Can blockchain solve your biggest business problem? While news outlets are transfixed with Bitcoin's latest swings, your most forward-looking competitors are tuning out the noise and quietly making key bets on blockchain. They're effortlessly tracking every last link in their supply chains. They're making bureaucratic paper trails obsolete while keeping their customers' data safer. And they're imagining new ways to use this next foundational technology to sustain their competitive advantage. What should you be doing right now to ensure that your business is poised for success? These articles by blockchain experts and consultants will help you understand today's most essential thinking on what blockchain is capable of now, how to adopt it in your organization, and how the technology is likely to be used in the near future and beyond. Blockchain: The

Insights You Need from Harvard Business Review will help you spearhead important conversations, get going on the right blockchain initiatives in your company, and capitalize on the opportunity of the coming blockchain wave. Catch up on current topics and deepen your understanding of them with the Insights You Need series from Harvard Business Review. Featuring some of HBR's best and most recent thinking, Insights You Need titles are both a primer on today's most pressing issues and an extension of the conversation, with interesting research, interviews, case studies, and practical ideas to help you explore how a particular issue will impact your company and what it will mean for you and your business.

Research Anthology on Convergence of Blockchain, Internet of Things, and Security Simon and Schuster

Scientific discoveries are transforming our lives and the economies of nations worldwide---we live in an amazing time. In exploring the dynamic changes taking place in research---and the monumnetal impact these changes will have on our lives---Research for the Global Good sheds light upon the vast research opportunities at hand and shows how economies, health, education, and the environment can be transformed through dedicated research and development. By encouraging leaders of private industry and academic institutions, politicians, philanthropists and scientists to join with others to support research---whether through

financing, political decision-making, education, laboratory construction, or through conducting the actual research---author Dan Watch is passionate in his belief that scientific potential can be maximized for the greater good. This book seeks to inspire readers to support research that can improve the lives of people worldwide. As leader of the Science and Technology market sector for the architecture firm Perkins+Will, Dan Watch has been responsible for the design of some of the most significant laboratory facilities both in the US and around the world. Through constant research, he is able to provide the latest trends and design solutions for clients of government, private sector, and academic research laboratories including the Centers for Disease Control and Prevention, Department of Homeland Security, National Institutes of Health, and several academic and private industry research institutions. Additionally, Mr. Watch has been invited to speak at numerous noteworthy institutions including the Academy of Sciences in Beijing, Edinburgh's Science Parks, and Harvard University. This is Mr. Watch's third book.

This book offers readers a startling view of how blockchain technology will transform the financial industry in profound ways. Some of the world's top thinkers in blockchain have contributed chapters that survey the coming digital storm - how it will level the playing field, give individuals more financial power, and create greater transparency in operations.

Written for the educated financial reader, it reveals how blockchain can create a token-based incentive system that aligns the interests of participants in large-scale initiatives, as well as the rewiring of global payment networks and innovative financing methods such as initial coin offerings to fund infrastructure development. The transition for the financial industry is bound to be complicated, but it presents enormous opportunity for those who understand the storm as it's brewing. "In Financial Services Revolution, Alex Tapscott opens a window into a dynamic future, featuring the early stages of a transition to a natively digital global economy, sporting various degrees of decentralization. It will be a complicated transition for financial, economic, social, and political systems, but I see it as one pregnant with hope and promise." - Joseph Lubin, CEO, ConsenSys "Nobody has a better handle on the coming digital storm and its broad

implications than Alex Tapscott. In Financial Services Revolution, Alex lays out the blueprint for how to survive and then thrive in this era of digital disruption." - Harris Fricker, President and CEO, GMP Securities LP "Alex Tapscott is one of the blockchain industry's foremost leaders and earliest believers. His work as an investor, advocate, educator, and business builder has contributed immense value to the development of the digital asset market." - Cole Diamond, Chairman and CEO, Coinsquare "This book will help successful financial services leaders with a pressing need: to relentlessly push the boundaries of their tech knowledge, with imagination around its application." - Dean Connor, President and CEO, Sun Life Financial "Blockchain has the potential to transform financial services in profound ways, to level playing fields, favour collaboration over competition, and enable the individual to enjoy as much agency as the corporation does today in financial matters. This book explains how. A must-read." - Joseph Lubin, CEO, ConsenSys "This book shows how blockchain is a game changer for data and transfer of value -at the heart of financial and government services today. " - Linda Mantia, former Senior Executive Vice President and Chief Operating Officer, Manulife Financial "It was an honour to contribute to the Blockchain Research Institute's comprehensive investigation into blockchain's promise and the challenges that come with it. This is a must-read volume for anyone interested in this potentially transformative technology." - Michael Casey, Chief Content Officer, CoinDesk "Thoroughly researched and brimming with new insights, Financial Services Revolution is required reading for every Wall Street banker and all who care about the future of money and finance." - Bill Barhydt, CEO and Founder, Abra "Alex Tapscott has been among the first and most thoughtful contributors to the global conversation on the future of finance. This book extends that dialogue. It looks at how financial services might approach a technological revolution originally designed to disintermediate it." - Matthew Roszak, Chairman and Co-founder, Bloq
Network World CRC Press
Power and Authority in Internet Governance investigates the hotly contested role of the state in today's digital society. The book asks: Is the

state "back" in internet regulation? If so, what forms are state involvement taking, and with what consequences for the future? The volume includes case studies from across the world and addresses a wide range of issues regarding internet infrastructure, data and content. The book pushes the debate beyond a simplistic dichotomy between liberalism and authoritarianism in order to consider also greater state involvement based on values of democracy and human rights. Seeing internet governance as a complex arena where power is contested among diverse non-state and state actors across local, national, regional and global scales, the book offers a critical and nuanced discussion of how the internet is governed - and how it should be governed. *Power and Authority in Internet Governance* provides an important resource for researchers across international relations, global governance, science and technology studies and law as well as policymakers and analysts concerned with regulating the global internet. *Big Ideas* The Chicago Council on Global Affairs

'Readers interest in an overview of important aspects of the strategy field will find this book a helpful volume to add to their shelves' - *Administrative Sciences Quarterly* This is a new overview of the strategy field, with internationally renowned contributors summarizing the latest directions and developments in strategic management theory in the context of their theoretical roots in

economics, organization theory, and systems theory. The contributors outline the most promising new directions on the basis of a systemic treatment of paradigms or schools of thought in strategy: redrawing firm boundaries, developing dynamic capabilities and discovering viable strategy configurations. The volume will be an invaluable companion to advanced courses in strategy and management, used as a reader alongside case material and field studies. As well as providing a summary and evaluation of the different schools of thought in strategy, the volume offers a synthesis of the American and European approaches.

How Will Blockchain Change The World Springer

Shows examples of how network and multimedia technology is affecting business

Computerworld McGraw Hill Professional The acclaimed bestseller that's teaching the world about the power of mass collaboration. Translated into more than twenty languages and named one of the best business books of the year by reviewers around the world, *Wikinomics* has become essential reading for business people everywhere. It explains how mass collaboration is happening not just at Web sites like Wikipedia and YouTube, but at traditional companies that have embraced technology to breathe new life into their enterprises. This national bestseller reveals the nuances that drive *wikinomics*, and share fascinating stories of how masses of people (both paid and volunteer) are now creating TV news stories, sequencing the human genome, remixing their favorite music, designing software, finding cures for diseases, editing school texts, inventing new cosmetics, and even building motorcycles. *World 3.0* Barlow Publishing

Amazon.com商業理財分類 Top1 全球「50大商業思想家」、數位經濟之父最新力作《富比士》、《時代》、《華爾街日報》、金融界、科技界、創投界一致口碑推薦
未來十年全球最值得關注的科技趨勢 改變世界與經濟舊有秩序的新力量 區塊鏈 如果..... 你是躍躍欲試的創業家，想要找到新平台大展身手。 你熱愛音樂，希望創作者不被層層剝削，確實靠自己的作品謀生。 你關心食安，想知道超市商品的真正來源。 你有定期投資的習慣，但微薄的投資利潤，總是

被交易手續費吃掉。 你是Airbnb的房客，除了租金，還得多付6% 12%的服務費。 有沒有一項技術，可以解決像這樣機會不均、過程不透明、中介機構過多的類似問題，帶給人們更便利的生活，實現更公平的財富分配與社會正義？ 全球50大管理思想家唐·泰普史考特說：「有，那就是區塊鏈。」 第一代數位革命帶給我們資訊豐富的網際網路，以區塊鏈技術為基礎的第二代數位革命，則帶給我們充滿價值的網際網路。 區塊鏈是一種精簡的革命性協定，兼顧了匿名與資訊安全。 這項科技不但催生含比特幣在內的多種數位貨幣，發展潛力更是不容小覷，幾乎可以完整記載人類所有的價值活動，例如從出生到死亡的保險理賠，甚至每一次的投票行為。 全球最重要的金融業者，包括高盛、摩根大通、瑞士信貸等，都成立專責機構，研究如何運用區塊鏈來加快交易流程，並提高交易的安全性。 這項技術公開、加密性強、可讓所有人運用的科技，將會扭轉全世界商業行為，甚至是一切人類行為。 數位經濟之父唐·泰普史考特長年精準引介下一波大趨勢，這次他與身為區塊鏈專家的兒子亞力士聯手，為我們帶來這本分析深刻卻好讀的作品，這將是關心未來趨勢的普羅大眾及商界領袖不可或缺的基础讀本。 前瞻推薦「區塊鏈是資訊科學史上最具有決定性的關鍵發明之一，閱讀本書，將可以讓你了解它影響力深遠的運用方式。」

馬克·安德森 (Marc Andreessen)，網景共同創辦人「泰普史考特父子的這本書，揭露了如何在下一波科技推動的巨變中求生與發展，很有機會成為我們這個世代最具代表性的作品之一。」

克雷頓·克里斯汀生 (Clayton Christensen)，《創新的兩難》作者「只要是思慮周密的人，都試圖了解這項革命性的科技，以及它對於世界的影響，而泰普史考特父子卻已經站上時代的浪頭

，為我們帶來這期盼已久的一部作品。」的獨到見解，看穿足以重新塑造全球經濟的新科技。如此佳作，絕非過譽！」

丹·舒爾曼 (Dan Schulman)，PayPal 執行長「很少人光靠一本書就能改變世人的焦點話題，不過這本書有機會名列其一。區塊鏈是第四波產業革命的核心，泰普史考特父子用洗鍊的文筆，解說為何及如何抓住其中商機，並避開其中風險。」

克勞斯·施瓦布 (Klaus Schwab)，世界經濟論壇創辦人暨執行主席「本書研究成果鉅細靡遺、文筆優美，指出『承載價值的網路』將改變我們的生活方式。對於身處科技日新月異時代的我們，這是一本不容錯過的作品。」

鮑達民 (Dominic Barton)，麥肯錫顧問公司全球董事總經理「非常精彩的一本書，其深度與廣度頗有振聳發聵的效果，不禁讓我感覺到以科技、經濟與社會史的角度來看，我們正處於一個天空才是極限的世代。」

史蒂夫·沃茲尼克 (Steve Wozniak)，蘋果電腦共同創辦人「區塊鏈之於建立信用的效果，猶如網路對於資訊的傳播效果一樣。如同網路發軔之初，區塊鏈也一樣具有改變所有一切的可能；看過這本書的你就會知道此言不虛。」

伊藤穰一 (Joichi Ito)，麻省理工學院媒體實驗室主任「以往科技沿革的過程，要耗費一整個世代的時間慢慢醞釀，現在卻在眨眼之間逼近到我們面前。泰普史考特父子無疑就是講述這個故事的最佳人選。」

艾瑞克·史派格 (Eric Spiegel)，美國西門子總裁暨執行長「這本書慨陳深度發展的新科技，與人類最深層的需求建立信賴息息相關。詳盡的研究調查在生花妙筆下逐一展開，所有認真的商場人士和政策制定者，都需要好好讀一讀本書。」

布萊恩·費瑟史東 (Brian Fethers tonhaugh)，奧美互動行銷董事長暨執行長「用如此炫目，卻也讓人放下戒心

we exchange value. This will transform the best practices of operations, logistics, procurement and purchasing, transportation, customs and border control, trade finance and insurance, manufacturing, and inventory management. Global supply chains are ripe for disruption at every level and in every role. Supply Chain Revolution identifies what leaders should be doing now to prepare their organizations for the inevitable decentralized future. Enterprise executives and entrepreneurs alike will find ideas and opportunities to discuss with their stakeholders and decide how best to participate in the blockchain revolution. For more than 40 years, Computerworld has been the leading source of technology news and information for IT influencers worldwide. Computerworld's award-winning Web site (Computerworld.com), twice-monthly publication, focused conference series and custom research form the hub of the world's largest global IT media network.

Digital Humanitarians John Wiley & Sons

Since the financial crisis of 2008, many of us have had to reexamine our beliefs about markets and globalization. How integrated should economies really be? How much regulation is right? Many people fuse these two dimensions of choice into one, either favoring both globalization and deregulation—or opposing both of them. It doesn't have to be that way. In World 3.0,

award-winning author and economist Pankaj Ghemawat reveals the folly in both of these responses. He calls for a third worldview—one in which both regulation and cross-border integration coexist and complement one another. Ghemawat starts by exposing common assumptions about globalization to hard data, proving that the world is not nearly as globalized as we think. And he explains why the potential gains from further integration are much larger than even pro globalizers tend to believe. He then tackles market failures and fears—job losses, environmental degradation, macroeconomic volatility, and trade and capital imbalances—that opponents of globalization often invoke. Drawing on compelling data, he shows that increased globalization can actually alleviate some of these problems. Finally, Ghemawat describes how a wide range of players—businesses, policy makers, citizens, media—can help open up flows of ideas, people, and goods across borders, but in ways that maximize the benefits and minimize the potential side effects. World 3.0 dispels powerfully entrenched—but incorrect—assumptions about globalization. Provocative and bold, this new book explains how people around the world can secure their collective prosperity through new approaches to cross-border integration. Ghemawat's thinking will surprise and move you—no matter where you stand on

globalization.

Wikinomics Barlow Publishing
Transforming Climate Finance and Green Investment with Blockchains establishes and analyzes the connection between this revolutionary technology and global efforts to combat climate change. The benefits of blockchain come through various profound alterations, such as the adoption of smart contracts that are set to redefine governance and regulatory structures and transaction systems in coming decades. Each chapter contains a problem statement that describes the challenges blockchain technology can address. The book brings together original visions and insights from global members of the Blockchain Climate Institute, comprising thought leaders, financial professionals, international development practitioners, technology entrepreneurs, and more. This book will help readers understand blockchain technology and how it can facilitate the implementation of the Paris Agreement and accelerate the global transition to a green economy. Provides an authoritative examination of this emerging digital technology and its implications on global climate change governance Includes detailed proposals and thorough discussions of implementation issues that are specific to green economy sectors Relates innovative proposals to existing applications to demonstrate the value add of blockchain

technology Covers blockchain for the smarter energy sector, for fraud-free emissions management, to streamline climate investments, and legal frameworks for blockchain-based climate finance

Cludonomics HBR Insights
The world's governments are overwhelmed with climate change, war and unrest, the global financial crisis and poverty but there is a promising invention in Global Action Networks (GANs). GANs mobilize resources, bridge divides and promote the long-term deep change and innovation work that is needed to address the global challenges.

Thinkers 50: Innovation, Leadership, Management and Strategy (EBOOK BUNDLE) Penguin
Welcome to the world of the naked corporation. Transparency is revolutionizing every aspect of our economy and its industries and forcing firms to rethink their fundamental values. We are in an extraordinary age where businesses must make themselves clearly visible to shareholders, customers, employees, partners, and society. Financial data, employee grievances, internal memos, environmental disasters, product weaknesses, international protests, scandals and policies, good news and bad; all can be seen by anyone who knows where to look. Don Tapscott, bestselling author and one of the most sought after strategists and speakers in the business world, is famous for seeing into the future and pointing out both its forest and its trees. David Ticoll, visionary researcher, columnist, and consultant, has identified countless breakthrough trends at the intersection of technology and business strategy. These two longtime collaborators now offer a brilliant guide to the new age of openness.

In *The Naked Corporation*, they explain how the new transparency has caused a power shift toward customers, employees, shareholders, and other stakeholders; how and where information has exploded; and how corporations across many industries have seized on transparency not as a challenge but as an opportunity. Drawing on such examples as Shell Oil's reinvention of itself as an environmentally focused business, to Johnson & Johnson's longstanding and carefully nurtured reputation as a company worthy of trust—as well as little-known examples from pharmaceuticals, insurance, high technology, and financial services—Tapscott and Ticoll offer invaluable advice on how to lead the new age, rather than simply react to it. *The Naked Corporation* is a book for managers, employees, investors, customers, and anyone who cares about the future of the corporation and society.

Don Tapscott, one of the world's great thinkers on the Internet, became Chancellor of his alma mater, Trent University, in 2013. Over the next 6 years, he spoke to students about all kinds of things--designing their lives, the value of a Liberal arts education, how to thrive in the digital age, how to be resilient. Those delightful speeches have been compiled in this book. It also includes articles in Harvard Business Review, the Globe and Mail, and other journals about his ground-breaking ideas on the impact of the blockchain on higher education, the dark side of the digital economy, and the challenge that awaits young people graduating from university.

Computerworld SAGE

This book constitutes the refereed proceedings of the 13th International Conference on Augmented Cognition, AC 2019, held as part of the 21st

International Conference on Human-Computer Interaction, HCII 2019, in Orlando, FL, USA in July, 2019. The 1274 full papers and 209 posters presented at the HCII 2019 conferences were carefully reviewed and selected from 5029 submissions. The papers cover the entire field of human-computer interaction, addressing major advances in knowledge and effective use of computers in a variety of applications areas. The papers in this volume are organized in the following topical sections: cognitive modeling, perception, emotion and interaction; human cognition and behavior in complex tasks and environments; brain-computer interfaces and electroencephalography; and augmented learning.
