**Getting Started with XI 3.1 -
Business Intelligence ...**
SAP BusinessObjects is an
enterprise software company,
specializing in business
intelligence. BusinessObjects
was acquired in 2007 by
German company SAP AG.
The company claimed more
than 46,000 customers in its
final earnings release prior to
being acquired by SAP. Its
flagship product is

BusinessObjects XI, with components that provide performance management, planning, reporting, query and analysis, as well as enterprise information management.

BusinessObjects also offers consulting and education
