[Integrating Gerontological Content Into Advanced Practice Nursing Education](#) Jones & Bartlett Learning

The bestselling LPN/LVN geriatric nursing textbook, Basic Geriatric Nursing, 5th Edition covers age-appropriate nursing interventions in a variety of health care settings. It includes the theories and concepts of aging, covers expected physiologic and psychosocial changes, and highlights delegation, coordinated care, end-of-life care, patient teaching, quality of life, safety, and home care. This edition is updated with the latest issues and trends in geriatric nursing, including changes to the health care system and demographics. Part of the popular LPN Threads

series, Gloria Hoffman Wold's text provides a clear and compassionate introduction to geriatric care. Complete coverage of key topics includes baby boomers and the impact of their aging on the health care system, therapeutic communication, cultural considerations, spiritual influences, evidence-based practice in geriatric nursing, and elder abuse, restraints, and ethical and legal issues in end-of-life care. UNIQUE! Delegation, leadership, and management content is integrated throughout. Nursing Process sections provide a framework for the discussion of the nursing care of the elderly patient as related to specific disorders. UNIQUE! A FREE Study Guide in the back of the book reinforces understanding with scenario-based clinical activities and practice questions. UNIQUE! Nursing interventions are numbered and grouped according to health care setting (e.g., acute care, extended care, home care), in a patient-centered approach emphasizing the unique needs of the older adult. UNIQUE! Nursing Care Plans with critical thinking questions help in understanding how a care plan is developed, how to evaluate care of a patient, and how to apply your knowledge to clinical scenarios. UNIQUE! Critical Thinking boxes help you to assimilate and synthesize information. Clinical Situation boxes present patient scenarios with lessons for appropriate nursing care and patient sensitivity. Coordinated Care boxes address such topics as restraints, elder abuse, and end-of-life care as related to responsibilities of nursing assistants and other health care workers who are supervised by LPN/LVNs.

UNIQUE! Complementary and Alternative Therapies boxes address specific therapies commonly used by the geriatric population for health promotion and pain relief. Cultural Considerations boxes encourage culturally sensitive care of older adults. UNIQUE! Patient Teaching boxes highlight health promotion, disease prevention, and age-specific interventions. UNIQUE! LPN Threads make learning easier, featuring an appropriate reading level, key terms with phonetic pronunciations and text page references, chapter objectives, special features boxes, and full-color art, photographs, and design.

Gerontological Nursing Competencies for Care Elsevier Health Sciences
The protocols in this thoroughly updated edition address key clinical conditions and circumstances likely to be encountered by a hospital nurse caring for older adults. They represent "best practices" for acute care of the elderly as developed by nursing experts around the country as part of the Hartford Foundation's Nurses Improving Care to the Hospitalized Elderly project (NICHE). New to this edition are chapters on evaluating practice guidelines and measuring quality and outcome of care. Although the protocols were developed for acute care, they can be easily modified to work in other practice settings, such as the nursing home or home care.
Gerontological Nursing Springer Publishing Company
Gain the nursing skills you need to provide wellness-based care for older adults! Ebersole and Hess' Gerontological Nursing & Healthy Aging, 6th Edition uses a holistic approach to describe compassionate care along a continuum of wellness. Designed to promote healthy aging regardless of the patient's situation or disorder, this text provides best-practice guidelines in covering physical, psychosocial, spiritual, and cognitive health. New to this edition are Next Generation NCLEX®-style case studies, updates on measuring clinical

judgment, expanded coverage of core competencies, and more. Written by gerontological nursing experts Theris Touhy and Kathleen Jett, this concise text provides a solid foundation in every aspect of healthy aging. Focus on health and wellness provides the evidence-based information and strategies needed to promote healthy aging. Key concepts, learning activities, and discussion questions in every chapter emphasize the information needed to enhance care. Recommended competencies from the AACN and the Hartford Institute for Geriatric Nursing are integrated throughout. Discussion of disease processes is placed in the context of healthy adaptation, nursing support, and responsibilities. Easy-to-use information on nursing techniques and communication appears with the associated disorders, symptoms, and situations. Tips for Best Practice and Resources for Best Practice boxes provide insight into proven methods of nursing care. Discussions of nursing and interprofessional actions help students learn to enhance wellness, maintain optimal function, and prevent unnecessary disability. Coverage of age, cultural, racial, and gender differences highlights these important considerations in caring for older adults. NEW! Updates reflect the NCSBN Clinical Judgment Model. NEW! Next Generation NCLEX® (NGN)-style case studies provide optimal preparation for the Next Generation NCLEX Examination. NEW! Specialized information addresses the unique needs of older adults such as atypical disease presentation, geriatric syndromes, neurocognitive disorders, quality of life with chronic illness, legal and ethical issues, and mental health challenges such as depression and substance abuse. NEW! Coverage of competencies of expanding nursing roles in the care of older adults addresses the continuum of care. NEW! Gerontological expertise is incorporated into nursing actions and complements other nursing texts (including med-surg, community health,

mental health, and assessment books) used in programs without a freestanding gerontological nursing course. NEW! Expanded content includes information on COPD guidelines, medication use and misuse, Alzheimer ' s Disease, wound care guidelines, diagnosis and treatment of sleep-disordered breathing, joint replacement, caregiver strain, hospice and transitional care, and more.

Evidence-Based Geriatric Nursing Protocols for Best Practice
Springer Publishing Company

Note to Readers: Publisher does not guarantee quality or access to any included digital components if book is purchased through a third-party seller. AJN Book of the Year 2016 First-Place Winner in Gerontological Nursing!
“ The evidence-based protocols are designed as a primary reference and are useful, substantive, and timely....The broader contributions of useful format and succinct review of the evidence make it likely that this text will continue to be the leading resource in nursing education and practice. ” —The Gerontologist “ As a gerontological clinical educator/research nurse, I will often use this as a reference. The format and the content are good, and the explanations of how to best use the evidence simplify the process of sifting through mountains of information to figure the best practice. ” Score: 97,**** —Doody ' s The newest edition of this distinguished reference in geriatric nursing delivers updated guidelines, new illustrative case studies, and the latest evidence-based protocols developed by leading researchers, educators, and

practitioners in each topic area. The sixth edition includes new approaches devoted to supporting LGBTQ+ elders, persons living with dementia and their families, and older adults living with HIV. New operational strategies provide guidance in using the electronic health record, implementing improved person-centered care approaches, and maintaining age-friendly atmospheres. Using evidence derived from all levels of care, this text offers developed guidelines for improving both quality and outcomes when caring for older adults in multiple disciplines, including interprofessional team members, long-term care and other staff educators, social workers, dietitians, and physicians. Chapters provide assessment and management principles, clinical interventions, specialty practice, and models of care. They consistently feature chapter objectives, annotated references, evidence ratings for each protocol, and resources for further investigation. Each protocol is embedded within the chapter content to provide context and detailed evidence. The protocols consistently include an overview, evidence-based assessment, intervention strategies, and a supporting case study with discussion. PowerPoint presentations and a test bank are available as instructor ' s resources. New Chapters: Informational Technology: Embedding CPGs Organizational Approaches to Promote Person-Centered Care Environmental Approaches to Support Aging-Friendly Care HIV Prevention and Care for the Older Adult LGBTQ+ Perspectives Key Features: Best practices for in-patient, in-home, and long-term care settings Case studies with discussions in each chapter to illustrate application of

clinical practice and related Nursing Standard of Practice Protocol The AGREE systematic method was used to evaluate each protocol and validate this book ' s content Instructor ' s resources including PowerPoints and a Test Bank Purchase includes digital access for use on most mobile devices and computers

Conceptual Nursing in Practice Mosby
Geriatric Nursing Review Syllabus: A Core Curriculum in Advanced Practice Geriatric Nursing (GNRS3), is a concise, up-to-date, and comprehensive text for advanced practice geriatric nurses. based on the Geriatrics Review Syllabus: A Core Curriculum in Geriatric Medicine, 7th Edition.
GNRS Lippincott Williams & Wilkins
Designated a Doody's Core Title! "This is an excellent teaching guide and resource manual for instructors, gerontological nursing students, and practicing nurses and social workers who wish to learn more about geriatric concerns and care. It will be kept by nursing students long after they graduate as a guide to resources that will be valuable throughout their nursing careers. As a home care nurse working mainly with the geriatric community, I found the resources helpful in my practice. As an instructor, I found the book to be a very useful guide for teaching geriatrics." Score: 90, 4 Stars. -Doody's Medical Reviews "Donna Bowles's Gerontology Nursing Case Studies is a unique volume that effectively addresses the lack of gerontology case studies for use with undergraduate nursing students.

Case studies are a pedagogically powerful approach to active learning that offer opportunities to apply content to clinical practice." --The Gerontologist "The case narrative approach of this book promotes active learning that is more meaningful to students (and practicing nurses) and more likely to increase the transfer of evidence into practice. An excellent resource for faculty (staff educators) to facilitate critical learning skills." Liz Capezuti, PhD, RN, FAAN Dr. John W. Rowe Professor in Successful Aging Co-Director, Hartford Institute for Geriatric Nursing New York University College of Nursing "This is a terrific text that provides nurses and other health care providers [with] good basic information about clinical problems and challenges we face in providing care to older adults. It should be considered required reading in all undergraduate programs." --From the foreword by Barbara Resnick, PhD, CRNP, FAAN, FAANP Professor, University of Maryland School of Nursing Sonya Ziporkin Gershowitz Chair in Gerontology At the heart of this unique volume are 100 case studies of older adults that address nearly every issue-physical, mental, and psychosocial-that may confront health care providers who work with the aging population. These case studies, culled from contributors with several centuries' worth of combined nursing expertise, are designed to guide nursing students in the development of interventions that

encompass both complementary and alternative health strategies. Exercises interspersed throughout each case study are designed to foster critical thinking and decision-making skills. These case narratives provide a holistic approach to problem solving in regard to political, ethical, and legal issues; loss and end-of-life issues; elder abuse; depression, addiction and suicide; self-esteem and family relationships; sexuality; age-related health issues; cognitive impairment; cultural diversity as it relates to aging; pain management; and sleep disturbances. The volume also addresses such contemporary psychosocial issues as gambling addiction, hoarding behavior, emergency preparedness, the aging driver, and long-distance caregiving. Key Features: Provides 100 evidence-based case studies Cultivates development of critical thinking and decision-making skills Features realistic, contemporary scenarios Designed for use across the gerontology nursing curriculum Geared for AACN and NLN Accreditation Organized according to the needs of actual clinical settings
Client Management & Leadership Success Springer Publishing Company
Designated a Doody's Core Title! "As a gerontological clinical educator/research nurse, I will often use this as a reference. The format and the content are good, and the explanations of how to best use the evidence simplify the process of sifting through mountains of information to

figure the best practice." Score: 97, 5 stars --Doody's "This third edition holds the promise of bringing yet another level of depth and sophistication to understanding the best practices for assessment, interventions, and anticipated outcomes in our care of older adults. Evidence-Based Geriatric Nursing Protocols for Best Practice is intended to bring the most current, evidence-based protocols known to experts in geriatric nursing to the audience of students, both graduate and undergraduate, practitioners at the staff level from novice to expert, clinicians in specialty roles (educators, care managers, and advanced practice nurses), and nursing leaders of all levels. We owe a debt of gratitude to the many authors and the editors for bringing this work to us."--from the preface by Susan Bowar-Ferres, PhD, RN, CNAA-BC, Senior Vice President & Chief Nursing Officer, New York University Hospitals Center "The greatest beneficiaries of these new practice protocols, however, will be the older adults and their family members who stand to benefit from the greater consistency in care and improved outcomes from care based on the best evidence that is tempered with the expertise of advanced clinician-scholars."--from the foreword by Eleanor S. McConnell, RN, PhD, APRN, BC, Associate Professor and Director, Gerontological Nursing Specialty; Clinical Nurse Specialist, Durham Veterans Administration Medical Center; Geriatric Research, Education and Clinical Center This is the third, thoroughly revised and updated edition of the book formerly entitled Geriatric Nursing Protocols for Best Practice. The protocols address key clinical conditions and

circumstances likely to be encountered by a hospital nurse caring for older adults. They represent "best practices" for acute care of the elderly as developed by nursing experts around the country as part of the Hartford Foundation's Nurses Improving Care to the Hospitalized Elderly project (NICHE). This third edition includes 17 revised and updated chapters and more than 15 new topics including critical care, diabetes, hydration, oral health care, palliative care, and substance abuse. Each chapter includes educational objectives, assessment of the problem, nursing intervention or care strategies, and references; most chapters have case studies.

Evidence-Based Geriatric Nursing Protocols for Best Practice Elsevier Health Sciences

Prepare for a successful career in caring for geriatric populations with Williams' Basic Geriatric Nursing, 6th Edition. This easy-to-read bestseller includes the latest information on health care policy and insurance practices, and presents the theories and concepts of aging and appropriate nursing interventions with an emphasis on health promotion. Part of the popular LPN/LVN Threads series, it provides opportunities for enhanced learning with additional figures, an interactive new Study Guide on Evolve, and real-world clinical scenarios that help you apply concepts to practice. Complete coverage of key topics includes baby boomers and the impact of their aging on the health care system, therapeutic communication, cultural considerations, spiritual influences, evidence-

based practice in geriatric nursing, and elder abuse, restraints, and ethical and legal issues in end-of-life care. Updated discussion of issues and trends includes demographic factors and economic, social, cultural, and family influences. Get Ready for the NCLEX® Examination! section at the end of each chapter includes key points along with new Review Questions for the NCLEX examination and critical thinking which may be used for individual, small group, or classroom review. UNIQUE! Streamlined coverage of nutrition and fluid balance integrates these essential topics. Delegation, leadership, and management content integrated throughout. Nursing Process sections provide a framework for the discussion of the nursing care of the elderly patient as related to specific disorders. Nursing Care Plans with critical thinking questions help in understanding how a care plan is developed, how to evaluate care of a patient, and how to apply knowledge to clinical scenarios. LPN/LVN Threads make learning easier, featuring an appropriate reading level, key terms with phonetic pronunciations and text page references, chapter objectives, special features boxes, and full-color art, photographs, and design. UNIQUE! Complementary and Alternative Therapies boxes address specific therapies commonly used by the geriatric population for health promotion and pain relief. Health Promotion boxes highlight health promotion, disease prevention,

and age-specific interventions. Home Health Considerations boxes provide information on home health care for the older adult. Coordinated Care boxes address such topics as restraints, elder abuse, and end-of-life care as related to responsibilities of nursing assistants and other health care workers who are supervised by LPN/LVNs. Clinical Situation boxes present patient scenarios with lessons for appropriate nursing care and patient sensitivity. Critical Thinking boxes help you to assimilate and synthesize information. 10th grade reading level makes learning easier. NEW! QSEN competencies briefly introduced in the text to help you provide safe, quality care. NEW and UNIQUE! A FREE Study Guide, presented in a comprehensive PDF format on Evolve, reinforces understanding and features an interactive grading functionality for instructors' convenience.

Evidence-Based Geriatric Nursing Protocols for Best Practice
Elsevier Health Sciences

Important Notice: The digital edition of this book is missing some of the images or content found in the physical edition. Gerontological Nursing: Competencies for Care, Second Edition is a comprehensive and student-accessible text that offers a holistic and inter-disciplinary approach to caring for the elderly. The framework for the text is built around the Core Competencies set forth by the American Association of Colleges of Nursing (AACN) and the John A. Hartford Foundation Institute for Geriatric Nursing. Building upon their knowledge in prior medical surgical courses, this text gives students the skills and theory needed to provide outstanding

care for the growing elderly population. It is the first of its kind to have more than 40 contributing authors from many different disciplines. Some of the key features include chapter outlines, learning objectives, discussion questions, personal reflection boxes, and case studies.

Evidence-Based Geriatric Nursing Protocols for Best Practice, Fifth Edition Springer Publishing Company

The only book designed specifically to prepare students for the Adult-Gerontology Acute Care Nurse Practitioner (AG-ACNP) exams, this unparalleled review details the step by step journey from classroom to patient room and beyond. This book begins with proven test-taking strategies for students and provides an overview of common pitfalls for exam-takers. It features question styles and content material from both the American Association of Critical Care Nurses (AACN) and American Nurses Credentialing Center (ANCC) exams, providing an overview of the certification exams written specifically by the certification organizations themselves. With more than 630 unique questions, this review contains completely up-to-date and evidence-based exam preparation. Practice questions are organized into body system review, special populations, and legal/ethical issues, and culminate in a 175-question practice test that represent the length, variety, and complexity of board exam questions. All questions have accompanied rationales based on clinical practice guidelines. Completely unique to this publication, the last section of Adult-Gerontology Acute Care Nurse Practitioner Q&A Review guides through next steps after the exam - how to

progress into practice with your new certification. Key Features: Over 630 practice questions with answers and rationales The only current book publication designed specifically to prepare students for the AG-ACNP exams. Contains the most current information and practice, by using published guidelines. Exam tips and perils/pitfalls to avoid in test taking Bundled with an ebook and interactive app, for different modalities of review and study.

Basic Geriatric Nursing Lippincott Williams & Wilkins

This book provides a comprehensive yet concise review of geriatric psychiatry in preparation for the board exam, or for reference during practice. Written by experts in the field, this text thoroughly reviews over 500 developmental, biological, diagnostic, and treatment questions for board certification. Unlike any other text on the market, this book takes a broader approach to the subject, making it accessible for physicians as well as other clinicians, including nurses, therapists, and social workers. Absolute Geriatric Psychiatry Review is an excellent resource for all clinicians who will care for the mental health of aging patients, including psychiatrists, neurologists, psychologists, therapists, nurses, social workers, nursing home administrators, and all others. Basic Geriatric Nursing - E-Book Springer Publishing Company Nurse practitioners have long required a comprehensive certification review book for the ANCC Gerontological Nurse Practitioner (GNP) exam. This is the first book on the market to provide a thorough review of test content to effectively prepare nurses to successfully pass the GNP certification exam. With almost 200 practice questions culled from the real ANCC test outline, this is the only book nurse practitioners

need to pass the ANCC exam. Key features: Includes guidelines on question dissection and analysis Discusses health promotion and disease prevention Covers assessment of acute and chronic illness Provides information on clinical management and pharmacological/non-pharmacological interventions Describes the nurse practitioner and patient relationship Discusses professional role and policy issues

Gerontology Nursing Case Studies, Second Edition
Springer Publishing Company

Gain the knowledge and skills you need to care for older adults in Canada! Ebersole and Hess' Gerontological Nursing & Healthy Aging in Canada, 3rd Edition uses a wellness-based, holistic approach to older adult care from a distinctly Canadian perspective. Designed to promote healthy aging regardless of the patient's situation or disorder, this book provides best-practice guidelines to help you identify potential problems, address complications, and alleviate discomfort. An Evolve website includes new Next Generation NCLEX®-style case studies and PN competencies case studies to enhance your skills in clinical judgement. Written by a team of gerontological nursing experts led by Veronique Boscart, this concise guide covers health care in the context of the cultural and socio-economic issues unique to Canada. Core competencies identified by the CGNA are integrated throughout the book, reinforcing the standards of the Canadian Gerontological Nursing Association. Assessment guidelines and tools are featured in tables, boxes, and forms, including the latest scales and guidelines for proper health assessment. Focus on health and wellness highlights all aspects of the aging process.

Attention to age, cultural, and gender differences helps you care for different population groups. Evidence-informed Practice boxes summarize research findings and identify those practices with unknown, ineffective, or harmful effects, and examine topics such as culturally safe health initiatives for Indigenous Peoples, lifelong learning and its effects on the wellbeing of older adults, challenges in home care and long-term care homes, and improving outcomes and improving outcomes for seniors living with a stroke or dementia. Activities and discussion questions at the end of every chapter help you understand the material and apply concepts in clinical situations.

Self-assessment of Current Knowledge in Geriatric Nursing Springer Nature

2010 AJN Book of the Year Award Winner in Gerontologic Nursing! Designated a Doody's Core Title! "This is a valuable and timely resource as primary care practitioners are facing a growing aging population. Advanced practice nurses have always been swift to recognize and respond to healthcare challenges, and this resource allows them to be proactive in confronting this evolving healthcare crisis. Nursing faculty can use this resource to design and implement program changes that will help to arm advanced practice nurses with strong gerontological competencies." Score: 100, 5 stars. ó Doody's Medical Reviews "This small book couldn't be more timely. As directors of advanced practice nursing (APN) programs struggle to find resources to convert their existing adult APN tracks into adult ñ gerontology programs, this book offers a clear path for integrating critical content

throughout an entire program. For graduate clinical nursing directors who are challenged to quickly ramp up their gerontology content ó often without having clinical geriatrics specialty experts among their own faculty ó this book will definitely provide that expertise." --AJN This book presents nursing faculty with clear, user-friendly guidelines for incorporating gerontological content into existing non-gerontological Advanced Practice Nursing (APN) programs without requiring major curricular changes. With almost 50 years of combined experience, the authors share a wealth of knowledge and expertise regarding the rationale and strategies for integrating gerontological content into APN curricula. Topics includes health policy, myths of aging, assessment of functional status, normal versus pathological changes in aging, and more. The authors present strategies to integrate blended technology and multiple resources to ensure that students gain gerontological competency. Key Topics: The impact of aging America on advanced practice nursing Gerontologizing" clinical management courses and shaping the clinical experience Strategies for integrating geriatric e-learning materials into APN curricula Evaluation methods for integrating new content into graduate nursing core, APN core, and specialty courses Complete with detailed lists of print media and Internet resources, this book is a must-have for APN faculty across a number of non-gerontological specialty areas, including family, adult, acute, holistic, palliative, and pediatric care. Adult-Gerontology Acute Care Nurse Practitioner Q&A Review Springer Publishing Company

Prepare for a successful career in caring for geriatric populations! Williams ' Basic Geriatric Nursing, 7th edition is an easy-to-read text which presents the theories and concepts of aging along with appropriate nursing interventions. This comprehensive book helps you understand the unique physiologic and psychosocial changes that affect the elderly adult. Threaded throughout this new edition are practical QSEN boxes and Nurse Alert features, which highlight safety, cultural considerations, health promotion, coordinated care, and home care specific to elderly patients. In addition, an online Study Guide, NCLEX®-PN review questions, and real-world clinical situation boxes help you to study for exams and apply concepts to practice. Coordinated Care boxes address such topics as restraints, elder abuse, and end-of-life care as related to responsibilities of nursing assistants and other health care workers who are supervised by LPN/LVNs. Clinical Situation boxes present patient scenarios with lessons for appropriate nursing care and patient sensitivity. UNIQUE! A FREE Study Guide, presented in a comprehensive PDF format on Evolve, reinforces your understanding. 10th grade reading level makes learning easier for you. Nursing Care Plans include Critical Thinking boxes to help you to assimilate and synthesize information. Nursing Process sections provide a framework for the discussion of the nursing care of the elderly patient as related to specific disorders. Cultural Considerations throughout text cover biocultural variations as well as health promotion for specific ethnic groups so you can provide culturally competent care. Health Promotion and Patient Teaching boxes highlight health promotion, disease prevention, and age-specific interventions. Home Health Considerations boxes provide information on home health care for the older adult. NEW! QSEN boxes provide you with the knowledge, skills, and attitudes necessary to continuously improve the

quality and safety of care of the older adult. NEW! Nurse Alert feature emphasizes important safety and health promotion content specific to the elderly patient. NEW! Updated and expanded art program makes learning the material easier through clear and timely photographs and illustrations.

Gerontological Nurse Certification Review, Second Edition Springer Publishing Company

Part of the popular LPN Threads series, this concise text presents the theories and concepts of aging, the physiologic and psychosocial changes and problems associated with the process, and appropriate nursing interventions. With its easy-to-read, clear writing style, this text provides exactly the right depth and breadth of geriatrics content for LPN/LVNs. Clear, concise, consistent writing throughout. Nursing Process section (in appropriate chapters) provides a strong framework for the discussion of the nursing care of the elderly patient as related to specific disorders. Essential ethical and legal issues are presented as they relate to end-of-life care, restraints, and elder abuse. Clinical Situations provide individualized cases for students to study and learn from. Nursing Interventions are grouped according to health care setting to make it easier to determine the appropriateness of individual interventions for different patient populations. All-in-one Student Activities workbook is included in a perforated section at the back of the book and includes NCLEX-style multiple-choice questions as well as the new

NCLEX-style questions (short-answer and fill-in-the-blank) to help students review chapter content and prepare for the NCLEX exam (answers are found in the Instructor's Resource Manual). New chapter on end-of-life care addresses essential content for both institutional and the home setting, including information on palliative and hospice care, pain management, and how belief systems affect the dying person and caregivers. Delegation, leadership, and management content is integrated throughout to address the changing role of LPN/LVNs. Delegation Considerations boxes address such topics as restraints, elder abuse, and end-of-life care as related to responsibilities of nursing assistants and other health care workers who are supervised by LPN/LVNs. Second color added to the design adds visual appeal and helps to emphasize key content. Cultural Considerations boxes help students understand how to provide culturally sensitive patient care. Complementary and Alternative Therapy boxes address popular therapies that are used in pain relief and other treatments. Patient Teaching boxes instruct and inform both elderly patients and their caregivers about health promotion, prevention, and age-specific interventions. Critical Thinking boxes pose questions designed to stimulate thought and help students develop and improve their ability to think critically.
