This book has been extremely useful to me in understanding all there is to know about metal detectors. To a beginner this is absolute required reading, and for the experienced detectionist, it is still of profound value because of the advice that it gives. This book helped me purchase the right metal detector and following its advice paid for the book the first time I went out metal detecting after reading it. If you are only going to have only two or three books in your personal metal detecting library this one should be one of those two or three! Happy Hunting!

Student Solutions Manual to accompany Partial Differential Equations: An Introduction, 2e Faith That Sticks

The Last Wild Road is a raucous, gripping, sometimes terrifying, often hilarious, and deeply meditative journey through the heart of the outdoors in the modern world. Collected from more than 20 years of hunting and fishing cover stories, columns, and adventure tales written by T. Edward Nickens for Field & Stream, this book is a road trip that takes in a huge sweep of the North American landscape—blackwater rivers in the wilds of eastern North Carolina, deserts and prairies of the American West, remote tundra of northern Canada, and the wildest rivers of Alaska. Along every rutted road and rough trail, with a rod, gun, and pen, Nickens meets unforgettable characters—old French-speaking Cajuns at Louisiana squirrel camps, a one-armed fly-tyer in the ancient Appalachians, Pennsylvania brothers who lost their father in a hunting accident decades ago and return to the scene for a powerful, poignant encounter with history. He explores remote wilderness waters to chase trout and ducks, but finds rich meaning, too, in the familiar and close-to-home: fishing with his children, plumbing the forests of local farms, and butchering deer in his basement as a thanksgiving for the gifts of the outdoors. When it comes to hunting and fishing, writing often falls into the categories of where-to-go, the how-do-it, and the-what-to-bring. This book embarks on the question of “ why. ” Why does the pursuit of game and fish, and the travel to the wild places where they thrive, bring meaning and clarity to living in the modern world? Why do we laugh more, and live more deeply, far from the sidewalk? If you ’ ve ever felt that way, you ’ ll find yourself in The Last Wild Road.

A fibreglass hull's seamless nature leads many boatowners to conclude that repair must be difficult. But it's not. There is virtually no repair to a fibreglass hull or deck that a motivated owner can't do as well (if not as quickly) as a professional, and in this practical manual, Don Casey gives you all the advice you need to repair and maintain your fibreglass boat. With admirably clear explanations and diagrams, Casey explains how to mend leaks, seal joints, fix cracks and holes, replace portlights, restore a hull's gloss, renew non-slip decks, and deal with keel and rudder damage as well as core problems. In fact he covers everything the boater needs to know, and much more. 'A very

effective guide to repairs... so clear and compact.' Practical Boat Owner

Maritime navigation has rapidly developed since the publication of the last edition of the title with methods of global position fixing for shipping becoming standardized. As in the previous two editions, this edition will provide a sound basis for the understanding of modern navigation systems and brings the student or professional up-to-date with the latest developments in technology and the growing standardization of maritime navigation techniques. Developed with close scrutiny from the US Merchant Marine Academy and the major maritime navigation centres in the UK, out-dated techniques have been replaced by an expanded section on the now standard Navstar GPS systems and the Integrated Nav. In addition, a new chapter on the application of electronic charts will also be included, as well as problems at the end of each chapter with worked solutions.

As the most comprehensive caravan and tourist park guide in Australia, Caravan Parks Australia Wide is a must have travelling companion. Whether you are a caravanner, motor homer or a traveller looking for cabin style accommodation, this guidebook contains all the information you need to find a place to stay. A numbered caravan symbol has been placed on the map at each town or location where a park can be found and each state has an index of parks at the beginning of the listing that can be used as a quick reference. Travellers can also use the informative symbols in the book to determine whether a park meets their needs. Coloured symbols are included on each listing to inform the reader about facilities such as powered sites, en-suite sites, tent sites, BBQ, pool, approximate cost, pets allowed, large sites, drive thru sites and dump points. Plan your trip on or off the road by checking the map for caravan symbols on your planned route, seeing at a glance what facilities are available at certain parks and using the GPS

coordinates included in the book to find your desired location. Finding a park that meets your needs has never been easier.

Epic true stories of man (or woman) vs. fish, gathered from around the world . . . includes photos and links to videos! The daredevil who leaped from a helicopter onto the back of a marlin and rode it rodeo-style. A staggering 3,001 bass caught in a single short summer season on Long Island. A grueling 37-hour fight with a Pacific salmon. Sometimes truth is stranger than fiction! From crazy billfish quests to the scientist who hooked a grizzly, from "fish catches man" horror stories to those nutty catfish noodlers who grope into the murkiest holes bare-handed, here are fishing's most unpredictable and spectacular tales. Shaun Morey traveled the world—including Alaska, Australia, Mexico, and the Caribbean—to interview anglers, boat captains, guides, and witnesses who can say: Yes, this really happened! Joan Johnson-Freese argues that the race for space weapons and the U.S. quest for exclusive or at least dominant ownership of strategic space assets have alienated the very allies that the United States needs in order to maintain its leading role in space exploration. Taking a balanced look at the issues that have contributed to the decline of America's manned space program, such as lack of political support and funding, Johnson-Freese offers not only a critique but also a plan for enhancing U.S. space security through cooperation rather than competition. She begins

with a brief overview of the history of international space development through four eras: before Sputnik, the space race, after Apollo, and globalization. Then she focuses on how policy changes of the mid-1990s have changed the nation, examining why the United States has grown obsessed with the development of space technology not just as a tool for globalization but as a route toward expanding an already dominant arsenal of weapons. Johnson-Freese claims that these policy choices have greatly affected the attitudes and actions of other countries, and in the fight to achieve security, the United States has instead put itself at greater peril. Johnson-Freese explains complex technical issues in clear, accessible terms and suggests a way forward that is comprehensive rather than partisan. America is not the only country with space ambitions, but it is unique in viewing space as a battlefield and the technological advancements of other nations as a dire threat. Urgent and persuasive, Space as a Strategic Asset underscores the danger of allowing our space program to languish and the crucial role of cooperation in protecting the security of our country and the world.
