## Student Edition

From the first day your students begin to learn the vocabulary of algebra until the day they take final exams and standardized tests, these programs strengthen student understanding and provide the tools students need to succeed.

## Glencoe Algebra 1 McGraw-Hill Education Problem-solving skills opportunities

Florida McGraw-Hill Education  
The Homework Practice  
Workbook contains two  
worksheets for every lesson in the  
Student Edition. This workbook  
helps students: - Practice the

skills of the lesson, - Use their  
skills to solve word problems.  
Glencoe Algebra 1 - New York  
Edition McGraw-Hill Education  
The American Mathematical  
Monthly recommended this  
advanced undergraduate-level text  
for teacher education. It starts with  
groups, rings, fields, and  
polynomials and advances to  
Galois theory, radicals and roots of  
unity, and solution by radicals.  
Numerous examples, illustrations,  
commentaries, and exercises  
enhance the text, along with 13  
appendices. 1971 edition.

with print, digital and interactive resources. \* Prepares students to meet the rigorous Common Core Standards with aligned content and focus on Standards of Mathematical Practice. \* Meets the needs of every student with resources that enable you to tailor your instruction at the classroom and individual level. \* Assesses student mastery and achievement with dynamic, digital assessment and reporting. Includes Print Student Edition *Applications, Connections. Volume one* McGraw Hill Professional Glencoe's Algebra 1 and Algebra 2 balance sound skill and concept development with applications, connections, problem solving, critical thinking, and technology. Whether your students are getting ready for college or the workplace, this program gives them the skills they need for success. Integration occurs within and across lessons and exercises at the point of instruction. Continual real-life, practical applications keep students excited about learning. Interdisciplinary connections show your students how

---

mathematics relates to science, history, geography, health, careers, and life. Long-term Investigation projects engage students in interesting and relevant applications of mathematics. Modeling Mathematics empowers students to think mathematically as they use charts, graphs, concrete models, hands-on manipulatives, open-ended questions, and chapter projects to discover mathematical concepts. Graphing Technology lessons makes the focus on modeling and functions attractive and accessible to all students.
