders can be developed and how leaders can acquire the powerful personal leadership characteristics that the best administrators use to lead their schools to greatness. Based on sound strategies and the work of Jim Collins, Gray and Streshly tackle how to build relationships, communicate effectively, exercise your personal will with humility, face brutal facts, get faculty on board, and build a school culture of self-discipline. Chapters include: - Case studies that provide an ongoing context for professional learning - Self-assessments that reveal your inherent leadership dispositions - Interviews and tips from exceptional headteachers in the field - Strategies for developing specific leadership qualities - Application exercises that reinforce how to put the strategies into action - Reflection activities that encourage professional growth Appropriate for both individual and group professional development, Leading Good Schools to Greatness reveals how leadership skills can be learned and used to take your school to the next level.

The Directory of Executive Recruiters, 2002 Corwin Press

This book explores ways in which libraries can reach new levels of service, quality, and efficiency while minimizing cost by collaborating in acquisitions. In consortial acquisitions, a number of libraries work together, usually in an existing library consortia, to leverage size to support acquisitions in each individual library. In cross-functional acquisitions, acquisitions collaborates to support other library functions. For the library acquisitions manager, technical services manager, or the library director, awareness of different options for effective consortial and cross-functional acquisitions allows for the optimization of staff and resources to reach goals. This work presents those options in the form of case studies as well as useful analysis of the benefits and

---

challenges of each. By supporting each other ' s acquisitions services in a consortium, libraries leverage size to get better prices, and share systems and expertise to maximize resources while minimizing costs. Within libraries, the acquisitions function can be combined with other library functions in a unit with more than one purpose, or acquisitions can develop a close working relationship with another unit to support their work. This book surveys practice at different libraries and at different library consortia, and presents a detailed description and analysis of a variety of practices for how acquisitions units support each other within a consortium, and how they work with other library units, specifically collection management, cataloging, interlibrary loan, and the digital repository, in the form of case studies. A final section of the book covers fundamentals of collaboration.
