ENERGY ...
Front load
washers are
energy
efficient,
offer powerful
wash cycles,
and they can
be stacked
with one of
the best
dryers, making
them ideal if
you're short
on space.
Admittedly,
you will
normally pay
more upfront
for a front
load washer
than you would
with one of

the best top
load washing
machines ,
however, front
load washers
are normally
cheaper to run
and use less
water too.

**SPIN – FIXED IN
8 MINUTES -

For top-load
washers, a
leak from the
top could be
due to
oversudsing or
overloading
(both of which
are easily
resolved),
whereas a leak
from the
bottom could
suggest an
issue with the
water pump.
For front-load
washing
machines, a
front leak
could be
caused by a
damaged or
dirty door
seal, but a
bottom leak is
more likely to
be caused by a
worn drum
seal.
