Standards Driven MathT addresses the California Content Standards individually through this Student Standards HandbookT. Students can focus more directly on content standards for improved math success. In addition to standards being covered one-at-a-time, explanations of the meaning of each content standard are provided and appropriate problem sets are included. There is also a subject index by standard. Standards driven means that the standard is the driving force behind the content. No matter what textbook students are using, all will benefit from the direct standards approach of Standards Driven MathT. Every student should practice directly from a Student Standards HandbookT. Developed directly from one of the nation's most rigorous sets of state standards-California, this book is useful for spring standards test prep. No classroom should be without one for every student. Nathaniel Max Rock, an engineer by training, has taught math in middle school and high school including math classes: 7th Grade Math, Algebra I, Geometry I, Algebra II, Math Analysis and Calculus. Max has been documenting his math curricula since 2002 in various forms, some of which can be found on MathForEveryone.com, StandardsDrivenMath.com and MathIsEasySoEasy.com. Max is also an AVID elective teacher and the lead teacher for the Academy of Engineering at his high school.
