Billboard

"This book is a grammar of Pendau, an Austronesian language spoken by around four thousand people in north-central Sulawesi, Indonesia. Pendau belongs to the Tomini-Tolitoli subgroup, and this book is the first comprehensive decription of any of these languages. The Tomini-Tolitoli languages are of interest to typologists in general and more specifically to Austronesianists, since the languages appear to be transitional between better known Philippine style languages and Indonesian style languages. Intricate rules of vowel harmony in the prefixes used to form verb stems are of particular interest. The grammar is very richly exemplified and covers a wide range of linguistic phenomena from phonetics and phonology through to cohesion and prominence in discourse as well as an analysis of the discourse structure of a number of different genres."--Provided by publisher.

The Soda Fountain

This book is a general survey of Ethiopia as a country and its people. It focuses on many subjects about Ethiopia's history, geography, politics and the diverse cultures of its people who collectively constitute one of the most fascinating countries in the history of Africa and of the entire world. It starts from the beginning when foundations were laid for what was later to become the country of Ethiopia which is one of the oldest civilisations in the world. Ethiopia also has the distinction of being the oldest Christian nation in Africa and one of the three oldest Christian countries in the world after Georgia and Armenia. Ethiopia converted to Christianity centuries before Europe did. And it is mentioned in the Bible many times. The book also covers Eritrea - its people, history and culture - but not in as much detail as it does Ethiopia. Still, the information about Eritrea is

enough to serve as a simple and general introduction to the country. But the main focus of the book is on Ethiopia.

Ethiopia: the Land, Its People, History and Culture

Prior to 1862, when the Department of Agriculture was established, the report on agriculture was prepared and published by the Commissioner of Patents, and forms volume or part of volume, of his annual reports, the first being that of 1840.
