Physical Sciences for NGSS has been specifically written to meet the requirements of the Next

Generation Science Standards (NGSS) for High School Physical Sciences (HS-PS). It encompasses all three dimensions of the standards (science and engineering practices, crosscutting concepts, and disciplinary core ideas), addressing the program content through a wide range of engaging student-focused activities and investigations. Through completion of these activities, students

build a sound understanding of science and engineering practices, recognize and understand the concepts that link all domains of science, and build the knowledge base required to integrate the three dimensions of the standards to meet the program's performance expectations.

Glencoe Science

provides students with accurate and comprehensive content coverage of a balance of the three fundamental science disciplines in each course. The concepts covered are explained in a clear, concise manner that can be easily understood by students. This strong content coverage is integrated with a wide range of hands-on experiences, critical-thinking opportunities, real-world applications, and connections to other sciences and non-science areas of the curriculum. <p>Hill/Glencoe Introduction to Sociology 2e adheres to the scope and sequence of a typical, one-semester introductory sociology course. It offers comprehensive coverage of core concepts, foundational scholars, and emerging theories, which are supported by a wealth of engaging learning materials. The textbook presents detailed section reviews with rich questions, discussions that help students apply their knowledge, and features that draw learners into the discipline in</p>	<p>meaningful ways. The second edition retains the book's conceptual organization, aligning to most courses, and has been significantly updated to reflect the latest research and provide examples most relevant to today's students. In order to help instructors transition to the revised version, the 2e changes are described within the preface. The images in this textbook are grayscale. Authors include: Heather Griffiths, Nathan Keirns, Eric Strayer, Susan Cody-Rydzewski, Gail Scaramuzzo, Tommy Sadler, Sally Vyain, Jeff Bry, Faye Jones</p> <p><u>Reading Essentials</u></p>	<p>McGraw-Hill Education 2005 State Textbook Adoption - Rowan/Salisbury. important connection between the science they read and what they experience every day. Relevant content, lively explorations, and a wealth of hands-on activities take students' understanding of science beyond the page and into the world around them. Now includes even more technology, tools and activities to support differentiated instruction! Discovering Life Skills Student Edition McGraw-Hill Education  
Glencoe's Discovering Life

Skills puts students on the path to discovery and excellence! Glencoe Science Voyages McGraw-Hill Education Two additional full-period labs per chapter give students more hands-on experience with key science concepts. These same labs can also be found in the Fast File Chapter Resources. Food for Today, Student Edition Sadlier-Oxford  
Earth science is the study of Earth and space. It is the study of such things as the transfer of energy in Earth's atmosphere; the evolution of landforms; patterns of change that cause weather; the scale and structure of stars; and the interactions that

occur among the water, atmosphere, and land. Earth science in this book is divided into four specific areas of study: geology, meteorology, astronomy, and oceanography. - p. 8-9.
