The Third Edition of *Police & Society* offers a comprehensive introduction to policing in the United States. Author Roy Roberg is joined by prominent policing scholars Kenneth Novak and Gary Cordner. Their thoroughly revised text is both descriptive and analytical in nature--covering the process of policing, police behavior, organization, operations, and historical perspectives. To adequately explain the complex nature of police operations in a democracy, the authors have integrated the most important theoretical foundations, research findings, and contemporary practices in a comprehensible, yet analytical, manner. Contemporary issues and future prospects of policing are fully addressed. The text features an emphasis on the relationship between the police and the community--as well

In this breathless new installment in bestselling author Ralph Compton's the Gunfighter series, an ex-con fights to free his hometown from the clutches of a greedy land baron. When twenty-five-year-old Lewis Taylor is released from the Texas State Prison, he receives little attention as he walks into the midday sunlight, free after serving five years for a crime he didn't commit. His only interest is in getting back to his hometown of Gila Bend, Texas, a quiet farming community about which he has only warm, idyllic memories. During his long years in prison, he survived by thinking fondly of the home he'd known since boyhood—and of one special girl, Darla Winslow. What he finds instead is a town dramatically changed. Once a happy and carefree place to live, it is now populated by people who are angry and afraid. One man, Captain Archer Ringewald, has taken control of the town, and now he's turning the townspeople, even Darla, against Taylor. Can one ex-con single-handedly save an entire town?

Astrology is finally getting personal! From the best-selling author of The Secret Language of Birthdays comes a revolution in charting your horoscope based on both the date and time of your birth that makes all other horoscope books irrelevant. With his "Personology" system, Gary Goldschneider has created a unique method which divides each of the twelve signs into five sub-types-such as Aquarius-Pisces Cusp, Pisces I, Pisces II, Pisces III, and Pisces-Aries Cusp--thereby sub-dividing the astrological year into 48 personology periods. The precision this allows is far beyond anything available in any other astrology book and provides a ground-breaking new way for readers to look not only at their own lives, but their interactions with those around them. The book comes packed with easy-to-follow charts covering the sun, eight different planets, and, unique to this book, the rapid fluctuations of the moon for every year from 1900 through 2025. The result is an unprecedented level of precision, as well as a beautifully illustrated volume destined to become the one and only book horoscope readers will treasure for the next twenty years.

To help the researcher understand why and how children react to adults who are doing ethnographic research, Fine and Sandstrom explore the methodological and ethical problems of qualitative research with minors. They correct numerous fallacies held by researchers that children think like adults and that they cannot hide their thoughts and feelings from adults, especially strangers. Recognizing that age is an important determinant of children's response, they discuss problems and present strategies for conducting research with three age groups of children: preschool children (4 to 6 year olds), preadolescents (10 to 12) and middle adolescents (14 to 16). This is the first major methodological statement on doing participant observation work w

The first and only monograph available on the subject, The Roman City and its Periphery offers a full and detailed treatment of the little-investigated aspect of Roman urbanism -- the phenomenon of suburban development. Presenting archaeological and literary evidence alongside sixty-three plans of cities, building plans, and photographs, Penelope Goodman examines how and why Roman suburbs grew up outside Roman cities, what was distinctive about the nature of suburban development, and what contributions buildings and activities in the suburbs might make to the character and function of the city as a whole. With full bibliography and annotations throughout, this will not only provide a coherent treatment of an essential theme for students of Roman urbanism, but archaeologists, urban planners and geographers also, will have an excellent comparative tool in the study of modern urbanism.

Ralph Compton Return to Gila Bend The Garmin Nuvi Pocket Guide

Ambrose Zephyr and his wife Zappora Ashkenazi (“ Zipper ”) have achieved a happy and balanced life together. She is the yin to his yang. He is the only man she has loved without adjustment. The two live contentedly in a narrow London terrace full of books. That contentment is thrown into turmoil on or about Ambrose ’ s fiftieth birthday, when they receive the news that he has contracted a mysterious illness that will most certainly lead to his death within the month. In panicked delirium, from beneath their bed Ambrose withdraws an oxblood suitcase containing the ephemera of his long-suppressed life ’ s ambition: to travel the world in a pilgrimage through the alphabet, from Amsterdam to Zanzibar. Scuttling the responsibilities of their respectably successful careers, the two set off on an urgent voyage through real and imagined geographies of place, of history, of art, and of love. Zipper is continually frustrated by Ambrose ’ s reticence, but loves him beyond all measure. And Ambrose well appreciates his miraculous good fortune in having Zipper by his side, drawing out the best in him. Zipper does not completely understand Ambrose ’ s compulsion to pursue his childhood dream, but her commitment to him is absolute and so she, too, is compelled to make this journey. In Amsterdam, they revisit past debates on beauty and art. In Berlin, they weigh the burdens of history. In the glow of the Chartres windows, they explore the stations of life. In Deauville, they fondly recall their youthful love. At “ E, ” Ambrose adjusts his long-drafted itinerary, crossing out Elba and replacing it with the Eiffel Tower of Zipper ’ s beloved Paris, the city of their first predestined encounter. While resting in Florence beside the youthfully vital David, they meet a chivalrous old man who shares his insight into enduring romance. It is in Giza that

Ambrose begins to falter as he climbs a pyramid, and they miss Haifa thanks to a sandstorm. In Istanbul, they realize that Ambrose can go no further and they must return to their London terrace. But their voyage is not over. The two continue their odyssey, no longer via plane and rail, but now through the power of shared desire and love. The wise words of a hallucinatory camel in Ambrose ’ s fevered dream ring out to them with equanimity: “ Why, you ask? There is no why, Master Zephyr. Life goes on. Death goes on. Love goes on. It is all as simple as that. ” In the tradition of romantic legend and fable, The End of the Alphabet is a lovingly rendered, richly nuanced treatise on the nature of true and enduring love. The story of Ambrose and Zappora is a precious gift, one that illuminates a pathway to the return of balance and joy after unthinkable loss.

again with this story I want the reader to be able to relate to what kids feel and struggle with in life. I also want them curious about how real is God and His word. Maddy is clearly a leader in this series of books, but in this book at first she feels like a failure. As she sees her

unfaithfulness in obeying God, she discovers God is still faithful to her. She has learned something new about God that will impact her the rest of her life-a new side of His love when she discovers God even loves her on her very bad days. This will allow Maddy to always run to God no matter how she feels, knowing He will always be there. This book will speak to our children's hearts and minds the same way God speaks to us, as we are all learning to come to him as little children.
