I am also a victim of GE's poor products and non-existent customer service. In November 2006 we bought an GE Adora Front Load Washer and Dryer from Home Depot. We had problems with the tub not draining, clothes not spinning properly and the machine being so loud you could hear it outside the house with the doors closed.

## Troubleshooting the Front Load Washer - GE Appliances

An off balance load on a GE frontload washer can extend the wash cycle by as much as one hour. When the washer detects an off-balance load, it will stop and tumble in an attempt to balance the load itself. It will do so several times; however, if the load is too far out of balance it will be unsuccessful in balancing itself.

I have a GE Adora washer (four years old) and it won't spin; clothes are sopping wet. I've taken the front panel off and drained out the water, found a rubber band, a screw and a penny. Put everything back and I've got the same problem. Help! ... my ge adora front load washer want spin in hi cycle.
