David Crystal's classic English as a Global Language considers the history, present status and future of the English language, focusing on its role as the leading international language. English has been deemed the most 'successful' language ever, with 1500 million speakers internationally, presenting a difficult task to those who wish to investigate it in its entirety. However, Crystal explores the subject in a measured but engaging way, always backing up observations with facts and figures. Written in a detailed and fascinating manner, this is a book written by an expert both for specialists in the subject and for general readers interested in the English language.

Understanding Da Vinci's Creative Genius The life and art of history's most influential mind Bestselling author Leonard Shlain explores the potential for humankind through the life, art, and mind of the first true Renaissance Man, Leonardo da Vinci. His innovations as an artist, scientist, and inventor are recast through a modern lens, with Shlain applying contemporary neuroscience to illuminate da Vinci's creative process. No other person in human history has excelled in so many areas of innovation: Shlain reveals the how and the why. Shlain theorizes that Leonardo's extraordinary mind came from a uniquely developed and integrated right and left brain, which offers a model for how we too can evolve. Using past and current research, Leonardo's Brain presents da Vinci as the focal point for a fresh exploration of human creativity. With his lucid style and remarkable ability to discern connections among a wide range of fields, Shlain brings the reader into the world of history's greatest mind. Leonard Shlain is a bestselling author, inventor, and surgeon. Admired among artists, scientists, philosophers, anthropologists, and educators, he authored three bestselling books. He delivered stunning visual presentations based upon his books in venues around the world, including Harvard, the New York Museum of Modern Art, CERN, Los Alamos, the Florence Academy of Art, and the European Council of Ministers. Shlain died in May 2009 at the age of 71 from brain cancer shortly after the completion of this book. Visit LeonardShlain.com and LeonardosBrain.com.

The CEFR Companion volume broadens the scope of language education. It reflects academic and societal developments since the publication of the Common European Framework of Reference for Languages (CEFR) and updates the 2001 version. It owes much to the contributions of members of the language teaching profession across Europe and beyond. This volume contains: ? an explanation of the key aspects of the CEFR for teaching and learning; ? a complete set of updated CEFR descriptors that replaces the 2001 set with: - modality-inclusive and gender-neutral descriptors; - added detail on listening and reading; - a new Pre-A1 level, plus enriched description at A1 and C levels; - a replacement scale for phonological competence; - new scales for

mediation, online interaction and plurilingual/pluricultural competence; - new scales for sign language competence; ? a short report on the four-year development, validation and consultation processes. The CEFR Companion volume represents another step in a process of engagement with language education that has been pursued by the Council of Europe since 1971 and which seeks to: ? promote and support the learning and teaching of modern languages; ? enhance intercultural dialogue, and thus mutual understanding, social cohesion and democracy; ? protect linguistic and cultural diversity in Europe; and ? promote the right to quality education for all.

The Garden District of New Orleans GATEWAY 2ND EDITION

The Garden District of New Orleans has enthralled residents and visitors alike since it arose in the 1830's with its stately white-columned Greek Revival mansions and double-galleried Italianate houses decorated with lacy cast iron. Photographer West Freeman evokes the romance of this elegant neighborhood with lovely images of private homes, dazzling gardens, and public structures. Author Jim Fraiser vividly details the historical significance and architectural styles of more than a hundred structures and chronicles both the political and cultural evolution of the neighborhood. The Garden District, unlike the French Quarter, evolved under the auspices of predominantly Anglo-American architects hired by newly arriving, and newly wealthy, Americans. Beyond these wealthy homeowners, the Garden District also offers a startlingly diverse and freewheeling history teeming with African American slaves, free men and women of color, French, Italians, Germans, Jews, and Irish, all of whom helped fashion it into one of America's first suburbs and most extraordinary neighborhoods. Fraiser animates the Garden District's story with such notables as Mark Twain; Jefferson Davis; occupying Union general Benjamin Butler; flamboyant steamboat captain Thomas Leathers; crusading Reverend Theodore Clapp; Confederate generals Jubal Early and Leonidas Polk; jazzmen Joe "King" Oliver and Nate "Kid" Ory; champion pugilist John L. Sullivan; local authors Grace King, George Washington Cable, and Anne Rice; Mayor Joseph Shakespeare; architects Henry Howard, Lewis Reynolds, and Thomas Sully; cotton magnate Henry S. Buckner; and Louisiana Lottery co-founder John A. Morris. In words and photographs, Fraiser and Freeman explore the unexpected evolution of this district and reveal how war, plagues, politics, religion, cultural conflict, and architectural innovation shaped the incomparable Garden District.
