GED Study Guide 2020-2021 All Subjects
Accepted, Incorporated Forget the 10,000 hour rule— what if it ' s possible to learn the basics of any new skill in 20 hours or less? Take a moment to consider how many things you want to learn to do. What ' s on your list? What ' s holding you back from getting started? Are you worried about the time and effort it takes to acquire new skills—time you don ' t have and effort you

can't spare? Research suggests it takes 10,000 hours to develop a new skill. In this nonstop world when will you ever find that much time and energy? To make matters worse, the early hours of practicing something new are always the most frustrating. That's why it's difficult to learn how to speak a new language, play an instrument, hit a golf ball, or shoot great photos. It's so much easier to watch TV or surf the web . . . In *The First 20 Hours*, Josh Kaufman offers a systematic approach to rapid skill acquisition—how to learn any new skill as quickly as possible. His method shows you how to deconstruct complex skills, maximize productive practice, and remove common learning barriers. By completing just 20 hours of focused, deliberate practice you'll go from knowing absolutely nothing to performing noticeably well. Kaufman personally field-tested the methods in this

book. You'll have a front-row seat as he develops a personal yoga practice, writes his own web-based computer programs, teaches himself to touch type on a nonstandard keyboard, explores the oldest and most complex board game in history, picks up the ukulele, and learns how to windsurf. Here are a few of the simple techniques he teaches: Define your target performance level: Figure out what your desired level of skill looks like, what you're trying to achieve, and what you'll be able to do when you're done. The more specific, the better. Deconstruct the skill: Most of the things we think of as skills are actually bundles of smaller subskills. If you break down the subcomponents, it's easier to figure out which ones are most important and practice those first. Eliminate barriers to practice: Removing common distractions and unnecessary effort makes it much easier to sit down and focus on

deliberate practice. Create fast feedback loops: Getting accurate, real-time information about how well you're performing during practice makes it much easier to improve. Whether you want to paint a portrait, launch a start-up, fly an airplane, or juggle flaming chainsaws, *The First 20 Hours* will help you pick up the basics of any skill in record time . . . and have more fun along the way. GED Test Prep 2020 Accepted, Incorporated Score high on the GED Test In today's job environment, it's usually the better-educated person who gets the position, promotion, or raise. Scoring high on the GED Test can give you an edge over the competition—whether it's to get a brand-new job or advance in the one you already have. If you're preparing for the exam and want to increase your odds of scoring higher, *GED Test For Dummies* gets you up and running with everything you need to know for test day. Inside, you'll find valuable, easy-to-digest information for navigating your way through tests on Language Arts, Social Studies, Mathematical Reasoning, and Science.
