No other guide helps you navigate the Global Positioning System [GPS]like this one--with the latest applications for air, surface, and marine travel. This third edition of the Aviator's Guide to GPS is the essential sourcebook of current equipment and applications for the world's most precise, satellite-driven navigation system. Instrumentation, positioning accuracy, regulations, and the latest

forms of alternative radio navigation are discussed--as is the fascinating history of the system's development by the Pentagon. The book covers this global navigational system in an easy-to-read, fully illustrated format that gives practical, hands-on pointers on: familiarizing yourself with NAVSTAR, LORAN-C, and all civilian applications of GPS; consumer advice on purchasing GPS-friendly equipment such as specialized receivers and digital instrumentation; marine navigation, land positioning, surveying, mapping, and personal safety. The author also outlines the continually evolving improvements GPS brings to modern aviation: more direct routing, precision airport approaches, decreased congestion, and safely increasing the number of aircraft that can use a given airspace. No other book on the market handles GPS as thoroughly and practically as this one. Tap the full potential of the world's premier positioning system with the Aviator's Guide to GPS!

**NEW YORK TIMES BESTSELLER** • The author of *The Happiness Project* and “a force for real change” (Brené Brown) examines how changing our habits can change our lives. “If anyone can help us stop procrastinating, start exercising, or get organized, it’s Gretchen Rubin. The happiness guru takes a sledgehammer to old-fashioned notions about change.” —Parade Most of us have a habit we’d like to change, and there’s no shortage of expert advice. But as we all know from tough experience, no magic, one-size-fits-all solution exists. It takes work to make a habit, but once that habit is set, we can harness the energy of habits to build happier, stronger, more productive lives. In *Better Than Before*, acclaimed writer Gretchen Rubin identifies every approach that actually works. She presents a practical, concrete framework to allow readers to understand their habits—and to change them for good. Infused with Rubin’s compelling voice, rigorous research, and easy humor, and packed with vivid stories of lives transformed, *Better Than Before* explains the (sometimes counterintuitive) core principles of habit formation and answers the most perplexing questions about habits:

- Why do we find it tough to create a habit for something we love to do?
- How can we keep our healthy habits when we’re surrounded by temptations?
- How can we help someone else change a habit?

Rubin reveals the true secret to habit change: first, we must know ourselves. When we shape our habits to suit ourselves, we can find success—even if we’ve failed before. Whether you want to eat more healthfully, stop checking devices, or finish a project, the invaluable ideas in *Better Than Before* will start you working on your own habits—even before you’ve finished the book.

The Ultimate Public Campground Project was conceived in 2008 to provide a consolidated and comprehensive source for public campgrounds of all types. It all began with a simple POI (Point of Interest) list of GPS coordinates and names, nothing more, totaling perhaps 5,000 locations. As the list grew in size and information provided, a website was designed to display the data on a map. Next came mobile apps, first iOS and Mac apps and more recently Android versions. Now this information is available in 17 paperback books and includes over 38,000 locations across the United States. Work continues on the Project with information updated regularly. Volume 4 of The Ultimate Public Campground Project book describes 3,064 camping areas in the State of California.
