Geriatric Nursing F.A. Davis

This new edition of one of the premier references for geriatric nurses in hospital, long-term, and community settings

delivers current guidelines, real-life case studies, and evidence-based protocols developed by master educators and practitioners. With a focus on improving quality of care, cost-effectiveness, and outcome, the fifth edition is updated to provide the most current information about care of common clinical conditions and issues in older patients. Several new expert contributors present current guidelines about hip fractures, frailty, perioperative and postoperative care, palliative care, and senior-friendly emergency departments. Additionally, chapters have been reorganized to enhance logical flow of content and easy information retrieval. Protocols, systematically tested by more than 300 participating NICHE (Nurses Improving Care for Health system Elders) hospitals, are organized in a consistent format and include an overview, evidence-based assessment and intervention strategies, and an illustrative case study with discussion. Additionally, protocols are embedded within chapter text, providing the context and detailed evidence for each. Chapter objectives, annotated references, and evidence ratings for each protocol are provided along with resources for additional study. New to the Fifth Edition: Reorganized to enhance logical flow of information and ease of use Updated and

revised Includes new contributions from expert educators and practitioners Provides new chapters on perioperative and postoperative care, general surgical care, care of hip fracture, palliative care, and the senior-friendly emergency department Key Features: Includes PowerPoints and a test bank for instructors Delivers evidence-based, current guidelines and protocols for care of common clinical conditions in the older person Illustrates the application of clinical protocols to real-life practice through case studies and discussion Edited by nationally known geriatric leaders who are endorsed by the Hartford Institute for Geriatric Nursing and NICHE Written for nursing students, nurse leaders, and practitioners at all levels, including those in specialty roles
Basic Geriatric Nursing - E-Book Springer Nature
2010 AJN Book of the Year Award Winner in Gerontologic Nursing! Designated a Doody's Core Title! "This is a valuable and timely resource as primary care practitioners are facing a growing aging population. Advanced practice nurses have always been swift to recognize and respond to healthcare challenges, and this resource allows them to be proactive in confronting this evolving healthcare crisis. Nursing faculty can use this resource to design and implement program changes that will help to arm advanced practice nurses with strong gerontological competencies." Score: 100, 5 stars. ó Doody í s Medical Reviews "This small book couldn í t be more timely. As directors of advanced practice nursing (APN) programs struggle to find resources to convert their existing adult APN tracks into adult ñ gerontology programs, this

book offers a clear path for integrating critical content throughout an entire program. For graduate clinical nursing directors who are challenged to quickly ramp up their gerontology content ó often without having clinical geriatrics specialty experts among their own faculty ó this book will definitely provide that expertise." --AJN

This book presents nursing faculty with clear, user-friendly guidelines for incorporating gerontological content into existing non-gerontological Advanced Practice Nursing (APN) programs without requiring major curricular changes. With almost 50 years of combined experience, the authors share a wealth of knowledge and expertise regarding the rationale and strategies for integrating gerontological content into APN curricula. Topics includes health policy, myths of aging, assessment of functional status, normal versus pathological changes in aging, and more. The authors present strategies to integrate blended technology and multiple resources to ensure that students gain gerontological competency.

Key Topics: The impact of aging America on advanced practice nursing Gerontologizing" clinical management courses and shaping the clinical experience Strategies for integrating geriatric e-learning materials into APN curricula Evaluation methods for integrating new content into graduate nursing core, APN core, and specialty courses Complete with detailed lists of print media and Internet resources, this book is a must-have for APN faculty across a number of non-gerontological specialty areas, including family, adult, acute, holistic, palliative, and pediatric care.

Adult-Gerontology Acute Care Nurse Practitioner Q&A Review Springer Publishing Company

The protocols in this thoroughly updated edition address key clinical conditions and circumstances likely to be encountered by a hospital nurse caring for older adults. They represent "best practices" for acute care of the elderly as developed by nursing experts around the country as part of the Hartford Foundation's Nurses Improving Care to the Hospitalized Elderly project (NICHE). New to this edition are chapters on evaluating practice guidelines and measuring quality and outcome of care. Although the protocols were developed for acute care, they can be easily modified to work in other practice settings, such as the nursing home or home care.
