Merely said, the Garmin Edge 800 Manual is universally compatible with any devices to read

[Edge 810 - Edge 810 - Garmin](#)

Edge 800 records your every move with a high-sensitivity GPS receiver that stays locked on to a satellite signal, even under tree cover. It tracks your distance, speed, location and ascent/descent and lets you customise up to three training pages so you can see as much or as little ride information as you want.

I was going off of the 800 manual, since I don't own an edge800, which is more

similar to the 705 than the 810 when it comes to pairing sensors. According to

the manual you only get to say yes or no to pair the cadence sensor. Since it

specifically stated the GCS10 in the manual. The 705 is the exact same process.
