Focus on math geometry workbook gives students practice in recognizing and naming space figures, plane figures, lines, line segments, rays; recognizing and drawing angles, finding congruent figures; defining and drawing lines of symmetry; finding perimeters, areas, and volumes of figures; and finding points on a grid using ordered pairs. Students who master the worksheets in this set will better analyze characteristics and properties of two- and three-dimensional geometric shapes, develop mathematical arguments about geometric relationships, and specify locations and describe spatial relationships using coordinate geometry. Achievement Zone provides extra practice worksheets for every workbook in the Focus on math series.
