America: A Narrative History SAGE

Never has the World Bank's relief work been more important than in the last nine years, when crises as huge as AIDS and the emergence of terrorist sanctuaries have threatened the prosperity of billions. This journalistic masterpiece by Washington Post columnist Sebastian Mallaby charts those controversial years at the Bank under the leadership of James Wolfensohn—the unstoppable power broker whose daring efforts to enlarge the planet's wealth in an age of globalization and terror were matched only by the force of his polarizing personality. Based on unprecedented access to its subject, this captivating tour through the messy reality of global development is that rare triumph—an emblematic story through which a gifted author has channeled the spirit of the age. This edition features a new afterword by the author that analyzes the appointment of Paul Wolfowitz as Wolfensohn's successor at the World Bank

In the years between 1848 and 1918, the Habsburg Empire was an intensely pluricultural space that brought together numerous “nationalities” under constantly changing – and contested – linguistic regimes. The multifaceted forms of translation and interpreting, marked by national struggles and extensive multilingualism, played a crucial role in constructing cultures within the Habsburg space. This book traces translation and interpreting practices in the Empire's administration, courts and diplomatic service, and takes account of the “habitualized” translation carried out in everyday life. It then details the flows of translation among the Habsburg crownlands and between these and other European languages, with a special focus on Italian–German exchange. Applying a broad concept of “cultural translation” and working with sociological tools, the book addresses the mechanisms by which translation and interpreting constructs cultures, and delineates a model of the Habsburg Monarchy's “pluricultural space of communication” that is also applicable to other multilingual settings. Published with the support of the Austrian Science Fund (FWF)

In her youth, Rose Wilder Lane supported the Russian Revolution, but a trip to Russia quickly dispelled her illusions. She realized that the mass politics of socialism necessarily suppressed individual freedom. America was founded on a different principle: individuals should take

responsibility for their own lives. On this principle, America became the wealthiest of all nations and the hope of the world. The New Deal of 1933 struck against American individualism, substituting for it the tired collectivist programs of Europe. In *Give Me Liberty*, originally published in 1936, Lane called for a return to American individualism and a repudiation of the New Deal.
