### Gender Trouble Routledge

In *Bodies That Matter*, Judith Butler further develops her distinctive theory of gender by examining the workings of power at the most "material" dimensions of sex and sexuality. Deepening the inquiries she began in *Gender Trouble*, Butler offers an original reformulation of the materiality of bodies, examining how the power of heterosexual hegemony forms the "matter" of bodies, sex, and gender. Butler argues that power operates to constrain "sex" from the start, delimiting what counts as a viable sex. She offers a clarification of the notion of "performativity" introduced in *Gender Trouble* and explores the meaning of a citational politics. The text includes readings of Plato, Irigaray, Lacan, and Freud on the formation of materiality and bodily boundaries; "Paris is Burning," Nella Larsen's "Passing," and short stories by Willa Cather; along with a reconsideration of "performativity" and politics in feminist, queer, and radical democratic theory.

### Gender Trouble Psychology Press

2020 will mark thirty years since the first publication of Judith Butler's ground-breaking book, *Gender Trouble*. Here, and in subsequent work, Butler argues that gender and other forms of identity can best be understood as performative acts. These acts are

what bring our subjectivities into existence, enabling us to be recognized as viable employable social beings, worthy of rights, responsibilities and respect. The three decades since the publication of *Gender Trouble* have witnessed Butler become one of the most widely cited and controversial figures in contemporary feminist thinking. While it is only in her most recent work that Butler has engaged directly with themes such as work and organization, her writing has profound implications for thinking, and acting, on the relationship between power, recognition and organization. Whilst her ideas have made important in-roads into work, organization and gender studies that are discussed here, there is considerable scope to explore further avenues that her concepts and theories open up. These inroads and avenues are the focus of this book. *Judith Butler and Organization Theory* makes a substantial contribution to the analysis of gender, work and organization. It not only covers central issues in Butler's work, it also offers a close reading of the complexities and nuances in her thought. It does so by 'reading' Butler as a theorist of organization, whose work resonates with scholars, practitioners and activists concerned to understand and engage with organizational life, organization and organizing. Drawing from a range of illustrative examples, the book examines key texts or 'moments' in the development of Butler's writing to date, positing her as a thinker concerned to understand and address the ways in which our most basic desire for recognition comes to be organized within the context of contemporary labour markets and workplaces. It examines insights from Butler's work, and the philosophical ideas she draws on, considering the impact of these on work, organization and management studies thus far; it also explores some of the many ways in which her thinking might be mobilized in future, considering what scope there is for a non-violent ethics of organization, and for a (re)assembling of the relationship between vulnerability and resistance within and through organizational politics.

### Judith Butler and Political Theory Routledge

The celebrated author of *Gender Trouble* here redefines Antigone's legacy, recovering her revolutionary significance and liberating it for a progressive feminism and sexual politics. Butler's new interpretation does nothing less than

reconceptualize the incest taboo in relation to kinship—and open up the concept of kinship to cultural change. Antigone, the renowned insurgent from Sophocles's *Oedipus*, has long been a feminist icon of defiance. But what has remained unclear is whether she escapes from the forms of power that she opposes. Antigone proves to be a more ambivalent figure for feminism than has been acknowledged, since the form of defiance she exemplifies also leads to her death. Butler argues that Antigone represents a form of feminist and sexual agency that is fraught with risk. Moreover, Antigone shows how the constraints of normative kinship unfairly decide what will and will not be a livable life. Butler explores the meaning of Antigone, wondering what forms of kinship might have allowed her to live. Along the way, she considers the works of such philosophers as Hegel, Lacan, and Irigaray. How, she asks, would psychoanalysis have been different if it had taken Antigone—the "postoedipal" subject—rather than Oedipus as its point of departure? If the incest taboo is reconceived so that it does not mandate heterosexuality as its solution, what forms of sexual alliance and new kinship might be acknowledged as a result? The book relates the courageous deeds of Antigone to the claims made by those whose relations are still not honored as those of proper kinship, showing how a culture of normative heterosexuality obstructs our capacity to see what sexual freedom and political agency could be.

### Judith Butler's Precarious Politics Routledge

'Space Gender Knowledge' is an innovative and comprehensive introduction to the geographies of gender and the gendered nature of spatial relations. It examines the major issues raised by women's movements and academic feminism, and outlines the main shifts in feminist geographical work, from the

geography of women to the impact of post-structuralism. In making their selection, the editors have drawn on a wide range of interdisciplinary material, ranging across spatial scales from the body to the globe. The book presents influential arguments for the importance of the intersection between space and gender. Looking both at geography and beyond the discipline, it explores the gendered construction of space and the spatial construction of gender. Divided into a number of conceptual sections, each prefaced by an editorial introduction, this reader includes extracts from both landmark texts and less well-known works, making it an indispensable introduction to this dynamic field of study.

Giving an Account of Oneself Columbia University Press  
Over the past twenty-five years the work of Judith Butler has had an extraordinary impact on numerous disciplines and interdisciplinary projects across the humanities and social sciences. This original study is the first to take a thematic approach to Butler as a political thinker. Starting with an explanation of her terms of analysis, Judith Butler and Political Theory develops Butler's theory of the political through an exploration of her politics of troubling given categories and approaches. By developing concepts such as normative violence and subversion and by elaborating her critique of heteronormativity, this book moves deftly between Butler's earliest and most famous writings on gender and her more recent interventions in post-9/11 politics. This book, along with its companion volume, Judith Butler's Precarious Politics, marks an intellectual event for political theory, with major implications for feminism, women's studies, gender studies, cultural studies, lesbian and gay studies, queer theory and anyone with a critical interest in contemporary American 'great power' politics. Troubling Politics Vintage

"Judith Butler is the most creative and courageous social theorist writing today." – Cornel West  
"Judith Butler is quite simply one of the most probing, challenging, and influential thinkers of our time." – J. M. Bernstein  
Judith Butler's new book shows how an ethic of nonviolence must be connected to a broader political struggle for social equality. Further, it argues that nonviolence is often misunderstood as a passive practice that emanates from a calm region of the soul, or as an individualist ethical relation to existing forms of power. But, in fact, nonviolence is an ethical position found in the midst of the political field. An aggressive form of nonviolence

accepts that hostility is part of our psychic constitution, but values ambivalence as a way of checking the conversion of aggression into violence. One contemporary challenge to a politics of nonviolence points out that there is a difference of opinion on what counts as violence and nonviolence. The distinction between them can be mobilized in the service of ratifying the state's monopoly on violence. Considering nonviolence as an ethical problem within a political philosophy requires a critique of individualism as well as an understanding of the psychosocial dimensions of violence. Butler draws upon Foucault, Fanon, Freud, and Benjamin to consider how the interdiction against violence fails to include lives regarded as ungrievable. By considering how "racial phantasms" inform justifications of state and administrative violence, Butler tracks how violence is often attributed to those who are most severely exposed to its lethal effects. The struggle for nonviolence is found in movements for social transformation that reframe the grievability of lives in light of social equality and whose ethical claims follow from an insight into the interdependency of life as the basis of social and political equality.

Do They Hear You When You Cry Springer Nature  
SuperSummary, a modern alternative to SparkNotes and CliffsNotes, offers high-quality study guides for challenging works of literature. This 51-page guide for "Gender Trouble" by Judith Butler includes detailed chapter summaries and analysis covering 3 chapters, as well as several more in-depth sections of expert-written literary analysis. Featured content includes commentary on major characters, 25 important quotes, essay topics, and key themes like Gender As Performative and Feminism and Queer Theory.

Antigone's Claim Routledge  
This classic work by one of the most important philosophers and critics of our time charts the genesis and trajectory of the desiring subject from Hegel's formulation in Phenomenology of Spirit to its appropriation by Kojève, Hyppolite, Sartre, Lacan, Deleuze, and Foucault. Judith Butler plots the French reception of Hegel and the successive challenges waged against his metaphysics and view of the subject, all while revealing ambiguities within his position. The result is a sophisticated reconsideration of the post-Hegelian tradition that has predominated in modern French thought, and her study remains a provocative and timely intervention in contemporary debates over the unconscious, the powers of subjection, and the subject. Judith Butler Routledge

Gender Trouble Feminism and the Subversion of Identity Routledge

The Judith Butler Reader Edinburgh University Press

In such works as Gender Trouble and Bodies That Matter Judith Butler broke new ground in understanding the construction and performance of identities. While Butler's writings have been crucial and often controversial in the development of feminist and queer theory, Bodily Citations is the first anthology centered on applying her theories to religion. In this collection scholars in anthropology, biblical studies, theology, ethics, and ritual studies use Butler's work to investigate a variety of topics in biblical, Islamic, Buddhist, and Christian traditions. The authors shed new light on Butler's ideas and highlight their ethical and political import. They also broaden the scope of religious studies as they bring it into conversation with feminist and queer theory. Subjects discussed include the woman's mosque movement in Cairo, the ordination of women in the Catholic Church, the possibility of queer ethics, religious ritual, and biblical constructions of sexuality. Contributors include: Karen Trimble Alliaume, Lewis University; Teresa Hornsby, Drury University; Amy Hollywood, Harvard Divinity School; Christina Hutchins, Pacific School of Religion; Saba Mahmood, University of California, Berkeley; Susanne Mrozk, Mount Holyoke College; Claudia Schippert, University of Central Florida; Rebecca Schneider, Brown University; Ken Stone, Chicago Theological Seminary  
Oxford Handbook of Classics in Contemporary Political Theory Random House Digital, Inc.

The Judith Butler Reader is a collection of writings that span her impressive career and trace her intellectual history. Organized in active collaboration between Judith Butler and Sara Salih Collects together writings that span Butler's impressive career as a critical philosopher, including selections from both well-known and lesser-

known works Includes an introduction and editorial material to assist students in their readings of theories that stand at the forefront of contemporary theoretical and political debates

Judith Butler and Organization Theory Verso Books  
This handbook provides an original, comprehensive and unparalleled overview of feminist scholarship in sport, leisure and physical education. It captures the complexities of past, current and future developments in feminism while highlighting its theoretical, methodological and empirical applications. It also critically engages with policy and practice issues for women and girls taking part in sport and leisure pursuits and in physical education provision. The Palgrave Handbook of Feminism and Sport, Leisure and Physical Education is international in scope and includes the work of established and emerging feminist scholars. It will be of interest to students and scholars across a range of disciplines, including sociology, gender studies, sport sciences, and sports business and management.

Gender Trouble Routledge

Judith Butler has been arguably the most important gender theorist of the past twenty years. This edited volume draws leading international political theorists into dialogue with her political theory. Each chapter is written by an acclaimed political theorist and concentrates on a particular aspect of Butler's work. The book is divided into five sections which reflect the interdisciplinary nature of Butler's work and activism: Butler and Philosophy: explores Butler's unique relationship to the discipline of philosophy, considering her work in light of its philosophical contributions Butler and Subjectivity: covers the vexed question of subjectivity with which Butler has engaged throughout her published history Butler and Gender: considers the most problematic area, gender, taken by many to be primary to Butler's work Butler and Democracy: engages with Butler's significant contribution to the literature of radical democracy and to the central political issues faced by our post-cold war Butler and Action: focuses directly on the question of political agency and political action in Butler's work. Along with its companion volume, Judith Butler and Political Theory, it marks an intellectual event for political theory, with major implications for feminism, women's studies, gender studies, cultural studies, lesbian and gay studies, queer theory and

anyone with a critical interest in contemporary American 'great power' politics.

From Norms to Politics Columbia University Press  
The visionary author's masterpiece pulls us—along with her Black female hero—through time to face the horrors of slavery and explore the impacts of racism, sexism, and white supremacy then and now. Dana, a modern black woman, is celebrating her twenty-sixth birthday with her new husband when she is snatched abruptly from her home in California and transported to the antebellum South. Rufus, the white son of a plantation owner, is drowning, and Dana has been summoned to save him. Dana is drawn back repeatedly through time to the slave quarters, and each time the stay grows longer, more arduous, and more dangerous until it is uncertain whether or not Dana's life will end, long before it has a chance to begin.

An Ethico-Political Bind Routledge

Bringing together a group of internationally renowned theorists, these 9 essays asks whether there has been an 'ethical turn' in Butler's work, exploring how ethics relate to politics and how they connect to her increasing concern with violence, Psychology Press

First published in 1993. Routledge is an imprint of Taylor & Francis, an informa company.

Sexual Politics, Social Change and the Power of the Performative Routledge

One of the most talked-about scholarly works of the past fifty years, Judith Butler's Gender Trouble is as celebrated as it is controversial. Arguing that traditional feminism is wrong to look to a natural, 'essential' notion of the female, or indeed of sex or gender, Butler starts by questioning the category 'woman' and continues in this vein with examinations of 'the masculine' and 'the feminine'. Best known however, but also most often misinterpreted, is Butler's concept of gender as a reiterated social performance rather than the expression of a prior reality. Thrilling and provocative, few other academic works have roused passions to the same extent.

Kinship Between Life and Death Gender

TroubleFeminism and the Subversion of Identity

This book brings together a group of Judith Butler's philosophical essays written over two decades that elaborate her reflections on the roles of the passions in subject formation through an engagement with Hegel, Kierkegaard, Descartes, Spinoza, Malebranche, Merleau-Ponty, Freud, Irigaray, and Fanon. Drawing on her early work on Hegelian desire and her subsequent reflections on the psychic life of power and the possibility of self-narration, this book considers how passions such as desire, rage, love, and grief are bound up with becoming a subject within specific historical fields of power. Butler shows in different philosophical contexts how the self that seeks to make itself finds itself already affected and formed against its will by social and discursive powers. And yet, agency and action are not necessarily nullified by this primary impingement. Primary sense impressions register this dual situation of being acted on and acting, countering the idea that acting requires one to overcome the situation of being affected by others and the linguistic and social world. This dual structure of sense sheds light on the desire to live, the practice and peril of grieving, embodied resistance, love, and modes of enthrallment and dispossession. Working with theories of embodiment, desire, and relationality in conversation with philosophers as diverse as Hegel, Spinoza, Descartes, Merleau-Ponty, Freud, and Fanon, Butler reanimates and revises her basic propositions concerning the constitution and deconstitution of the subject within fields of power, taking up key issues of gender, sexuality, and race in several analyses. Taken together, these essays track the development of Butler's embodied account of ethical relations.

Space, Gender, Knowledge: Feminist Readings Wiley-Blackwell

Relates the story of a young African woman who fled to the United States to escape ritual genital mutilation and was imprisoned for sixteen months
