the ideal reference for those firearms, taking your abilities to a higher level. AR-10 Rifle Owner Manual Erik Lawrence Publications The growing concern over the number of accidental firearm shootings, especially those involving children, prompted passage of the initial handgun safety law which went into effect in 1994. The stated intent of the California Legislature in enacting the current FSC law is for persons who obtain firearms to have a basic familiarity with

including, but not limited to, the safe handling and storage of those firearms. The statutory authority for this program is contained in Penal Code sections 26840 and 31610 through 31700. These statutes mandate DOJ to develop, implement and maintain the FSC Program. Pursuant to Penal Code section 26840, a firearms dealer cannot deliver a firearm unless the person receiving the firearm presents a valid FSC, which is obtained by passing a written test on

firearm safety. Prior to taking delivery of a firearm from a licensed firearms dealer, the purchaser/recipient must also successfully perform a safe handling demonstration with that firearm.. In light of the 2nd  
Amendment  
debates, shooting  
may become the  
national passtime.  
To act responsibly  
within the 2nd  
Amendment,  
means knowing  
how to properly  
"bear arms".  
Knowing involves  
understanding  
firearm types,  
firearm operation,  
ammunition,  
internal ballistics,  
and shooting.  
These require  
training, especially  
shooting. Whether  
you own or plan to  
own a handgun for  
recreation,  
competition, or self-  
defense, training is

of the utmost  
importance. When  
you fire a projectile  
(bullet) from a  
firearm, you are  
responsible for  
where it goes. You  
need to understand  
how fast it travels,  
how far it can  
travel, and how  
accurate your  
firearm is in  
delivering the  
projectile to your  
intended target.  
Yes, bearing arms is  
a right, but not one  
to be taken lightly.  
Firing a handgun is  
a grave  
responsibility and  
must be done  
correctly and with a  
full understanding  
of all the  
components that  
make up

"shooting".
