Within this cult,  
a person who is  
possessed by  
the spirit of the  
ancestors is  
commonly  
known as Bimbi:  
the seer, a

charismatic and  
moral leader, to  
whom the  
community  
ascribes a  
prophetic role.  
As a religious  
system, the  
Bimbi cult has an  
intricate system  
of agricultural  
rituals such as  
rainmaking  
ceremonies, a  
distinctive  
unwritten  
theology,  
elaborate  
liturgical  
observances and  
an organised,  
inherited  
priesthood.  
Studying the  
Bimbi cult from  
a multi-  
disciplinary  
perspective, the  
author  
illustrated how

traditional beliefs and practices still have a grip on people in the countryside, who live in an agricultural subsistence economy, and at the mercy of ecological forces. He contends that these forces will continue to shape their understanding of God, themselves and the world around them for many years to come, unless these people change from an agricultural to an industrial society.
