Students of Japanese are familiar with the term "particle," and realize that they, like English prepositions, require a special effort to master. This handbook provides all the information one would need on these tricky units of grammar. All About Particles covers more than 70 particles those that are used regularly as well as those used less frequently in more than 200 uses. The book can be approached as a guiding textbook and studied from beginning to end. It is as a reference

book, however, that All About Particles shines. It is light and easy to carry, slim enough to fit into the corner of a shoulder bag, and concise enough to quickly clarify particle-related questions. It is a priceless tool for any serious student of Japanese. In its previous incarnation as a part of the Power Japanese Series, ISBN 978-0-87011-954-5, and sold more than 40,000 copies worldwide.

My First Japanese Kanji Book is an inventive and unique introduction to kanji for children. Written by the mother-daughter team of Eriko and Anna Sato, this lovely book introduces 109 kanji characters to children with poems and illustrations. It includes all the Japanese Government-specified first grade level kanji characters and a sprinkling of simple second to sixth grade characters. The kanji are introduced in the context of 36 colorful paintings and

poems by 14-year-old Anna Sato, herself a kanji learner. Each of the poems is presented in both Japanese and English, and all kanji are accompanied by furigana (small hiragana letters), stroke-order diagrams, sample vocabulary and boxes for writing practice. A charming and educational volume, My First Japanese Kanji Book can be used as a self-study text, a supplementary material in Japanese language schools or a gift book for family or friends. An MP3 audio CD reinforces learning and ensures correct pronunciation.

If you have no time to follow the market closely, then Trend Trading is the book for you. Trend trading is one of the most effective and easy-to-use methods for making money in the market. Success depends on identifying the

trend with confidence and catching the trend after it has started, and on getting out as soon as possible after the uptrend turns into a downtrend. The book examines in detail the steps in finding, assessing, selecting, managing and monitoring a long-term trend trade. These are proven, successful methods which are easy to understand and apply. Included are the most recent updates and developments in using the count back line and the Guppy Multiple Moving Average. Daryl Guppy also includes a practical look at setting stop loss conditions to protect capital and profits, and a bonus section on Darvas-style trend trading which is the first significant update of this technique in forty years. Trend Trading shows readers how to use and apply the analysis tools to find effective long-term trades. These can be applied to any group of selected stocks, whether chosen on

fundamental criteria, from stock tip newsletters, or found using database technical scans. From this starting point, Guppy shows how the better trades are identified, how risk is managed, and how the trades are closed successfully. The book includes examples of Daryl's personal trades.

This book challenges the orthodox approach to the teaching of second language listening, which is based upon the asking and answering of comprehension questions. The book's central argument is that a preoccupation with the notion of 'comprehension' has led teachers to focus upon the product of listening, in the form of answers to questions, ignoring the listening process itself. The author provides an

informed account of the psychological processes which make up the skill of listening, and analyses the characteristics of the speech signal from which listeners have to construct a message. Drawing upon this information, the book proposes a radical alternative to the comprehension approach and provides for intensive small-scale practice in aspects of listening that are perceptually or cognitively demanding for the learner. *Listening in the Language Classroom* was winner of the Ben Warren International Trust House Prize in 2008.
