Riding on the wave of his victory at Atlanta, Union General W. T. Sherman abandoned his supply

lines in an attempt to push his forces into Confederate territory and take Savannah. During their 285-mile 'March to the Sea' the army lived off the land and destroyed all war-making capabilities of the enemy en route. Despite the controversy surrounding it, the march was a success. Supported by photographs, detailed maps, and artwork, this title explores the key personalities and engagements of the march and provides a detailed analysis of the campaign that marked the 'beginning of the end' of the Civil War.

History Alive! Pursuing American Ideals centers on the five founding ideals from the Declaration of Independence: equality, rights, liberty, opportunity, and democracy. Each generation has struggled with these ideals. Some have made little progress toward achieving them. Others have made

great progress. This book invites students to become engaged in this struggle, from establishing an American republic to the making of modern America. --Website. Soldiers National Cemetery at Gettysburg Houghton Mifflin Harcourt "In early June 1863, the Confederate Army of Northern Virginia launched a summer campaign that brought horrific war to the town of Gettysburg, Pennsylvania ... On November 19, 1863, the dedication of a new Soldiers National Cemetery marked a critical point in American history. From its conception, the Soldiers National Cemetery in Gettysburg embodied a fitting tribute to those who gave their last full measure of devotion to a grateful nation. Since that fateful summer of 1863, the cemetery has expanded into a place of memorialization for Americans spanning generations ..."--Back cover

102 Top Picks for Homeschool Curriculum McGraw-Hill/Glencoe Historians overwhelmingly have blamed the demise of Reconstruction on Southerners' persistent racism. Heather Cox Richardson argues instead that class, along with race, was critical to Reconstruction's end. Northern support for freed blacks and Reconstruction weakened in the wake of growing critiques of the economy and calls for a redistribution of wealth. Using newspapers, public speeches, popular tracts, Congressional reports, and private correspondence, Richardson traces the changing Northern attitudes toward African-Americans from the Republicans' idealized image of black workers in 1861 through the 1901 publication of Booker T. Washington's Up from Slavery. She examines such issues as black suffrage, disenfranchisement, taxation, westward migration, lynching, and civil rights to detect the trajectory of Northern disenchantment

with Reconstruction. She reveals a growing backlash from Northerners against those who believed that inequalities should be addressed through working-class action, and the emergence of an American middle class that championed individual productivity and saw African-Americans as a threat to their prosperity. *The Death of Reconstruction* offers a new perspective on American race and labor and demonstrates the importance of class in the post-Civil War struggle to integrate African-Americans into a progressive and prospering nation. Over multiple editions, this transformative text has taught the lively art of rhetorical criticism to thousands of students at more than 300 colleges and universities. Insights from classroom use enrich each new edition. With an unparalleled talent for distilling sophisticated rhetorical concepts and processes, Sonja Foss highlights ten methods of doing rhetorical criticism—the systematic investigation and explanation of symbolic acts and artifacts. Each chapter focuses on one method, its foundational theories, and the steps

necessary to perform an analysis using that method. Foss provides instructions on how to write coherent, well-argued reports of analytical findings, which are then illustrated by sample essays. A chapter on feminist criticism features the disruption of conventional ideologies and practices. *Storytelling in the digital world* is a timely addition to the chapter on narrative criticism. Student essays now include analyses of the same artifact using multiple methods. A deep understanding of rhetorical criticism equips readers to become engaged and active participants in shaping the nature of the worlds in which we live. *Just a Few Words, Mr. Lincoln* Learning Express Llc

The power of words has rarely been given a more compelling demonstration than in the Gettysburg Address. Lincoln was asked to memorialize the gruesome battle. Instead, he gave the whole nation "a new birth of freedom" in the space of a

mere 272 words. His entire life and previous training, and his deep political experience went into this, his revolutionary masterpiece. By examining both the address and Lincoln in their historical moment and cultural frame, Wills breathes new life into words we thought we knew, and reveals much about a president so mythologized but often misunderstood. Wills shows how Lincoln came to change the world and to effect an intellectual revolution, how his words had to and did complete the work of the guns, and how Lincoln wove a spell that has not yet been broken. *Business English* Bloomsbury Publishing

Pillars of the Republic is a pioneering study of common-school development in the years before the Civil War. Public acceptance of state school systems, Kaestle argues, was encouraged by the people's commitment to republican government, by their trust in Protestant values, and by the development of capitalism. The author also examines the opposition to the Founding Fathers' educational ideas and shows what effects these had on our school system.

The Americans Simon and Schuster
Nicholas Cresswell was twenty-
four years old when he left his
birthplace of Edale, England to sail
for Virginia, believing that "a
person with a small fortune may
live much better and make greater
improvements in America than he
can possibly do in England." From
the time he left, sailing from
Liverpool in 1774, until the time he
returned, he kept a diary detailing
his experiences in pre-
Revolutionary America. As a loyal
subject to King George, Cresswell
found himself often unhappy in
America, detailing the turmoil and
abuses often suffered by Loyalists
in the colonies. Confining his travel

mainly to the mid-Atlantic region,
Cresswell not only had occasion to
attend a slave gathering and
observe what went on there, but
also traded amongst many of the
native tribes, including the Lenape,
Tuscarora, Ottawa and Shawnee.
Despite his ambivalence about
returning to England, (toward the
end of the book he moans, "I wish
to be at home and yet dread the
thought of returning to my native
Country a Beggar" (P. 251)), life
in the colonies becomes too much
for this loyal subject and
Cresswell's journal ends in 1777
with his return to England.
