Mehr, a third-year engineering student, is woken up by a late-night call from her boyfriend, who tells her about a music video he had posted of her friend, Aditya, which had gone viral. More than the song, it was the story of Aditya's dead girlfriend that garnered attention. Aditya was an introvert who was called as the year-back student. He was known for his suspension from college and stories about his dead girlfriend, Meerika. Mehr, who is in love with him, is curious to know how a meritorious student, who loved music, his friends, and Meerika, got so lost. But is Aditya ready to move on? Will he ever realise Mehr's love for him? Will he discover what his true calling is? And will he have the courage to pursue his passion over his parents' dreams? And where is Meerika? Is she really dead?

Electromagnetic Field Theory Fundamentals A&C Black

"This book provides an insight into the mechanical behaviour and testing of metals, polymers, ceramics and composites, which are widely employed for structural applications under varying loads, temperatures and environments. Organized in 13 chapters, this book begins with explaining the fundamentals of materials, their basic building units, atomic bonding and crystal structure, further describing the role of imperfections on the behaviour of metals and alloys. The book then explains dislocation theory in a simplified yet analytical manner. The destructive and non-destructive testing methods are discussed, and the interpreted test data are then examined critically."--Publisher's description.
