What test should you take? The SAT Math one test is one of the most popular tests because it appeals to students who do want to waive an entry level course at the college level and save time. If you did take AP Calculus we would recommend you take the SAT Math 2 test. Another option for you is to sit for the CLEP College Math test which offers three college credits and you only need to get 50% right on the exam. This saves you time and money on tuition. What's inside? XAMonline true to format study guide prep material reviews all essential content chapters including: Number and operations which is 14% of the test, algebra and functions which is 40% of the test, Geometry is a similar percentage, and data analysis, statistics and probability which can be up to 12% of the test. Two full length sample tests will prepare you with the look and feel of the real test. Sample test experience Time management is one goal of test prep. Become acquainted with directions and the format. The XAMonline sample test experience will expose you to each question type, and cover the range of topics which are distributed and weighted just like the test. XAMonline sample tests are simple to use and understand so that you just don't test yourself, you have a place to find the answers back inside the content.

Wordless Geometry aims to use fewer words in questions. If the title of the chapter is "Rectangles", all questions in that chapter are rectangles, we didn't want to mention in each question that figure is a rectangle. In the same way all figures in " Square "part are squares, all polygons in " Polygons" part are the regular polygons etc. The flows of questions are from easier to more difficult ones. Mostly you can get a hint from previous questions. We believe that this book will help students to boost their self-confidence and motivation to succeed in Geometry and support to improve their Sat/Act test scores. This book might be considered as a supplemental resource to anyone who seeks success in Geometry. This book will be a good practice book for any self-disciplined students like homeschoolers and GT students to improve and master their skills.
