This is the extraordinary story
of how one man's indomitable
spirit inspired a nation to
triumph over tyranny. This is
the story of Mahatma Gandhi,
a man who owned nothing-and
gained everything.

General Knowledge MCQs
National Geographic Books
What is the relationship
between common-sense, or
'folk', psychology and
contemporary scientific
psychology? Are they in
conflict with one another?
Or do they perform quite

different, though perhaps
complementary, roles?
George Botterill and Peter
Carruthers discuss these
questions, defending a
robust form of realism about
the commitments of folk
psychology and about the
prospects for integrating
those commitments into
natural science. Their focus
throughout the book is on
the ways in which cognitive
science presents a
challenge to our common-
sense self-image - arguing
that our native conception of
the mind will be enriched,
but not overturned, by
science. The Philosophy of
Psychology is designed as a
textbook for upper-level
undergraduate and
beginning graduate students
in philosophy and cognitive
science, but as a text that
not only surveys but
advances the debates on the
topics discussed, it will also
be of interest to researchers
working in these areas.
