Boating Human Kinetics

This new book, based on a highly successful series of articles in

Practical Boat Owner magazine, is a detailed practical guide to sailing around the UK - all by means of day sails. Roger Oliver, a passionate sailor, explains his in-depth passage planning, boat preparations, weather checks and log-keeping, as well as his choice of routes, detailed navigation, sail trim tips and on-passage maintenance, all for the benefit of sailors who have a yen to follow in his footsteps. Packed with a wealth of practical tips on seamanship, anchoring in high winds, coping with big seas, problem-solving, harnessing the tide, sailing short-handed and living aboard for extended cruising, this book will be a godsend to the many thousands of sailors who enjoy coastal cruising and who will discover (as did Roger) that it is perfectly possible to cruise around the whole of the UK in a series of day sails. With this book to hand, and inspired by Roger's detailed route maps and spectacular photographs, anyone can experience the thrill and enjoyment of sailing around the beautiful and varied UK coast from any starting point.

The Ultimate Public Campground Project was conceived in 2008 to provide a consolidated and comprehensive source for public campgrounds of all types. It all began with a simple POI (Point of Interest) list of GPS coordinates and names, nothing more, totaling perhaps 5,000 locations. As the list grew in size and information provided, a website was designed to display the data on a map. Next came mobile apps, first iOS and Mac apps and more recently Android versions. Now this information is available in 17 paperback books and includes over 38,000 locations across the United States. Work continues on the Project with information updated regularly. Volume 4 of The Ultimate Public Campground Project book describes 3,064 camping areas in the State of California.
