Extended Mathematics Fof Igcse General Mathematics

This Handbook reviews a wealth of research in cognitive and educational psychology that investigates how to enhance learning and instruction to aid students struggling to learn and to advise teachers on how best to support student learning. The Handbook includes features that inform readers about how to improve instruction and student achievement based on scientific evidence across different domains, including science, mathematics, reading and writing. Each chapter supplies a description of the learning goal, a balanced presentation of the current evidence about the efficacy of various approaches to obtaining that learning goal, and a discussion of important future directions for research in this area. It is the ideal resource for researchers continuing their study of this field or for those only now beginning to explore how to improve student achievement.

Arlo The Lion Who Couldn't Sleep is a beautifully illustrated story with a gentle mindfulness message from award-winning author-illustrator Catherine Rayner. Shortlisted for the Kate Greenaway Medal, it's an ideal bedtime book, and especially helpful for little ones who have trouble going to sleep. Arlo the lion is exhausted. He just can't drop off, no matter what he tries. It's either too hot, or too cold; too loud or too quiet. But then he meets Owl. She can sleep through the day, which isn't easy when most other animals are awake! Will Arlo ever get any rest? Perhaps his new friend has some special tricks she can teach him.
