An investigative approach to Cambridge

IGCSE Geography, written in partnership
with the Geographical Association.
Encourage students to make links between
case studies and their own local contexts
as well as exploring the core themes and
skills of the 0460 syllabus in the context of
global case studies and processes. Prepare
for exam success with full coverage of the
core themes of Paper 1 (Population and
Settlement, The Natural Environment,
Economic Development and the Use of
Resources) as well as the geographical and
fieldwork skills elements of Papers 2, 3 and
4. Help students focus on achieving the
best grades with excellent exam support for
each Paper, with exam-style questions,
answers at different levels and
accompanying comments. Be confident in
the content and approach - this resource is

written by highly experienced Geography teachers, consulted edited by a CIE Principal Examiner, and produced in partnership with the UK Geographical Association - the home of best practice in Geography teaching.

This is the latest updated edition of the University of Cambridge's official statutes and Ordinances.

M.C.E. & G.C.E. Objective Geography Paper 1 Collins Educational

Provides a unique review of the major spatial aspects of transport systems, a detailed analysis of transport problems in urban and rural areas, an evaluation of social and environmental impacts, and a planning and policy overview.

Divided into four parts, each considering a different aspect of transport geography. The first part outlines the basic geography of transport and examines transport and spatial structures, focusing upon the varying contributions made by transport to industrial, agricultural and urban development. Part two moves to consider specific transport systems at both national and international scales, drawing on studies from industrialised and developing nations and discussing the effects upon transport of the political changes in the former USSR and Eastern Europe. The third part examines some of the many problems of transport and urban and rural areas using specific examples to illustrate the contrasting difficulties and evaluate current urban transportation planning methods.

Key Maths GCSE Educart

This resource has been developed to

provide additional support for delivering and supporting ICT at GCSE. Linked to Key Maths, it can be also be used together with other resources. Each program contains a range of self-contained activities that do not require a detailed understanding of the software.

This book is an outcome of sheer hard work of successful candidates. Previously; I had given thought to publish the success stories last year too but it could not materialize. Subsequently; when I came in contact with successful candidates; I realized that some had so unique journeys that I could not resist myself to give

shape to the idea which was in mind since long. Again; the question arose to whom should I approach since I had known only limited number of successful candidates. In this book you will find a unique success pattern of each successful officer. Some of them come from backward areas; some have average educational qualification; so that you may realize that successful candidates not born with a silver spoon. Some of them were already in job; it is interesting to see how they could sale through their arduous journey and made it to the destination.
