General Journal in Accounting - Definition, Examples, Format

*General Journal*

A general journal is where business transactions and events are first recorded and, for that reason, it is often called a "book of first entry".

Records are entered in the general journal in chronological order and are

available all in one place so that the management and accountants can easily analyze the data.

Go to the Company menu and select Make General Journal

Entries. Fill out the fields to create your journal entry.

Make sure your debits equal your credits when you're done. Select Save or Save & Close. Edit a journal entry.

If you need to edit a journal entry, here's what to do: Go to the Company menu and select Make

General Journal Entries.

What is a General Journal? - Definition |

---

Meaning |

Example

The general journal is the repository for transactions that are not recorded in a specialty journal. Thus, the general journal can be considered an intermediate repository of information for some types of information, on the way to its final recordation in the general ledger. the journal line by default. If you want to see additional fields, such as the Account Type field, choose the Show More Columns action. To hide the additional fields again, choose the Show Fewer Columns action. When you see fewer columns, then the same posting date is used

for all lines. **General journal: Definition, Example, Format and Explanation** General journal. A Journal entry is the first step of the accounting or book-keeping process. In this step, all the accounting transactions are recorded in general journal in a chronological order. The general journal is maintained essentially on the concept of double entry system of accounting,

where each transaction affects at least two accounts. Other names used for general journal are "journal book" and "book of original entry".
