*Gerontological Nurse Practitioner  
Certification Review* Elsevier

This book is the second examining the adult and elderly population and addresses the needs of the undergraduate nurse by presenting a series of classic case studies. It builds on the success of *Client Profiles in Nursing - Adult and the Elderly*, by the same editors. As before, each case follows a standardised layout for ease of reference and includes photographs or clear line diagrams where appropriate, to illustrate key points and structured, timed questions with detailed model answers to aid self-assessment.

Adult-Gerontology Acute Care Nurse  
Practitioner Q&A Review Jones & Bartlett  
Learning

One of the indispensable member of the healthcare team is the nurse. Compassion and

caring attitude are some of the good qualities of the nurse as well as the other members of the healthcare team. The nurse who specializes in geriatric care and management is called a Gerontological Nurse (GN). Such a nurse have undergone specialized training in the field of geriatric care and management as a nurse practitioner, a specialist or a generalist. A certification examination is then required for the nurse to practice and earn the title of Gerontological Nurse. The Gerontological Nurse certification requires passing a test administered by the American Nurses Credentialing Center (ANCC). Depending on the type of examination, there is a prerequisite, otherwise known as eligibility criteria. For a GN nurse practitioner and CNS (Clinical Nurse Specialist), an active RN license; postgraduate, masters or doctoral degree with advance courses

---

in pathophysiology, health assessment, differential diagnosis, disease management, health promotion, and pharmacology is required. A GN generalist is required to have 2,000 practice hours in geriatric care and an active RN license. The examination contains 175 questions, of which 150 are scored and 25 are considered pre test. The policies and rules may change from time to time. The requirement stated in this book are true at the time of the author's research. This book contains practice questions with rationale covering the different components of Gerontological Nursing. It is not intended to reflect the exact questions of the board exam. The author's intention is to provide effective review material for the reader. Various levels of difficulty are reflected in this book. There are easy and difficult questions. Best of luck to the reader and have a pleasant review.

May you have equanimity and become a Gerontological Nurse (Board Certified). Ebersole & Hess' Toward Healthy Aging - E-Book Mosby Incorporated  
Grounded in the core competencies recommended by the AACN in collaboration with the Hartford Institute for Geriatric Nursing, Ebersole & Hess' Toward Healthy Aging, 8th Edition is the most comprehensive resource on health promotion and maintenance for older adults and their caregivers. With coverage of communication, safety and ethical considerations, new genetic research, key aging issues, and common and uncommon conditions, you will have the knowledge you need to promote healthy lifestyle choices, properly address end-of-life issues, and provide effective, holistic care for older adults. Consistent chapter organization with objectives, case studies with critical thinking questions, and research questions make information easy to access and use. A strong focus on health and wellness emphasizes a positive

---

approach to aging. Disease processes are discussed in the context of healthy adaptation, nursing support, and responsibilities. Research highlights help incorporate the latest research findings into practice. Nutrition chapter includes the most current guidelines for older adults and addresses patients' dietary needs. Scales and guidelines for proper health assessment provide the essential information for assessing the older adult patient. Case studies with critical thinking questions offer realistic situations to expand your knowledge and understanding. Careful attention to age, cultural, and gender differences are integrated throughout and highlight important considerations when caring for older adults. Content grounded in the core competencies offers the knowledge needed to achieve the National League for Nursing ACES program's Essential Nursing Actions and meets the Recommended Baccalaureate Competencies and Curricular Guidelines for the Nursing Care of Older Adults, the Geriatric Nursing Education State of the Science Papers, and the Hartford Institute for Geriatric Nursing Best Practices in Nursing Care to Older Adults. NEW! QSEN content highlights quality and safety issues students need to know when treating older patients. NEW! Chapter covering the role of communication emphasizes the importance of communication in improving care. NEW! Focus on genetics highlights the vast amount of new genetic research and its effects on all aspects of health and aging. NEW! Information on ethical considerations explores and illustrates potential issues when dealing with older adults. NEW! Healthy People 2020 information assists your students in integrating their knowledge about healthy aging considerations into care.

**Adult-Gerontology Primary Care Nurse Practitioner Certification Review** Cambridge University Press

Part of the popular LPN Threads series, this concise text presents the theories and concepts of aging, the physiologic and psychosocial changes

---

and problems associated with the process, and appropriate nursing interventions. With its easy-to-read, clear writing style, this text provides exactly the right depth and breadth of geriatrics content for LPN/LVNs. Clear, concise, consistent writing throughout. Nursing Process section (in appropriate chapters) provides a strong framework for the discussion of the nursing care of the elderly patient as related to specific disorders. Essential ethical and legal issues are presented as they relate to end-of-life care, restraints, and elder abuse. Clinical Situations provide individualized cases for students to study and learn from. Nursing Interventions are grouped according to health care setting to make it easier to determine the appropriateness of individual interventions for different patient populations. All-in-one Student Activities workbook is included in a perforated section at the back of the book and includes NCLEX-style multiple-choice questions as well as the new NCLEX-style questions (short-answer and fill-in-the-blank) to help students review

chapter content and prepare for the NCLEX exam(answers are found in the Instructor's Resource Manual). New chapter on end-of-life care addresses essential content for both institutional and the home setting, including information on palliative and hospice care, pain management, and how belief systems affect the dying person and caregivers. Delegation, leadership, and management content is integrated throughout to address the changing role of LPN/LVNs. Delegation Considerations boxes address such topics as restraints, elder abuse, and end-of-life care as related to responsibilities of nursing assistants and other health care workers who are supervised by LPN/LVNs. Second color added to the design adds visual appeal and helps to emphasize key content. Cultural Considerations boxes help students understand how to provide culturally sensitive patient care. Complementary and Alternative Therapy boxes address popular therapies that are used in pain relief and other treatments. Patient Teaching boxes instruct and

---

inform both elderly patients and their caregivers about health promotion, prevention, and age-specific interventions. Critical Thinking boxes pose questions designed to stimulate thought and help students develop and improve their ability to think critically.

### Gerontological Nurse Exam Secrets Study Guide Newstone Test Prep

Imagine if you could get all of the practice you need from one study guide and score very high on the Adult-Gerontology Exam. This Adult-Gerontology study guide combines theory and practice questions so that students are fully prepared before writing the exam. While other guides only provide around 100 questions, this guide has 450 questions along with answer explanations. There are 3 full-length tests included so that test takers will have enough

practice before attempting the real exam. About Newstone Test Prep Newstone Test Prep provides test-takers with up-to-date test questions so that they are well prepared before taking the exam. We take pride in our guides because they combine both theory and test questions. At Newstone Test Prep, we do not just compile test questions; we compile the same number of questions as the real exams, in the same format. This has been a great help for past students because they were able to simulate the real exam while studying. Thousands of students have scored higher on their exams after using our study guides.

quality or access to any included digital components if book is purchased through a third-party seller. Praise for the second edition: “In this book, the tools and clear presentation of information related to the actual testing process provide the learner with a framework for confidence as he or she prepares for the exam. More important, however, is the elaborate presentation of the certification content and the attention to the important physical and psychosocial elements of the human aging process.” -Geraldine Bednash, PhD, RN, FAAN Executive Director American Association of Colleges of Nursing This unrivalled resource contains all of the information every RN needs to successfully prepare for the Gerontological Nurse Certification Exam (GNCE). It provides a thorough review of key content that reflects the exam blueprint, proven test-taking

strategies, and over 500 examination-style Q&As with in-depth rationales. The third edition is completely updated to reflect the most current clinical information. It includes new and expanded information on standardized patients and assessments, safety and security issues, hospice and palliative care, updated drug data, and test-taking and exam preparation tips. With everything you need to pass the GNCE in one place, this resource promotes success through clear and concise content summaries and bulleted information, abundant tables and charts that reinforce knowledge, and more Q&As than any other GNCE resource. With the increasing elder population, the GNCE certification is essential to the availability of a nursing workforce educated in assessing and meeting the needs of older adults. Self-assessment of Current Knowledge in Geriatric Nursing Springer Nature

One of the indispensable member of the healthcare team is the nurse. Compassion and caring attitude are some of the good qualities of the nurse as well as the other

members of the healthcare team. The nurse who specializes in geriatric care and management is called a Gerontological Nurse (GN). Such a nurse have undergone specialized training in the field of geriatric care and management as a nurse practitioner, a specialist or a generalist. A certification examination is then required for the nurse to practice and earn the title of Gerontological Nurse. The Gerontological Nurse certification requires passing a test administered by the American Nurses Credentialing Center (ANCC). Depending on the type of examination, there is a prerequisite, otherwise known as eligibility criteria. For a GN nurse practitioner and CNS (Clinical Nurse Specialist), an active RN license; postgraduate, masters or

---

doctoral degree with advance courses in pathophysiology, health assessment, differential diagnosis, disease management, health promotion, and pharmacology is required. A GN generalist is required to have 2,000 practice hours in geriatric care and an active RN license. The examination contains 175 questions, of which 150 are scored and 25 are considered pre test. The policies and rules may change from time to time. The requirement stated in this book are true at the time of the author's research. This 2nd edition contains revised practice questions with rationale covering the different components of Gerontological Nursing. It is not intended to reflect the exact questions of the board examination. The author's intention is to provide effective

review material for the reader. Various levels of difficulty are reflected in this book. There are easy and difficult questions. Sample Questions: \*The nurse is explaining the coverage of Medicare part A to a 72 year old client with amyotrophic lateral sclerosis. Which of the following is included in the Medicare program? (a. medications b. inpatient psychiatric services c. speech therapy d. none of the above) \*During an assessment, the nurse found raised skin tags for an 85 year old man. Which of the following identifies this finding? (a. acrochordon b. actinic keratosis c. cutaneous horn d. senile lentigine) \*A 78 year old client with Alzheimer's disease demonstrated spatial disorientation. Irritability and agitation were also observed.

---

What will be the best intervention for this type of client? (a. show family pictures b. administer Aricept c. provide a safe place to wander d. none of the above) \*The nurse is assigned to a 90 year female old client with acute renal failure. Her serum creatinine is 0.9 mg/dl and weighs 40 kilograms. What would be the client's creatinine clearance? (a. 28 ml/minute b. 26 ml/minute c. 24 ml/minute d. 22 ml/minute)

\*A female client with substance abuse disorder is undergoing assessment. She told the nurse "I got some reefer inside my bra." Which of the following is being implied by the client? (a. marijuana b. cocaine c. heroin d. none of the above) \*A 75 year old client with delirium is undergoing assessment. The other clients feel threatened by the client's

behavior. Which of the following caused the client's condition? (a. dehydration b. psychiatric comorbidity c. functional dependence d. all of the above)

Publisher's Note: Products purchased from 3rd Party sellers are not guaranteed by the Publisher for quality, authenticity, or access to any online entitlements included with the product. This text covers the theory and practice of wellness-oriented gerontological nursing, addressing both physiologic and psychosocial aspects of aging. Organized around the author's unique Functional Consequences Theory, the book explores age-related changes as well as the risk factors that often interfere with optimal

health and functioning. Key features include: NEW! Technology to Promote Wellness in Older Adults boxes describe examples of technology-based interventions that can be effective for promoting wellness for older adults. NEW! Interprofessional Collaboration (IPC) material, which is found in boxes or is highlighted with orange bars in the margins, indicates the responsibilities of nurses to collaborate with other professionals and paraprofessionals in health care and community-based settings when caring for older adults. NEW! Global Perspective boxes provide examples of the various ways in which health care professionals in other countries provide care for older adults. NEW! Unfolding Patient Stories, written by the National League for

---

Nursing, are an engaging way to begin meaningful conversations in the classroom. These vignettes, which open each unit, feature patients from Wolters Kluwer’s vSim for Nursing | Gerontology (co-developed with Laerdal Medical) and DocuCare products; however, each Unfolding Patient Story in the book stands alone, not requiring purchase of these products. For your convenience, a list of these case studies, along with their location in the book, appears in the “Case Studies in This Book” section later in this frontmatter. NEW! Transitional Care Unfolding Case Studies, which unfold across Chapters 27 through 29, to illustrate ways in which nurses can provide effective transitional care to an older adult whose progressively

worsening condition requires that her needs be met in several settings. For your convenience, a list of these case studies, along with their location in the book, appears in the “Case Studies in This Book” section later in this frontmatter. Updated unfolding case studies illustrate common experiences of older adults as they progress from young-old to old-old and are affected by combinations of age-related changes and risk factors. Evidence-based information is threaded through the content and summarized in boxes in clinically oriented chapters. Assessment and intervention guidelines help nurses identify and address factors that affect the functioning and quality of life of older adults. Nursing interventions focus on teaching older adults

---

and their caregivers about actions they can take to promote wellness. Case studies include content on transitional care, interprofessional collaboration, and QSEN! **Ebersole and Hess' Gerontological Nursing & Healthy Aging - E-Book** Jones & Bartlett Publishers

"[This book] is an important reference for nurses seeking to take the certification exam to validate their own practice. The practice of nursing over the next decades will demand age-specific knowledge for people across the life span. Nurses need to develop expertise in the area of geriatrics and have that expertise validated through certification." Tara A. Cortes, PhD, RN, FAAN The Hartford Institute for Geriatric Nursing (From the Foreword) Nurse practitioners have long required a comprehensive certification review book for

the American Nurses Credentialing Center (ANCC) and the American Academy of Nurse Practitioners Gerontological Nurse Practitioner (GNP) certification examinations. Gerontological Nurse Practitioner Certification Review is the first book to provide a thorough review of test content to effectively prepare nurses to successfully pass the GNP certification exam. With over 200 practice questions culled from the real ANCC test outline, this is the only book nurse practitioners need to pass the ANCC exam. Challenging and reflective questions and answers are provided at the end of each chapter for topic review, with a final test offered at the end of the book. By providing students the ability to take the "mock test," this book instills confidence, preparing students for the actual certification exam. Gerontological Nurse Practitioner Certification

---

Review contains: Guidelines on question dissection and analysis, as well as over 200 questions culled from the real ANCC test outline A comprehensive review of health promotion and disease prevention, assessment of acute and chronic illness, clinical management and pharmacological/nonpharmacological interventions, professional role and policy issues, and more An examination of the nurse practitioner and patient relationship Additionally, this book helps students in gerontological nurse practitioner, family nurse practitioner, and adult nurse practitioner programs with course program examinations that refer to older adults.
