This collection, addressing a topic of ongoing interest and debate in American archaeology, examines the evolution of ranked chiefdoms in the Midwestern and Southeastern United States during the period A.D. 700 – 1200. The volume brings together a broad range of professionals engaged in the fieldwork that has vitalized the theoretical debates on the development of Mississippi Valley cultures. The initial chapter provides a general discussion of various

explanations for the rise of these distinctive ranked societies in the eastern United States (A.D. 750-1050) and sets the stage for the interdisciplinary analysis from multiple viewpoints that follows. The first section discusses a cluster of individual sites in the Midwest and Southeast and reveals the parallel—and occasionally divergent—paths followed by the inhabitants as they transitioned from Late Woodland into Mississippian lifeways. The chapters in the second half discuss by region the emergence of ranked agricultural societies and

examine how these networks played a role in the large-scale and roughly contemporaneous socio-political development. Contributors: C. Clifford Boyd Jr. James A. Brown R. P. Stephen Davis Jr. John House John E. Kelly Richard A. Kerber Dan F. Morse Phyllis Morse Martha Ann Rolingson Gerald F. Schroedl Bruce D. Smith Paul D. Welch Howard D. Winters

After their 43-foot schooner was stove in by a pod of killer whales, the Robertson

family spent 37 days adrift in the Pacific. With no maps, compass, or navigational instruments, and rations for only three days, they used every survival technique they could as they battled 20-foot waves, marauding sharks, thirst, starvation, and exhaustion.

Happy Valentine Day Coloring Book McGraw Hill Professional

A great designer offers you a virtuoso tour through the

world of sailboats. Bob Perry initiated the trend toward fast voyaging sailboats with his world-famous Valiant 40, which has been in production longer than any other cruising sailboat in history. But Perry is not only a leading yacht designer--he is also an accomplished wordsmith whose blunt, insightful, irreverent, and always entertaining boat reviews have captivated readers of *Sailing* magazine for 24 years. This book is vintage Perry, a no-holds-barred tour of the world of yacht design through the

benchmark boats of his 30-year career.

Archaeology on the Great Plains Food & Agriculture Org.
This volume is the first attempt to synthesize current knowledge on the cultural history of the Great Plains since Wedel's Prehistoric Man on the Great Plains became the standard reference on the subject almost forty years ago.

Fourteen authors have undertaken the task of examining archaeological phenomena through time and by region to present a systematic overview of the region's human history. Focusing on habitat and cultural diversity and on the changing archaeological record, they reconstruct how people responded to

the varying environment, climate, and biota of the grasslands to acquire the resources they needed to survive. *Learning Spark* Springer Science & Business Media This publication is a derived version of the International Classification of Functioning, Disability and Health (ICF, WHO, 2001) designed to record characteristics of

the developing child and the influence of environments surrounding the child . This derived version of the ICF can be used by providers, consumers and all those concerned with the health, education, and well being of children and youth. It provides a common and universal language for clinical, public health, and research applications to

facilitate the documentation and measurement of health and disability in child and youth populations.--Publisher's description. *Sustainable Maritime Transportation and Exploitation of Sea Resources* CRC Press For upper-level courses in Technical Communication and Professional Writing. Portfolios for Technical and Professional Communicators is a short, practical guide

that discusses how to create professional paper and electronic portfolios. Designed for technical communication and professional writing students, it covers the portfolio-building process and reinforces text concepts using guidelines, exercises, assignments and student examples. It covers design and content issues important to technical and professional communicators, and integrates examples specific to the

profession. Unique chapters offer coverage of portfolios and legal issues, portfolios and the job search, and how to use portfolios in interviews and on the job.

New for Halloween-Expanded Edition - Includes More Than 82 Unique Halloween Designs Pumpkins, Haunted Houses,

Jack-O-Lanterns, Witches, Skulls, Trick-or-Treaters, Cats, Owls, Bats, and Much More! New Halloween Adult Coloring Book with more than 82 illustrations. A spooky and fun adult coloring book filled with Halloween themes of all varieties. Designs of various styles that range from simpler to more complex for

all levels of coloring enthusiasts. Halloween coloring book for adults, teens, men, and women. Carefully chosen design will provide hours of fun, stress relief, creativity, and relaxation. Full page designs are printed single side on 60 lb paper stock. Relax and unwind as you color these dazzling

illustrations. This Halloween coloring book for grown-ups features: A variety of styles sure to please all levels of colorists Each page is 8.5 by 11 inches Each page is professionally composed Beautiful and unique designs, no repeats Single-side pages lessen the chance of bleed through and make removal and display easy High-

resolution printing Great gift idea or buy one for yourself! The History of the Alphabet: Semitic alphabets DK Publishing (Dorling Kindersley) Client Profile & Appointment Log Book Record Book Organizer Personal Client Record Book Customer Information Tracker For Hair Stylists Barbers,

Hairdressers, Beauty Salons Product Details: 110 pages include: Name, Address, Phone, Email, Occupation and Notes. Customer database record fields include Date, Time, Service Type and Notes. Paperback cover Perfect Bound. Harriet Tubman Prentice Hall Sustainable Maritime Transportation and Exploitation of Sea Resources covers the most updated aspects of maritime transports and of coastal and sea resources exploitation, with a focus on (but not limited to) the Mediterranean area. Vessels for transportation are analysed from the viewpoint of ship design in terms of hydrodynamic, structural and plant optimisation, as well as from the perspective of construction, maintenance, operation and logistics. The exploitation of marine and coastal resources is covered in terms of fishing, aquaculture and renewable energy production as well as of subsea resources extraction. The characterisation of the marine environment is seen under the twofold perspective of

providing reference loads and conditions for the design of means for the resources exploitation, but also of setting limits to the design in order to preserve the natural ambient and minimise the impact of anthropogenic activities related to both transportation and exploitation. Efficiency, reliability, safety and sustainability of sea- and Mediterranean-related human activities are the focus throughout the book. Sustainable Maritime Transportation and Exploitation of Sea Resources will be of interest to technical operators in the various areas involved (shipbuilding and ship-owner companies, research organisations, universities, certifying bodies), but will also serve as an updated reference work for government agencies and other institutional and educational bodies. The Encyclopedia of Yachting Springer Science & Business Media

The book has 120 white pages with dot matrix that will help you while writing and sketching but at the same time gives

you enough freedom for notes and other ideas. It comes in handy format 6x9 inches (equivalent to DIN A5). The Nurse Notebook is for those who have a Fable for Medicine or Cure. The Nurse Notebook is versatile, notepad inserts, personal achievements, birthday appointments, your thoughts or other

notes of your choice. Use it on holiday as a holiday diary or as a gratitude diary. No matter if motivation, tokens, appointments or notes with this space-saving notebook no wish remains open. For leisure, hobbies or work, this small but fine notebook is always and everywhere suitable for things, ideas

or thoughts that want to be noted, e.g. as a thought support or for organizing tasks. Whether for yourself or as a gift for men and women, partners, friends, mums and dads or work colleagues. Especially suitable for birthdays, for Christmas or just as a nice attention for your loved one.

Participation in
sailing is declining
in America, down more
than 40% since 1997
and 70% since 1979. In
this provocative book,
researcher and avid
sailor Nicholas Hayes
explains why. The book
shows how pressures on
free time have
increased, and how, in
response, many
Americans have turned
to extremes of
spectator or highly
structured activities
. . . and away from

lifelong, family-based,
multi-generational
recreation. Saving
Sailing builds a case
for choosing how to
spend free time better,
using it for quality
experiences with
families and friends
through rewarding
pastimes like
sailing. The main
challenge, the author
suggests, is to develop
an active system of
mentoring, especially
between generations. The
lessons are broader
than sailing, with
useful ideas for all
parents, for anyone

seeking to strengthen
the social fabric of
American communities,
and for those involved
in programming for
youth and adult
activities.

This detailed
reference book
covers all aspects
of yachting, from
the history of the

sport to the contemporary classes of yacht and dinghy. Accounts of inshore and offshore racing are highlighted with descriptions of important UK and international events and competitions.

International Classification of Functioning, Disability, and Health "O'Reilly Media, Inc."

Image segmentation is generally the first task in any automated image understanding application, such as autonomous vehicle navigation, object recognition, photointerpretation, etc. All subsequent tasks, such as feature extraction, object detection, and object recognition, rely heavily on the quality of

segmentation. One of the fundamental weaknesses of current image segmentation algorithms is their inability to adapt the segmentation process as real-world changes are reflected in the image. Only after numerous modifications to an algorithm's control parameters can any current image segmentation

technique be used to handle the diversity of images encountered in real-world applications. Genetic Learning for Adaptive Image Segmentation presents the first closed-loop image segmentation system that incorporates genetic and other algorithms to adapt the segmentation process to changes in image characteristics caused by variable environmental conditions, such as time of day, time of year, weather, etc. Image segmentation performance is evaluated using multiple measures of segmentation quality. These quality measures include global characteristics of the entire image as well as local features of individual object regions in the image. This adaptive image segmentation system provides continuous adaptation to normal environmental variations, exhibits learning capabilities, and provides robust performance when interacting with a dynamic environment. This research is

directed towards
adapting the
performance of a
well known existing
segmentation
algorithm (Phoenix)
across a wide
variety of
environmental
conditions which
cause changes in
the image
characteristics.
The book presents a
large number of
experimental
results and
compares

performance with
standard techniques
used in computer
vision for both
consistency and
quality of
segmentation
results. These
results
demonstrate, (a)
the ability to
adapt the
segmentation
performance in both
indoor and outdoor
color imagery, and
(b) that learning
from experience can

be used to improve
the segmentation
performance over
time.

Here is unique and comprehensive coverage of modern seismic instrumentation, based on the authors' practical experience of a quarter-century in seismology and geophysics. Their goal is to provide not only detailed information on the basics of seismic instruments but also

to survey equipment on the market, blending this with only the amount of theory needed to understand the basic principles. Seismologists and technicians working with seismological instruments will find here the answers to their practical problems. Instrumentation in Earthquake Seismology is written to be understandable to the broad range of

professionals working with seismological instruments and seismic data, whether students, engineers or seismologists. Whether installing seismic stations, networks and arrays, working and calibrating stationary or portable instruments, dealing with response information, or teaching about seismic instruments, professionals and academics now have a

practical and authoritative sourcebook. Includes: SEISAN and SEISLOG software systems that are available from <http://extras.springer.com> and <http://www.geo.uib.no/seismo/software/software.html>

Data in all domains is getting bigger. How can you work with it efficiently? Recently updated for Spark 1.3, this book introduces Apache Spark, the open source cluster computing system that makes data analytics fast to write and fast to run. With Spark,

you can tackle big datasets quickly through simple APIs in Python, Java, and Scala. This edition includes new information on Spark SQL, Spark Streaming, setup, and Maven coordinates. Written by the developers of Spark, this book will have data scientists and engineers up and running in no time. You'll learn how to express parallel jobs with just a few lines of code, and cover applications from simple batch jobs to

stream processing and machine learning. Quickly dive into Spark capabilities such as distributed datasets, in-memory caching, and the interactive shell Leverage Spark's powerful built-in libraries, including Spark SQL, Spark Streaming, and MLlib Use one programming paradigm instead of mixing and matching tools like Hive, Hadoop, Mahout, and Storm Learn how to deploy interactive, batch, and streaming applications Connect to
