Teachers have found *The Call of the Wild*--from the very earliest days of its publication in 1903--to be a novella rich in instructional possibilities in history, geography, and ethics as well as literature. In this resource book for teachers, Daniel Dyer provides an array of activities--traditional and nontraditional--to accommodate a wide range of students, teachers, schools and communities. Dyer's instructional ideas will stimulate exploration of such subjects as California and Klondike history and geography; transportation by rail, ferry, steamship, and dog teams; techniques of gold mining; breeds of dogs; and subarctic flora and fauna--as well as the novel's great literary themes.

It is the first major study to examine what events is as a discipline in the twenty-first century, its significance in contemporary society and growth as a mainstream subject area. The book is divided in to five inter-related sections. Section one evaluates the evolution of events as a discipline and defines what Events Studies is. Section two critically reviews the relationship between events and other disciplines such as tourism and sport. Section three focuses on the management of events, section four evaluates the impacts of events from varying political, social and environmental perspectives and section five examines the future direction of growth in event-related education and research.
