If you are looking for a watered-down account about Dick Feynman's life as a "bongo player" and his excentricities, this is not the book for you. This book is about a scientific genius, and as such, it is heavy on physical and mathematical concepts. Great reading for any one interested in pursuing or already in a career in science and research.

Genius: The Life and Science of Richard Feynman by James ...

Richard Feynman's life encompassed the most important discoveries and changes in science in this century. As a boy he tinkered with radios and as a scientist he looked at all things from an unusual and unique perspective. Richard Feynman, winner of the Nobel Prize, was an eccentric and hard-driven perfectionist -- a genius indeed.

The Genius of Einstein: The Science, His Brain, the Man

Genius: The Life and Science of Richard Feynman - James ... New York Times Bestseller: This life story of the quirky physicist is \"a thorough and masterful portrait of one of the great minds of the century\" (The New York Review of Books). Raised in Depression-era Rockaway Beach, physicist Richard Feynman was irreverent, eccentric, and childishly enthusiastic—a new kind of scientist in a field that was in its infancy.

Genius: The Life and Science of Richard Feynman: Gleick ... Gleick's Genius is a masterpiece of scientific biography--and an inspiration to anyone in pursuit of their own fulfillment as a person of genius. Deservedly nominated for a National Book Award, underservedly passed over by the committee in the face of tough competition, and very deservedly a book that you must read. From the Inside Flap
